Foreword

Government's fiscal consolidation instruments are a permanent feature in the province's fiscal framework as part of National Treasury's efforts to manage the primary deficit, and this inevitably impacts directly on our budget. This is further compounded by revenue shortfalls both at national and in the province. It therefore follows that any shortfalls at national government will adversely impact on the estimates of the province.

Despite these challenges, the fiscal sustainability of the province remains a top priority and we have shown resilience in that we have managed to make provision for some of the emerging provincial priorities over the next three years.

The budget for compensation of employees is set to grow by an average of 7 per cent over the next three years well above the projected consumer price index (CPI). Education and Health continues to drive employment numbers in the province, these two departments constitute 78 per cent of the total provincial budget in respect of personnel expenditure.

As part of Government's intervention to manage the wage bill, it is estimated that 30 000 people across the country will take up subsidised early retirement with no penalties applied. This dispensation will target employees between the ages of 55 and 59 years old. The province currently has 3634 employees within this age bracket. This strategy is expected open up space at the lower echelon to provide young people with decent employment opportunities.

National Treasury has undertaken to review the Provincial Equitable Share Formula (PES), which aims to incorporate the Rural Component into the formula, taking into account rural and urban cost differentials. Although work was targeted on defining "rural" so as to better differentiate between rural vs urban cost differentials in the provincial equitable share formula, there has been delays in this process and work will continue in the 2019 financial year. This review is generally expected to make the equitable share formula more redistributive towards smaller and rural provinces.

We have firmly prepared ground for the incoming Administration to inherit a well-oiled machinery capable of continuing the sterling work achieved by maintaining the current fiscal consolidation stance. Having said that, this does not mean the budget is a purely technical exercise because budgets are inevitably political. This is not only because they adjudicate over choices to be made, but also because they are products of political choices and ultimately the choices made reflect the balance of power between competing demands.

Overview of Provincial Revenue and Expenditure

1. Socio-Economic Outlook

1.1. Demographic Profile

This section provides the demographic analysis for the Northern Cape Province. This analysis is important as it shows the socio-economic conditions of the province. This will guide the allocation of resources in order to improve the living conditions of the people of the province.

Table 1.1 presents the total population for the province and the five district municipalities for 2007 and 2017.

Table 1.1: Total Population in Northern Cape per District, 2007 and 2017

District	Total Population		Percentage (%)

Frances Baard was the biggest district in terms of population size in the province, representing 32.3 per cent in 2017. Namakwa remained the smallest in the province at 10.6 per cent.

In the table below, the percentage change in the Northern Cape's population is given. The province's number of households as well as population by race and gender is also provided.

Table 1.2: Northern Cape's Population Dynamics & Households Number, 2007 and 2017

The province had a positive population growth rate implying that there was a rise in its total population between 2007 and 2017. The province's total population grew on average by 1.7 per cent per year for the period under study. The provincial households also grew in numbers as a result of increased population size. In 2017, on average, the number of people per household were 3.6. In terms of population groups, Africans comprised the largest share of the population in the Northern Cape, followed by Coloureds while Asians were the smallest.

Figure 1.1 below shows the Northern Cape's population pyramids for 2007 and 2017.

Figure 1.1: Population Pyramid for Northern Cape, 2007 and 2017

Source: IHS Markit, 2019 [Regional eXplorer Version 1570 (2.6d)]

The Northern Cape's population pyramids for 2007 and 2017 do not differ much. However, the 2007 one has a broader base, indicating a larger number of young people. For both the years under review, children aged between 0 and 4 were representing the largest share of the population while those aged 70 to 74 were the smallest. Females were more than their male counterparts in both years, shown by the skewness of each pyramid to the right.

The graph below provides a comparison of the education attainment in Northern Cape for 2007 and 2017.

Figure 1.2: Education Attainment in Northern Cape, 2007 and 2017

Source: IHS Markit, 2019 [Regional eXplorer Version 1570 (2.6d)]

There has been improvement in some education levels in the Northern Cape between 2007 and 2017. For example, the number of people who had matric only, matric and a diploma, matric and bachelor's degree, and matric and a postgraduate degree had increased between 2007 and 2017. There was a decline in the number of people who had no schooling in 2017.

According to the South African Constitution, every citizen is entitled to receiving basic services.

Table 1.3 presents the number of households that had and did not have access to basic services in 2007 and 2017.

Table 1.3: Households With and Without Basic Services Access in Northern Cape, 2007 and 2017

Source: IHS Markit, 2019 [Regional eXplorer Version 1570 (2.6d)]

There has been a rise in the number of households that had access to services in 2017 in comparison to 2007. As a result, the number of households without access to services had declined in 2017, except for refuse removal.

Figure 1.3 below shows the number of households by income category in the Northern Cape for 2007 and 2017.

Figure 1.3: Number of Households by Income Category, 2007 and 2017

Source: IHS Markit, 2019 [Regional eXplorer Version 1570 (2.6d)]

In 2017, the largest number of households was falling in the R192 000-R360 000 income category, while the smallest number of households was falling in the R0-R2 400 income category.

1.2. Economic Indicators

Figure 1.4 below shows the gross domestic product (GDP) growth rates of South Africa and the Northern Cape for the period from 2007 to 2021. The figures for 2018 and 2019 to 2021 were estimated and forecasted respectively.

Source: StatsSA P0441 Q4 2017 (SA and NC 2007-2016), National Treasury Budget Review 2019 (SA 2017-2021)

Both national and provincial economic growth peaked in 2007 at 5.4 and 3.3 per cent respectively, while negative growth was only recorded in 2009 in both the province and the country over the review period. The projections show expectations of fairly low, but increasing growth for the national economy for the period from 2019 to 2021.

Table 1.4 below shows the provincial sectoral growth and contributions to the GDP of the province for 2015 and 2016.

In 2016, *Mining and quarrying* and *General government services* were the largest industries, accounting for 18.9 and 15.4 per cent respectively of the provincial economy. The *Tertiary sector* accounted for more than half of the GDP of the province. Negative growth was recorded in *Agriculture, forestry and fishing* and *Electricity, gas and water* in 2016. The rest of the industries recorded positive but fairly low growth. The total growth in GDP of the province declined slightly over the review period by 0.5 of a percentage point.

Figure 1.5 below illustrates the contributions made by all of the provinces to the national GDP in 2006 and 2016. This provides context to the size of the Northern Cape economy in comparison to the economies of the other provinces.

Figure 1.5: Provincial Contributions to South Africa's GDP, 2006 and 2016

Source: StatsSA P0441 Q4 2017

Gauteng remained the largest contributor to national GDP, contributing slightly over a third. KwaZulu-Natal and Western Cape made the second and third largest contributions, while the Northern Cape was the smallest contributor to national GDP in both 2006 and 2016.

1.3. Labour Status

In Figure 1.6 below, the unemployment rates of the provinces are compared for quarter 4 of 2017 and quarters 3 and 4 of 2018.

In quarters 3 and 4 of 2018, Limpopo had the lowest unemployment rate at 18.9 and 16.5 per cent respectively. In quarter 4 of 2018, the Northern Cape had the third lowest unemployment rate at 25.0 per cent, while the Eastern Cape had the highest unemployment rate. There was an increase in the unemployment rates of the Eastern Cape and Kwa-Zulu Natal from the third to fourth quarter of 2018.

Table 1.5 below provides the labour market status of the Northern Cape for quarter 4 of 2017 and quarters 3 and 4 of 2018.

The Northern Cape unemployment rate decreased by 2.0 percentage points on a quarterly basis and 2.1 percentage points on an annual basis to 25.0 per cent in the fourth quarter of 2018. On an annual basis, there was no change in the number of employed people, while the number unemployed decreased by 12 000. The not economically active population increased by 21 000 over the same period. Looking at the quarterly changes, the number of employed people decreased by 1 000, the unemployed decreased by 12 000 and the not economically active people increased by 15 000.

Figure 1.7 below shows the distribution of the employment by industry for the Northern Cape for the fourth quarter of 2018.

Figure 1.7: Employment by Industry for Northern Cape, 2018 Q4

Source: Stats SA P0211 – QLFS Q4 2018

Community and social services employed 32 per cent of the employed people in the province, making it the largest employer in the province. The second largest employing industry was *Trade* followed by *Agriculture*. *Utilities* only employed 1 per cent, making it the smallest employing industry in the province, with *Transport* being the second smallest Budget strategy and aggregates

2. Budget Strategy and aggregates

2.1. Introduction

The provincial budget grows from R17.535 billion in 2018/19 to R20.511 billion in the outer year of the 2019 MTEF. The equitable share transfers from national government constitute 73 per cent of the total provincial receipts followed by conditional grants at 25 per cent, whilst provincially own collected revenue account for only 2 percent.

The provincial equitable share formula for the 2019 MTEF was updated and resulted in the share of the Northern Cape reducing from 2.7 percent to 2.6 per cent. This reduction will have serious negative consequences in future allocations to the province as this will mean that less money will be available to the province for service delivery purposes.

As part of the PES review Budget Council Lekgotla resolved to replace census 2011 numbers with Mid-Year Population Estimates (MYPE) for the 5-17 cohort.

The provincial equitable share formula is updated annually and consequently adjusted the provincial baseline due to the new data updates which have resulted in a reduction on the provincial equitable share amount to R170 million because of government effort towards fiscal consolidation.

Furthermore, an amount of R157 million is made available in the 2019 MTEF financial year for various government priorities such as the sanitary dignity project, funding for the absorption of Cuban doctors as well as allocations for the capacitation of provincial treasuries to address challenges in municipalities and the monitoring of infrastructure projects.

2.2. Aligning provincial budgets to achieve government's prescribed outcomes and Provincial Development Plan

Government's Outcomes have been firmly institutionalised in the planning and strategic documents of all provincial departments and indicators have been developed accordingly in line with these outcomes. This has allowed the Legislature and the Department of Planning, Monitoring and Evaluation to exercise monitoring and oversight in the implementation of these outcomes.

The Province has also completed the Provincial Development Plan (PDP) 2030 Vision; this framework will also assist PT to align resources towards the achievement of this plan. Office of the Premier is also building the requisite capacity in order to align and integrate Provincial and Local Government planning, this will go a long way in eliminating the current fragmentation between these two spheres.

With the adoption of the PDP 2030 Vision for the Northern Cape, an opportunity is presented for the new Administration to build on this foundation and present the 5 Years Strategic Plans and Annual Performance Plans towards the progressive realisation of our long-term vision.

The Northern Cape equitable share allocation grows by 7.6 per cent to R13.424 billion in the 2019/20 financial year and at an average of 7.1 per cent over the MTEF. Conditional grants have seen a negative growth of 4.5 per cent to R4.483 billion compared to the revised estimates, this is mainly to continue with government's efforts of fiscal consolidation. The revenue generated within the province shows an increase of 5.1 per cent to R384.689 million from a revised estimate of R366.152 million.

The total provincial receipts amount to R18.292 billion in the 2019/20 financial year. The two outer years of the medium term increase to R19.222 billion and R20.511 billion respectively. The remaining surpluses after factoring out provincial payments, amounts to R36.726 million in 2019/20, R246.929 million in 2020/21 and R390.194 million in 2021/22.

Financing

The budget of the province is mainly financed through transfers from national in the form of equitable share and conditional grants and supplemented by provincial own revenue which constitutes only 2 per cent of the total provincial budget. The province is embarking on various efforts in order to increase the provincially generated revenue.

Surplus

The province has in total budgeted for a committed surplus amounting to R673 million over the 2019 MTEF. An amount of R148 million is set aside for the Debt Redemption Strategy over the MTEF, R20 million is earmarked for townships revitalisation projects and an amount of R463 million remains unallocated in respect of the shortfall on the improvements on conditions of service and the remaining R80 million is committed towards the revitalisation of the provincial IT network.

3. Budget Process and the Medium-Term Expenditure Framework

The budget process of the province starts essentially in June / July every year with budget workshops and planning the process with the relevant stakeholders. This phase builds into the different forums to clearly articulate out how the entire process will flow and how budgetary decisions will be communicated.

The purpose of the budget process is mainly to allow the Executive Council to become actively involved during the implementation of the budget. PT present quarterly reports to both the Executive Council and the respective committees of the Legislature on a regular basis, as it relates to risks identified in the budgets of various departments. This assists in ensuring proper political oversight over the budget and expenditure.

The Treasury Committee as the technical committee of the Executive Council is responsible for assessing and endorsing all budget proposals in line with the policy priorities of the province.

Municipal Finance Management Budget Process Highlights

In order to improve the monitoring of financial management within the local government, all Provincial Treasuries adopted a set of six game changers (Revenue Management, Asset Management, Supply Chain Management, Funded Budgets, MSCOA and Audit Support).

To ensure that the Northern Cape PT also complies with this requirement, the strategy to support municipalities was also reviewed to cater for this game changers. Subsequently, the National Treasury through the MFIP programme appointed specialist in line with the above game changers to assist in building capacity in municipalities and Provincial Treasuries.

Annually there are two main engagement sessions in the Local Government

Draft budget engagement, which aims at influencing the final budgets of municipalities. This engagement takes place in April/May each year.

- The mid-year engagement, which aims at influencing the adjustment and draft budgets of municipalities. This engagement happens in February.
- To assist municipalities in planning for these engagements, the engagement dates are communicated to municipalities in August to ensure that these dates are included in the budget schedule of key deadlines of municipalities.

The municipal Chief Financial Officers Forum is taking place on a quarterly basis. This is the platform where municipal officials share good practices and new reforms are workshopped.

4.1 Overall position

South Africa is a small open economy and we are impacted by events in the global economy. World growth is expected to slow down, constraining South Africa's export growth forecast. These macroeconomic conditions have led to a weaker economic outlook." (2019 Budget Speech, Minister of Finance: Tito Titus Mboweni).

In view of the current economic conditions which are characterised by slow economic growth, recession, ratings downgrades; the fiscal policy and the overall funding envelope available to the province have been negatively affected. The Northern Cape government funds provincial expenditure through the national transfers comprised of the provincial equitable share and conditional grants as well as provincial own receipts (made up of taxes and fees/user charges).

The PES provides for a formula-based approach of dividing nationally raised revenue between the provinces. Equitable share contribute the highest towards total receipts followed by conditional grants and provincially generated revenue, respectively.

Conditional grants were introduced to provincial departments over and above the equitable share to address the priorities of the national government where services are provided and to address policy concerns that are inter-provincial in nature. These grants are designed to achieve specific objectives, and provinces must fulfil certain conditions to receive them.

The provincially generated own revenue is mainly from motor vehicle licences, casino taxes, patient fees, interest earned on short-term investment and on sale of goods and services.

Table 1.7 shows the actual and projected total receipts of the province over a seven-year period, which includes the three-year estimates of the 2019 MTEF.

The available fiscal envelop remains constrained showing average annual growth of 5.4 per cent over the 2019 MTEF. Total receipts over a three year 2019 MTEF in the form of Equitable Share is projected to amount to R43.121 billion, of which R13.424 billion in 2019/20 financial year, R14.389 billion in 2020/21 financial year and R15.309 billion in the 2021/22 financial year. The conditional grants are projected to amount to R13.650 billion over the 2019 MTEF of which R4.483 billion in 2019/20, R4.417 billion in 2020/21 financial year, and R4.750 billion in 2021/22 financial year. The average growth in transfers from National government for Equitable Share and conditional grants amounts to 5.6 per cent for the 2019 MTEF period.

The remaining portion of the projected total receipts is derived from provincial own revenue, which constitutes 2.1 per cent of the overall receipts of the province during the 2019/20 financial year. The share of provincial own revenue over the total provincial receipts slightly increases to 2.2 per cent during the two outer years of the 2019 MTEF.

The growth in own revenue has been consistent over the past years besides the 2017/18 financial year wherein the growth lowered to only 0.9 per cent from 4.8 per cent growth of the prior year. It is anticipated that own revenue will grow consistently from the 2018/19 financial year through to the 2021/22 financial year. The total projected own revenue amounts to R1.254 billion over the 2019 MTEF of which R385 million in 2019/20 financial year; R417 million in 2020/21 financial year; and R452 million in 2021/22 financial year. The average growth over the 2019 MTEF is 7.8 per cent. In aggregate, the provincial receipts are estimated to grow by 4.3 per cent from the 2018/19 estimated revenue to the 2019/20 financial year budgeted revenue and the average growth in provincial receipts over the MTEF period amounts to 5.4 per cent.

Table 1.7 indicates the sources of own revenue in the province. Provincial own revenue is mainly driven by tax receipts which include motor vehicle licenses as the major revenue source of the province. The tax receipts item contributes 74.6 per cent on average, of the total estimated own revenue over the MTEF. The budget for this item grows by 12.2 per cent from the 2018/19 financial year revised estimated collection to the 2019/20 financial year budget; and further grows by 9.5 per cent in both 2020/21 and 2021/22 financial years.

The reason for the increased growth from the revised estimate is attributed to the projected under collection by the departments of Transport, Safety and Liaison (DTSL) and Economic Development and Tourism (DET). The contributing factor to the under collection was the delay of the installation of motor vehicle license renewal at the remaining sites of SAPO; the delay of the roll out of the Limited Pay-out Machines (LPM's) as well as the economic conditions which are affecting the gambling industry negatively. The DTSL has however completed the rollout of the motor vehicle license renewal function at the SAPO and it is anticipated that the revenue will stabilise during the MTEF period. The DET is in the process of reviewing gambling fees, which would result to increased revenue collection by the department, hence the expected growth recovery from the projected under collection.

Other non-tax receipts item that contributes more to the provincial revenue is sale of goods and services, which is mainly made up of receipts from patient fees; rental dwellings; commission on insurance and garnishees; applications for learner's licences and renewal of driver's licences. This item accounts for, on average, 21.6 per cent over the MTEF. The budget for this item increases by 29.7 per cent from the 2018/19 estimated collection to the 2019/20 financial year budget; and further grows by 5.4 per cent in 2020/21 and 2021/2022 financial years respectively. The reason for the increased growth from the revised estimate is attributed to the 2017/18 financial year status of the projected under collection by the department of Health. The average annual growth of the budget for this item is 4 per cent over the 2019 MTEF.

In addition to the above-mentioned major sources of revenue, the province also collects own revenue from the following sources:

Fines, penalties and forfeits: This item caters for compulsory non-exchange revenue, enforced by a court of law or similar judicial body or mutually agreed settlement outside the courts. The items that mainly contribute to this source of revenue are the fines charged by the DTSL on road offenders; and the fines charged by the Department of Environment and Nature Conservation (DENC) on waste removal and pollution of environment. The budget for this item declines by 7.1 per cent from the 2018/19 estimated collection to the 2019/20 financial year budget; after which it is expected to increase by 5.6 per cent and 5.4 per cent in the two outer years of the 2019 MTEF. The budget for this item experiences an average decline of 7.4 per cent over the 2019 MTEF.

Interest, dividends and rent on land caters for receipts arising from the ownership of interest-bearing financial instruments such as bank deposits, loans extended to other parties and bills and bonds issued by other parties. This item is mainly comprised of the interest raised by the PT on the positive bank account of the province. The budget for this item decreases by 84.4 per cent from the 2018/19 projected collection to the 2019/20 financial year budget. The reason for this revenue decline is attributed to the interest raised by PT that is treated as a once-off as it relates to the adverse spending patterns by the departments that cannot be predicted. The budget for this item grows by an average of 5.5 per cent over the 2019 MTEF.

Sale of Capital Assets: This item caters for the sale of assets that costs more than R0.005 million as well as the sale of intangible items such as computer software. This item experiences a growth of 30.2 per cent from the 2018/19 revised estimated collection to the 2019/20 financial year budget; which is followed by a growth of 5.5 per cent and 5.4 per cent to the 2020/21 and 2021/22 financial years respectively. On average, the budget for this item from the 2018/19 financial year through to the 2019 MTEF declines by 1.5 per cent. The decline emanates from the nature of this item in that it is mainly composed of once-off sales by the departments.

Transactions in financial assets and liabilities: mainly comprises of other types of receipts, such as revenue from loans, receivables, and other receipts (such as overpayments, and stale cheques). This item experiences a decline of 54.6 per cent in budget from the 2018/19 estimated collection to the 2019/20 financial year budget; which then increases by 5.2 per cent and 5.5 per cent in 2020/21 and 2021/22 financial years respectively. The decline in estimated collections from this item is because of the nature of this item; which includes the prior year expenditure being repaid to the departments and as a result, the item is not easily predicted in nature.

4.2 Provincial Equitable Share

The provincial equitable share allocation from the nationally raised revenue is formula driven. The formula that is used to divide the equitable share between provinces is objective-based and redistributive by design. The formula is reviewed and updated annually, based on the latest available data as well as the recommendations from the Financial and Fiscal Commission (FFC). The equitable share formula is designed to ensure fair, stable and predictable revenue shares, and to address economic and fiscal disparities.

The weighted share of the province is constant at 2.6 percent over each year of the 2019 MTEF, and averaging 2.6 percent compared to 2.7 percent in the 2018 MTEF. Because of the redistributive nature of the formula and data changes the provinces share decreased downwards although the allocation increased at constant rate.

In terms of Section 214 of the Constitution, the equitable division of revenue raised nationally among the three spheres of government, is unconditional. Although the division is based on the equitable shares as outlined in the Table below, provinces have a prerogative to allocate funds in line with their specific provincial priorities.

The PES formula is reviewed and updated with new data annually. The equitable share formula for the 2019 MTEF has been updated with the following data sets: the 2018 mid-year population estimates, preliminary 2018 learner enrolment numbers as taken from the Learner Unit Record Information and Tracking System (LURITS), people without medical insurance from the 2017 General Household Survey (GHS) and output from the national Department of Health (2016/17-2017/18).

For the 2019 MTEF, the following data sets will be used:

Component	Data used
Education	Mid-Year Population Estimates 2018 age cohorts (new data) 2018 Preliminary Enrolment (new data)
Health	2018 Mid-Year Population Estimates (new data) Insured population (2017 GHS) (new data) Risk adjusted index Patient load data (DHIS 2016/17 – 2017/18) (new data)
Basic	2018 Mid-Year Population Estimates (new data)
Poverty	2018 Mid-Year Population Estimates (new data) Income and Expenditure Survey (IES) 2010/11
Economic	GDP-R 2016
Institutional	Not applicable (data not used)

The impact of these data updates on the provincial equitable shares will be phased-in over three years, from 2019/20 to 2021/22 financial years.

The updates to the equitable division of revenue also encompass the PES formula review that is currently underway. Due to the impact of policy updates stemming from the provincial equitable share review, principles that will guide on how to phase-in the impact of the policy update were endorsed. These types of phase-ins would be known as special phasing- in and should be subordinate to the overarching phase-in that is built into the formula. In other words, it only takes place within the affected component.

The principles that will guide the phase-in process are as follows:

- Special phasing in should only be considered when a change to a component, as a result of a data change or a structural change, results in a difference that exceeds 1 percentage point (upwards or downwards) for any of the province's share within that component
- Only changes to the two largest components, education and health, should be entertained for special phasing-in
- Special phasing-in of changes should not exceed 3 years.

Equitable Share transfers to the province, as set out in table 1.7 above, increase by R0.949 million or 5.8 per cent from the adjusted share of R12.475 billion in 2018/19 financial year to R13.424 billion in 2019/20 financial year. The 2019 MTEF Equitable Share allocation will rise from R14.388 billion in 2020/21 financial year to R15.309 billion in the 2021/22 financial year, with an average growth of 7.1 per cent over the 2019 MTEF.

4.3 Conditional Grants

The conditional grants framework forms part of the Division of Revenue Act (DoRA) and grants are assigned to provinces from national government to pursue specific national objectives and targets aimed at enhancing the delivery of services.

Conditional grants are also used to ensure that the minimum nation-wide standards for the provision of national concerns are met across all provinces. Funds from the equitable share are topped up including own revenue generated by province as these grants supplement priorities that need to be realized by national government through provinces. These additional transfers from the national government have conditions attached as stipulated in DoRA.

Conditional grants funding is the second largest source of funding for the province and constitutes an average of 23.5 per cent of the transfers that the province receives from national, over the 2019 MTEF. Conditional grants transfers to the province decrease by R0.210 million or 4.5 per cent from the adjusted R4.694 billion in 2018/19 financial year to R4.483 billion in 2019/20 financial year. Over the course of the 2019 MTEF, the conditional grants allocation will rise from R4.483 billion in 2019/20 financial year to R4.750 billion in the 2021/22 financial year, with an average annual increase of 0.5 per cent over the MTEF.

Table 1.8 shows the actual and projected allocations of conditional grants for the province over a seven-year period, which includes the three-year estimates of the 2019 MTEF.

Additions and reprioritisation made to conditional grants amount to R2 billion over the 2019 MTEF, with breakdown highlighted below.

Agriculture, Forestry and Fisheries

For the Comprehensive Agricultural Support Programme Grant, the grant has been reduced by R106.3 million (R66.3 million in 2019/20; R30 million in 2020/21 and R10 million in 2021/22) to fund the foot and mouth disease facility that will be established by the Agricultural Research Council. Furthermore, an amount of R887.3 million that was previously unallocated in the grant will now be reprioritised and ring-fenced under the department of Agriculture, Forestry and Fisheries. This will enable the department to transfer funds to the Land Bank for blended finance mechanism.

Education

Education Infrastructure Grant changes to reflect the need for pit latrines per province. The allocations for this grant were determined by proportionately splitting additions and reductions made to the grant baseline.

There is a shift over the 2019 MTEF of a grant of R2.8 billion that was initially allocated through the Education Infrastructure Grant to enable the provision of safe and appropriate sanitation at schools. This grant will now be allocated through the Schools Infrastructure Backlog Grant in order to leverage both public and private funds as well as expertise to achieve economies of scale.

Health

Within the Comprehensive HIV, AIDS and TB Grant, changes were made to grant components; specifically the Community Outreach Services component where the allocations now reflect the number of Community Health Workers per province and the main Comprehensive HIV and AIDS component where these allocations now reflect updated performance data for patients that are still on Anti-retroviral.

To address the cost implications of maintaining the current statutory staff cohort, amounts of R250.7 million in 2019/20, R663.1 million in 2020/21 and R662.2 million in 2021/22 have been reprioritised from the National Health Insurance Indirect Grant to augment the Human Resources Capacitation Grant. As a result, the revised baseline for the Human Resources Capacitation Grant is R2.8 billion over the 2019 MTEF (R605 million, 2019/20; R1.1 billion, 2020/21 and R1.1 billion in 2021/22).

Human Settlements Development Grant

The Title Deeds Restoration Grant, which comes to an end in 2020/21, will be phased back into the Human Settlements Development Grant (HSDG) with R609.6 million added back to the HSDG's grant baseline. Moreover, in order to promote improved coordination in support to individuals in the gap market purchasing homes, an amount of R950 million over the 2019 MTEF has been reprioritised out of the HSDG to the National Housing Finance Corporation for the Finance Linked Individual Subsidy Programme (FLISP).

Due to the KwaZulu-Natal storms, R647 million has been added to the grant for the rehabilitation of damaged houses. The HSDG has been reduced by R1 billion and R2 billion respectively in the 2020/21 and 2021/22 financial years. These cuts are part of a broader set of reductions that are needed to improve the sustainability of the overall fiscus.

4.4 Total Provincial own revenue

Provincial own revenue streams are limited but play an important role in supplementing national transfers thus resourcing provincially determined priority outcomes. The provincial own revenue collection contributes an average of 2.1 per cent of total budget over the 2019 MTEF, while national transfers constitute about 97.9 per cent.

Table 1.9 shows the actual and projected departmental receipts of the province over a seven-year period, which includes the three year estimates of the 2019 MTEF.

Table 1.9 above shows that provincial own receipts is projected to increase from R366.107 million in the 2018/19 revised estimates to R452.215 million in 2021/22 financial year. The once-off collections are not included over the MTEF period due to their unpredictability for estimation. These items include interest earned, sale of capital assets, once-off recoveries of surpluses surrendered by public entities, and recoveries of previous year payments. Thus over the MTEF period revenue is projected to grow by an average of 7.3 per cent from the revised estimated collection.

The revenue estimates are being determined by considering economic performance and the projected economic forecasts that have a direct influence on the performance of revenue in the province. Furthermore, the effect of reviewing and setting of tariffs for revenue items also has a major impact on revenue. In effort to ensure efficient and effective revenue management in the province, PT will continue to provide technical and strategic support to departments with the aim of improving the revenue enhancement. The establishment of various revenue forums with departments and close working relationship with stakeholders that have direct impact on revenue will benefit the province on anticipated revenue collection.

Major revenue collecting departments

There are three major revenue generating departments within the province namely; DTSL through motor vehicle licence fees; Health through patient's fees; and DET through gambling taxes. PT also collects major revenue as a result of the interest earned from unspent funds during the financial year.

Transport, Safety and Liaison

The department is contributing R270.447 million in 2019/20 financial year which is the bulk of the provincial own revenue collected which is equal to 70.3 per cent of the total provincial own revenue budget. Motor vehicle licence taxes are the main revenue generating item to the own revenue of the department and the province. This revenue source is based on the actual number of motor vehicle in the province coupled with the annual increase in motor vehicle license fees.

The department's budget increased by 10.8 per cent from the 2018/19 financial year projected collection to the 2019/20 financial year budgeted receipts. The increase in revenue budget is attributed to the increase in motor vehicle licence renewal fees, which increased by 10 per cent.

Health

The department remains the second largest contributor towards the own revenue of the province, accounting for R55.015 million or 14.3 per cent of total provincial own revenue over the 2019/20 financial year. The department collects revenue mainly from patient fees in respect of cost recovery of services provided to patients. The tariffs for patient fees are informed by tariffs introduced by the National Department of Health and do not have real revenue enhancement potential.

Economic Development and Tourism

It is the third biggest contributor to total provincial own revenue, accounting for R34.855 million or 9.1 per cent of total provincial own revenue over the 2019/20 financial year. Casino Taxes is the main contributor to the collection of the department through the Northern Cape Gambling Board. The tariffs use by the department have since been set and enacted in year 2008, hence PT is encouraging for tariffs to be reviewed and be set as a separate annexure to the Act in order to enable annual review thereof.

PT: The department shows significant revenue collections, however, such revenue relates mainly due to unanticipated higher collections of interest earned on positive bank balances and reflected in the Provincial Revenue Fund (PRF) as a result of departments having cash available in their bank accounts. The interest earned is also due to all monies banked including own revenue, unallocated funds, surpluses returned by entities, and interest charges retained.

Analysis of negative real growth departments

Five departments out of thirteen departments will be experiencing a negative growth when comparing between 2018/19 revised estimate and 2019/20 budgets. Reasons are as discussed below:

Office of the Premier: the negative growth of 47.3 per cent is due to the department's 2019/20 financial year projected over collection resulting from recoupment of payments of previous year which are of a once-off nature and their recurrence is uncertain hence they were never budgeted for.

Social Development: The department experience a negative growth of 7.7 per cent mainly due to over collection of 2018/19 financial year on the financial transactions in assets and liabilities item resulting from collection of previous year's debt and recoveries of previous year's expenditure which are unpredictable in nature.

Environment and Nature Conservation: The minimal negative growth of 30.5 per cent is due to the decision taken by the department not to cull animals, but rather to give them over to new and upcoming farmers.

Agriculture, Land Reform and Rural Development: The department experiences a negative growth of 16.1 per cent due to the upward revision of the budget attributed to the following reasons

- Sales of goods and services other than capital assets: The revenue collected relates to PERSAL related items such as insurance commissions and sales of agricultural product (sales of animals and plants). The department is projecting to over collect by R0.963 million hence the item has been adjusted. The item is unpredictable to project for as it varies throughout the year.

Provincial Treasury: shows significant revenue collections, however, such revenue relates mainly due to unanticipated higher collections of interest earned on positive bank balances and reflected in the Provincial Revenue Fund (PRF) as a result of departments having cash available in their bank accounts. The interest earned is also due to all monies banked including own revenue, unallocated funds, surpluses returned by entities, and interest charges retained, the department gets to budget for only its projected collection as a vote hence there is a negative growth of 96.4 per cent.

Provincial Own Revenue Enhancement Initiatives

PT implemented various initiatives in order to improve credibility of budgets as well as to encourage revenue enhancement in departments.

Departments budgeted conservatively for own revenue therefore credibility of revenue budgets of departments was a concern hence PT deemed it necessary to develop a Provincial Own Revenue Budget Guideline aims to guide the Accounting Officers and the Chief Financial Officers in the preparation of provincial own revenue budgets. PT also developed a budgeting tool to assist the hospitals with credible budgeting.

PT introduced a platform that would assist departments in addressing the challenges that hinder them from meeting the revenue budget and to share best practices of improving the province's own revenue with other departments. The revenue forums assisted to build relations with the revenue unit officials in departments and enabled PT to learn more about the revenue management gaps that existed in departments.

In order to address the gaps in revenue management, PT developed the following Practice Note guideline documents for implementation by departments:

- Surrender of Revenue Practice Note & Framework on surrendering of revenue
- Practice note on Internal Controls on Cash Management
- Debt Management Policy
- Revenue enhancement strategy

PT developed a provincial Revenue Enhancement Strategy. It was recommended to the departments to develop their own revenue enhancement strategies and debt management policies in order to better manage and improve the recovery of revenue owed to the department as well as to enhance revenue collected.

Cash offices contribute significantly to the potential of the department in collecting revenue needed to augment the equitable share. In order to strengthen the revenue value chain, the systems at these cash offices should be effective, cashiers should be performing duties at an acceptable standard. Cash Office visits were introduced to assess the implementation of the revenue management internal control practice note by departments and for assisting the cash collection points with proper execution of their duties. Furthermore, training of cash office clerks was introduced with the aim is to assist the department in the effective and efficient performance of the functions at cash offices and continuous training is provided as the need arises.

PT will continue with the monitoring, providing training and strengthening revenue collecting systems at cash points for major collecting departments. The aim is to ensure revenue officials are capacitated with knowledge and this will ensure there are proper controls in place in collecting, banking and reconciling revenue at cash points to head office.

Bilateral sessions were introduced where one-on-one meetings between PT and the departments were held to assist with revenue budgeting. These meetings are continuously held on an annual basis to assist departments with the MTEF revenue budgeting.

PT embarked on a study aimed at identifying new sources of revenue that can be explored and implemented by the provincial departments in order to enhance revenue of the province. During this study, benchmarking with other eight provinces on the additional sources of revenue in place as well as the approach that can be taken by the Northern Cape provincial departments in implementing the new sources of revenue was done. Amongst other revenue initiatives discovered from this study, Northern Cape learned how the SAPO assisted other provinces with effective revenue collection; and revenue maximisation from increasing parking fees.

In addition to the effectiveness provided by SAPO, moving the motor vehicle renewal function to this agency aimed to also assist in addressing the challenge faced by the DTSL with respect to municipalities not paying over all the revenue collected on behalf of the department. This has also assisted in improving the standard of the service offered by ensuring that the service is easily accessible to all customers the province. The motor vehicle license renewal function is now active in all the identified Post Offices across the province.

In order to promote the annual review of tariffs for the revenue sources, as well as to encourage the factoring of the approved tariffs in the MTEF budget submissions, tariff committees were established by departments. A tariff framework was also developed in order to guide the departments in the processes of tariff reviews. PT is currently enforcing the full implementation of the increase of parking fees charged as well as the increase in rental dwelling rates. PT will continue to assist all departments in establishing these tariff committees.

PT conducted a fact-finding exercise with the aim of assisting the hospitals and the department of Health as a whole with revenue budgets, revenue management issues and revenue optimization, as well as to identify the challenges that hospitals are experiencing with respect to revenue issues. The results of situational analysis from this exercise is what gave birth to the appointment of revenue clerks to assist the hospitals with collection.

In an aim to enhance revenue collected from patient fees the department has changed the patient administration and billing system to improve amongst other areas a more accurate classification of patients that will enable the hospitals to collect revenue from all patients that can afford to pay. The system has being rolled out to all the hospitals in the province and the department is in a process to enhance the functions of the system in order to fast track the recovery of bills from medical aid schemes. In order to improve on revenue collection, the department is also being encouraged to implement an online ITC linked System that will validate the demographic details of every person using the services of our hospitals.

PT has therefore implemented the strategy for the province to recover its revenue that is continuously building up in debt through the appointment of debt collectors. The service provider will do data cleansing of all department's debt in order to assess and identify the debt that is recoverable and the debt not recoverable. The results of this process will then inform the adjustment budgets of the departments as this process has not yet commenced.

The economic situation has not been showing improvement and the ability of the province to collect and optimize own revenue remains equally constrained. This has been evident in the trends of revenue performance by the departments and the rising debt across various departments. PT has therefore implemented the strategy for the province to recover its revenue that is continuously building up in debt through the appointment of debt collectors. The service provider will do data cleansing of all department's debt in order to assess and identify the debt that is recoverable and the debt not recoverable. The results of this process will then inform the adjustment budgets of the departments as this process has not yet commenced.

The debt-collecting agency will also assist in enhancing revenue collection of the Department of Health by processing Road Accident Fund (RAF) claims and collect fees from the RAF on behalf of the department. Furthermore, the agency will also assist in collecting current year debt raised by the all departments in order to ensure that there is no build-up of debts in provincial departments' books.

The department of Roads and Public Works has been striving to maximise revenue from government rental properties. Through working together with PT, the collection of rental from the dwellings has been given over to the various departments so that revenue can be deducted directly from Persal by the department where the tenant of the dwelling works; the state owned housing rental policy was developed; increase in rental dwelling rates has commenced.

PT will be assisting the Department of Roads and Public Works to fast track the process of handing-over process of the rental properties from the department of Roads and Public Works to the user departments. This will enable the user departments to properly manage the properties, and the processes involved in letting them out and thereby improving revenue management and collection for the benefit of the province. The department of Roads and Public Works will continue to be encouraged to dispose all the unused properties.

PT together with the DTSL are considering engaging into a PPP project in order to enhance the operationalisation of weighbridges, and maximise the monitoring of compliance to the requirements of mass the loaded by the heavy duty vehicles and trucks. The two departments are currently in a process that is looking at constructing a weighbridge in the John Taolo Gaetsewe district, a road that is mainly used by the heavy load trucks as they transport their mined materials between the mines and the porting bays.

The initiatives developed and implemented by PT over the years contributed in the following ways:

- To bring awareness of the importance of revenue management and collection in departments, especially considering that the departments did not have functional revenue units or officials dedicated to deal with revenue matters. Currently, the three major revenue-collecting departments of the province have dedicated fully functional revenue units. Other departments have dedicated personnel with whom PT liaise with on any revenue related matters.
- Deeper analysis of the revenue sources of the departments and the work that has been done on revenue budgets resulted to estimates that are substantiated allowing for focused intervention on areas that are problematic.
- Improvement in revenue management and internal controls in departments and at cash collecting points. The cash points also became aware of and understand the risks in the ways they were operating and started working on improving internal controls.
- Departments are also approaching PT with revenue enhancement ideas and suggesting ways of funding the projects, e.g. the request of revenue retention to embark on revenue projects.
- The introduction of the tariff committees improved the communication within units of the departments, the committees broke the spirit of working in isolation and brought about transparency and the importance of knowing how the various units of the department link and contribute to revenue generation.

5.5 Infrastructure Payments

The provincial public sector infrastructure is financed through various funding mechanisms. The view from the National Development Plan 2030 is that in the long term, users must pay the bulk of the costs for economic infrastructure, with due protection for poor households. For infrastructure that generates financial returns, debt raised to build facilities should be on the balance sheets of state-owned enterprises or private companies that do the work. Guarantees should be used selectively to lower the cost of capital and to secure long-term finance.

Social infrastructure that does not generate financial returns – such as schools, hospitals, secure care centres should be financed from the budget. Provinces and municipalities use their own discretion on how much to contribute and spend on infrastructure from their equitable share revenues. However, infrastructure funding from conditional grants (different types of conditional grants: specific purpose, supplementary, indirect and disaster allocations) can only be used for the purpose for which it was allocated. Municipalities raise more tax revenue as they have more fiscal autonomy, while provinces rely largely on the national fiscus as they have limited revenue raising powers.

The Northern Cape Government total spending on infrastructure over the last four years amounts R10.676 billion, for the 2019 medium-term expenditure framework (MTEF) the Northern Cape will be allocating R 8.728 billion. Infrastructure projects and programmes are financed through equitable share allocations and conditional grants. These funds will be spent on the construction of new, upgrades, additions, rehabilitation, refurbishment, and maintenance and repairs of infrastructure. Planned projects include school building programme, hospitals and clinics, roads, electricity, water and sanitation infrastructure.

The budget cycle is a three year cycle consisting of planning, implementation and closure processes being undertaken in each year. It is clear that in any single year, departments will concurrently be dealing with these different activities of the MTEF, namely:

- Closure activities for the previous year's implementation;
- Implementation activities for the current years implementation and;
- Planning activities for next years' implementation.

There is a need, therefore, to allocate sufficient time for planning, design and tendering to take place from the time that the approved projects list is given to the implementing agent and before implementation starts. After the User Asset Management Plan (U-AMP) has been updated, the client department prepares or updates an (Infrastructure Programme Management Plan) IPMP. In addition, an updated Annual Performance Plan (APP) must also be prepared. The client department first enters into a Service Delivery Agreement (SDA) with its implementing agents based on an agreement of the functions to be performed by each party.

It is proposed that the submission of projects from the client department to the implementing agent be improved by means of a formal process in which all parties agree to do exactly what needs to be done, where, by whom, when, and at what cost. To facilitate the process of agreement between parties, three plans have to be put in place:

- The IPMP by the client department;
- The Construction Procurement Strategy; and
- The Infrastructure Programme Implementation Plan (IPIP) by the implementing agent.

The IPMP stipulates what the client department intends to achieve in the next 3 years of implementation. The implementing agent responds to the IPMP through the development of an IPIP, which validates the implementing agents' understanding of what needs to be done and explicitly indicates how this will be achieved, when and by whom.

Once the client department has approved the IPIP submitted by the implementing agent, the implementing agent is able to continue with detailed project designs, followed by the project tendering process. Multi-year project implementation for projects planned in Year 0 of the MTEF would typically start in Year 2 of that MTEF allowing for one year lead for project design and tendering. These phases should take up most of the following year resulting in a detailed U-AMP with associated realistic costing, timeframes and cash flows for each project. The detailed planning and design undertaken would assist in establishing exactly what multi-year commitments are required to complete the projects.

Through the commitment of the provincial government to increase investments on infrastructure development, since the 2015/16 to the 2018/19 financial year an amount of R10.647 billion has been spent on infrastructure. The total infrastructure budget of the province for the 2018/19 financial year amounts to R3.016 billion. The projected spending on infrastructure in the province amounts to R5.406 billion over the 2019 MTEF. The departments of Health, Education and Roads and Public Works are major infrastructure delivery departments.

Table 6 shows that the province will spend R2.650 billion on the conditional grant allocation of infrastructure in the 2018/19 financial and R166 million on Equitable Share and in total R 8 billion over the MTEF. Furthermore, the province will spend R 344 million on Equitable Share over the MTEF reflecting a reliance on conditional grant funding by the province.

5.5.1 Maintenance of provincial infrastructure

The stock of infrastructure that is owned by government and its agencies is vast and increasing at a rapid rate. However the maintenance of this stock varies greatly from sector to sector and sometimes, also from institution to institution. Infrastructure assets should be planned and budgeted for throughout their life-cycle, from planning through to disposal. This will ensure that assets operate efficiently and are maintained cost effectively. Unless maintenance is improved in these sectors, funds to address the cost of repairs and unplanned replacements will have to be sourced from capital budgets. This will severely limit the province for addressing maintenance backlogs and expanding service delivery.

The existence of an asset management system, updated regularly, through condition assessments on existing facilities, will guide proper planning and budgeting for maintenance. Section 38(1) (d) of the PFMA states that, the accounting officer for a department, trading entity or constitutional institution is responsible for the management, including the safeguarding and the maintenance of the assets of the department, trading entity or constitutional institution.

Infrastructure maintenance is a strategic tool, as it offers outstanding opportunities for economic stimulation and as jobs are created, capital expenditure expanded and sustainable delivery achieved while community aspirations can be met, maintenance affords increased transparency and allows for effective financial management.

5.5.2 Provincial infrastructure transfers

Provincial infrastructure payments or estimates by vote must include transfers made for the delivery of provincial infrastructure. Hence, aggregation on the vote table must equal that on the infrastructure by category table.

5.5.3 Non-infrastructure items

Non Infrastructure refers to items/projects that do not fall within the category of building and other fixed structures, such as machinery, equipment, furniture, compensation of employees and do not fall within the four 'nature of investment' categories.

1.1 Aligning departmental budgets to achieve government’s prescribed outcomes

The Office of The Premier is mainly responsible for the implementation of outcomes 12, which refers to “an efficient, effective and development oriented Public Service and an empowered, and fair inclusive citizenship”. Furthermore, the department is responsible for outcomes 4, 5 and 13 through coordination of the human capital development provincial strategies.

Through the above-mentioned outcomes, the department provides a coordination role in the provincial administration on various services such as Information Technology, Legal, Communications, Monitoring and Evaluation etc.

2. Review of the current financial year (2018/19)

A final draft Provincial Growth and Development Plan (PGDP) as well as the Provincial Spatial Development Framework (PSDF) were received from the independent service provider which was appointed for the development of the aforementioned plans. The expectation is that the aforesaid plans will be finalised by 31 March 2019 ahead of the new financial year. These plans will ensure alignment in the provincial planning.

The implementation of the Information Technology Shared Services Centre (ITSSC) proposal is still work in progress. However critical consultations took place with various stakeholders and other governance structures such the Standing Committee on Public Accounts (SCOPA).

Due to the fact that skills development remains a central theme of the current term of government in order to facilitate accelerated service delivery and poverty alleviation, the department undertook various Human Resource Development (HRD) initiatives as follows:

- Provided technical support to the provincial skills council led by the Premier.
- Coordinated the implementation of work place skills plans in all provincial departments on a quarterly basis.
- Coordinated the training of young people through government internship and learnership programmes as follows:
 - Internships = 292
 - Work Integrated Learning (WIL) = 380
 - Learnership = 1015.

- Monitored the work of Premier's Bursary Trust fund on a quarterly basis to develop skills in the province to ensure that the Trust Fund fulfilled its mandate. Payments were transferred in June 2018.
- A progress report on the Provincial HRD Strategy was prepared for SCOPA. The review of the Provincial HRD strategy has been an ongoing process and is currently being consulted upon with stakeholders, which ultimately culminated into a 2nd Draft. Progress on the review was presented to the technical governance and administration cluster on a monthly basis during the year under review. The department also held a consultative meeting with the Sol Plaatje University, with a recommendation that the University should conduct a provincial skills audit. Such an audit will assist in determining the skills gaps and planning for training within the province. Consultation with all technical clusters, Provincial Skills Development Forum and municipal managers was concluded.

The Office of The Premier continued its efforts to improve efficiency in governance within the provincial administration using the following key coordination governance structures:

- Executive Council which had its meetings on a monthly basis.
- Social, economic and governance cluster technical committees also happened on a monthly basis.
- HOD fora and provincial Lekgotla also took place and
- The PIGF (Premier's Inter- Governmental Forum) was also held.

The aforementioned governance structures in the preceding point coordinated key projects and initiatives around key policy priority areas of the provincial government.

The department evaluated and monitored key service delivery projects of the provincial administration.

The department coordinated the Management Performance Assessment Tool (MPAT) processes on a quarterly basis. The Office of the Premier also coordinated the implementation of the provincial government wide programme of action emanating from key directives of the State of the Nation Address (SONA) and State of the Province Address (SOPA).

The Office of the Premier, through its secretariat on Provincial Council on Aids (PCA) continued to monitor the implementation of the provincial strategic plan on aids on a quarterly basis through the district municipalities by the district coordinators and civil society sectors.

The department monitored litigation trends and patterns in the province through the legal services forum with the overall objective of reducing litigation in the provincial administration.

The Office of the Premier coordinated various responsibilities on target / special programmes which included the following, amongst others:

- Monitored the implementation of representation targets in senior management of target groups such as women, people living with disabilities. Special programmes monitored three (3) departments and one (1) district Municipality per quarter. Furthermore, Special programmes convened one forum meeting per quarter to assist departments on special programmes issues.
- Monitored the work of the Mme Reka Thusa Trust Fund which provides business support, business training, grants and loans to qualifying beneficiaries in all five (5) districts of the province. Funds were transferred to the Trust in June to ensure that it meets its mandate.

3. Outlook for the coming financial year (2019/20)

The period under review (2019/20) will be the first year of the sixth term of government, the Office of the Premier will be facilitating the handover process to the new administration. This will include the coordination of the medium term strategic framework for that new term of government.

As part of the implementation of the provincial IT strategy, a multi-year provincial disaster recovery and technology refresh project will be implemented during the period under review.

To ensure an effective, efficient and development orientated provincial administration, the following strategic actions will be undertaken:

- provisioning of professional human resource planning, organisational design and efficiency enhancement services to provincial departments.
- Facilitation and coordination of employee performance management in the province.
- Coordination of human resources administration in the province.
- Mainstreaming, coordination, monitoring and evaluation programmes in terms of women, children and people with disabilities to address the inequalities and restore the moral fibre of society.
- Harmonization of the labour related initiatives in the province with an objective of achieving sound labour peace within the working environment.
- Monitoring of the successful implementation of wellness programs in the Province.

Training and development remains the core strategy of government to ensure human progress and sustainable development. The department will facilitate and coordinate capacity development in the province, which includes strategic actions such as the assessments of compliance by the departments on human resources development plans, convening the provincial skills development forum etc.

Provision of communication services will also be rendered to enable the Premier, Executive Council, Director-General and Heads of Departments to communicate government's achievement and services through the efficient utilisation of information through the media and other communication platforms in the execution of the provincial government functions.

As part of the broader strategy to reduce litigation in the provincial administration and to ensure that the constitutional obligations are met, legal advisory support services will be rendered to the Premier, Executive Council, Heads of Department and municipalities.

In order to strategically manage policies and strategies throughout the province towards the achievement of sustainable provincial growth and development as well as monitoring and evaluation of Government Programme of Action and PGDS, the following are some of the key strategic actions that will be undertaken:

- Co-ordination of provincial monitoring and evaluation
- Implementation of Frontline Service Delivery Monitoring Programme
- Implementation of the Citizen Based Monitoring in the Province
- Interventions across departments towards performance improvement of the MPAT
- Monitoring of the War on Poverty Programme
- Assessments of the draft annual performance plans of provincial departments
- Quarterly assessments of the Provincial Performance Information and
- Progress reporting on the implementation of the PGDP.

The Office of the Premier will continue its efforts to improve efficiency in governance within the provincial administration using the key coordination governance structures such as the following:

- Executive Council meetings.
- Social, economic and governance cluster technical committees.
- HOD forums and the provincial Lekgotlas.
- The PIGF (Premier's Inter- Governmental forums).
- The Office of the Premier, through its secretariat on PCA (Provincial Council on Aids), will continue to monitor the implementation of the Provincial Strategic Plan on Aids.

4. Reprioritisation

The goods and services budget was analysed to identify slow spending areas and non-core items in order to redirect the funds to main cost drivers in the budget.

The department is processing its Supply Chain Management transactions both on LOGIS and manually. The manual system is used only in exceptional cases. Office of the Premier strives to improve on procurement process to procure only through LOGIS.

5. Procurement

6. Receipts and financing

The total receipts of Office of the Premier shows a growth of 10 per cent to R273.403 million in 2019/20 from R248.467 million in 2018/19. The total receipts will grow to R285.044 million in 2021/22 financial year, which is an average growth of 4.8 per cent over the MTEF.

6.2 Departmental receipts collection

Table 2.2 gives a summary of the departmental receipts in the Office of the Premier per economic classification.

Table 2.2 : Summary of departmental receipts collection

Total departmental receipts	2 485	1 207	384	136	136	273	144	152	160

The department mainly derives its revenue from sales of tender documents and scrap of capital assets. The growth on departmental receipts collection is projected on the consumer price index inflation.

Transactions in financial assets and liabilities are in respect of recoveries of expenditure from previous financial years, which are not of a recurring nature or cannot be ascertained if they will take place, hence there is no budget for this item in the 2019 MTEF.

6.3 Donor funding

No funds are received by the department

7 Payment Summary

7.1 Key assumptions

The following key assumptions were used in crafting the budget:

- Provision was made for pay progression equal to a gross 1.5 per cent of the departmental wage bill adjusted with various factors such as past trends on actual PMDS payments for the past five (5) years. This was to ensure that adjusted figures are close to budget realities.
- The department has made provision for Performance Management Development System as required by the different regulations and resolutions.
- Provision for salary increases is 6.4 per cent in 2019/20, 6.6 per cent in 2020/21 and 6.4 per cent in 2021/22.
- Assumptions for inflation related items were based on CPIX projections as published in the Medium Term Budget Policy Statement i.e. 5.4 per cent for 2019/20, 5.6 per cent for 2020/21 and 5.4 per cent in 2021/22.
- Transfer payments to the Premiers Bursary Fund and Mme Re Ka Thusa women development trust were taken into account.

9.3 Service delivery measures

There are no service delivery measures for this programme.

Programme 2: Institutional Development

Description and objective

To build an effective, efficient and development oriented public service.

Sub programme objectives

Strategic Human Capital Development (SHCD)

The sector for the Office of the Premier is currently reviewing its budget structure with joint leadership from National Treasury and Department of Public Service and Administration. Currently SHCD is a sub programme under Human Resource Management in terms of the existing approved budget structure. Recommendations of the sector will be served to the Forum of South African Director Generals (FOSAD) on its behalf by Provincial Treasury and DPSA during the course of 2016/17 financial year going forward.

The recommendation of Northern Cape pertaining to Strategic Human Resources is that it must be elevated to the status of sub programme that will appear on the face of the public documents such as EPRE and appropriation statement of the annual financial statements.

Information Communication Technology (ICT)

Focuses on rendering information communication technology services for effective service delivery.

Communication Services

To manage and promote the corporate identity of the Northern Cape Provincial Government.

Legal Services

Aims to provide and maintain a sound and comprehensive legal service.

Programme Support

Provide administrative and management support to the Deputy Director General: Institutional Development as well as the coordination and management of the programme.

Programme expenditure analysis

Table 2.10.2. provides a summary of payment by sub programme

Programme 3: Policy and Governance

Description and objectives

To strategically manage policies and strategies throughout the province towards the achievement of sustainable provincial growth and development and monitoring and evaluation of Government Programme of Action and PGDS.

Sub programme objectives

Intergovernmental Relations

To coordinates provincial intergovernmental relations and enhance the effectiveness of legal and policy formulation and implementation within the province.

Provincial Policy Management

- To ensure that the Premier and the Executive Council can effectively and efficiently utilise monitoring and evaluation information to track the performance of provincial government and support service delivery initiatives and interventions.
- Advises on all aspects related to policy coordination, integration, research, development, implementation and manages special crosscutting programmes and projects; and
- Primarily responsible for reviewing the PGDS annually and to monitor and evaluate the implementation of the PGDS and government's special projects and programme of action. This further includes providing technical support to the four Cabinet Cluster Committees and providing all the relevant reports in this regard for the Presidential Coordinating Committee and the Makgotla.

Programme Support

To support and ensure the effective and efficient implementation of governments' programme of action and management of units within the programme.

1. Overview

The Northern Cape Provincial Legislature (NCPL) exists in terms of section 104 of the Constitution of the Republic of South Africa, Act 108 of 1996, which vests the legislative authority of the Northern Cape Province in the NCPL. In addition to the legislative authority, Provincial Legislature also has a constitutional mandate of oversight over the provincial executive as well as a responsibility to ensure public participation in its processes.

An effective Legislature is strongly correlated with the existence of a viable democracy and an open society. The Northern Cape Provincial Legislature on account of its members and legislative functions can empower ordinary citizens to participate in the development of policies that shape their lives. Due to its oversight role, the NCPL is fundamental in establishing the rule of law, protecting human rights, overseeing transparent governance processes and ensuring compliance with national and provincial legislation in the Northern Cape.

These functions, though universally recognised are not always naturally or effectively implemented without sufficient human and financial resources. With its budget the NCPL is able to develop programmes geared at its own development. These programmes are aimed at strengthening representatives, transparency, accountability and effective government.

Vision

An activist Legislature advancing the aspirations of the people of the Northern Cape.

Mission

To serve people of the Northern Cape by building a developmental institution for effective law making, public participation, accountability and oversight over the executive and municipalities.

Values

The Legislature abides by the following values:

- People centred in all our intentions and actions;
- Truthful, ethical, open, honest and transparent in all we do;
- Responsible, reliable and answerable for our actions;
- Consistent service excellence in performance delivery and execution of our mandate/roles both of support and oversight;
- Always open to scrutiny;
- Value our stakeholders and considerate, caring and timely and
- Promote and embrace change and new ideas.

Acts, Rules and Regulations

The Northern Cape Provincial Legislature is governed by the following statutes and policies:

- Constitution of the Republic of South Africa, 1996
- Northern Cape Legislature Service Act, 2011
- Northern Cape Provincial Legislature Powers and Privileges Act, No. 5 of 1996
- Northern Cape Petitions Act; 2010
- Standing Rules of the Legislature
- Code for the Financial Administration of the Northern Cape Provincial Legislature
- Preferential Procurement Policy Framework Act 5 of 2000
- Financial Management Parliament and Provincial Legislatures Act (FMPPLA) 10 of 2009, as amended
- Power, Privileges and Immunities of Parliament and Provincial Legislatures Act 4 of 2004
- Labour Relations Act 66 of 1995
- Remuneration of Public Office Bearers Act 92 of 1997
- Employment Equity Act 55 of 1998
- Basic Conditions of Employment Act 55 of 1997 and
- Promotion to Access of Information Act 2 of 2000

1.1 Aligning institutional budget to achieve government's prescribed outcomes

The plans of the Northern Cape Provincial Legislature (NCPL) are aligned to achieve Outcome 12: An efficient, effective and development-orientated public service and an empowered and inclusive citizenship. The NCPL contributes to this outcome through efficient and effective oversight function to line departments and municipalities.

2. Review of the current financial year (2018/19)

The Northern Cape Provincial Legislature herein marks the last fiscal year of the Fifth Legislature term which started in 2014/2015. The Legislative Sector in the 5th term has invested immensely in defining and shaping the critical role to be played by the sector in enhancing the maturity of our country's democracy. The NCPL has demonstrated and continue with the same vigour to deliver on its constitutional mandate as articulated by the Constitution of the Republic.

Given that the Legislature comprise of only 30 Members, 11 of which are deployed to Executive arm of state, remaining MPL's serve on multiple Committees of the Legislature to give effect to the Legislature's mandate. The geographic spread of the Northern Cape and the low density of its population require improved planning and diligence in spending its budget to ensure the Legislature effectively executes its mandate. This also give rise to one of the main cost drivers in the Legislature, travel and subsistence, since the constitutional public participation requirement, requires engagement with citizens who are few, but far apart. This necessitates many hours of travel on the part of our MPL's to give effect to public participation.

The policy imperatives as announced in policy priorities was endorsed by the electorates at large and has informed our actions guided by an ambition to achieve the strategic goals. The NCPL successfully embarked on the processes of reviewing and revising the institution's policies and procedures, although the process is not yet completed, the institution was able to revise and finalise numerous policies and procedures.

The NCPL continued with a co-sourced internal audit function for the second year whilst in the process of developing its internal audit capacity. The audit committee continue to function and enhance overall governance in their last term. Risk Management Committee is functioning and proving governance over the institutional strategic and operation risks, the committee meets regularly.

Although the NCPL managed to maintain an unqualified audit outcome in the 2017/18 financial year, the outcome regressed as compared to previous year clean audit as a result of non-compliance finding reported by Auditor General of South Africa. The institution was able and continued to prepare annual financial statements in accordance with Generally Recognised Accounting Practise (GRAP) as stipulated in the Financial Management of Parliament and Provincial Legislatures Act (FMPPLA), albeit through the use of consultants, due to the fact that Enterprise Resource Planning (ERP) system is not fully operational.

Upon expiry of transitional provision on assets, NCPL undertook a process of fully measuring the assets based on the useful live, depreciation, residual values, revaluation, impairment and de-recognition and any other applicable requirements in accordance with GRAP 17. NCPL has estimated +/- 9000 assets with definite useful period which was not depreciated or revalued in past during transitional period. Based on the nature of business and the useful lives of the assets, NCPL has assets that were fully depreciated but are still in use and such assets were to be identified and assess for revaluation, NCPL did not have capacity and sufficient time to undertake the assets measuring process, the institution opted to make use of consultants.

Part of the massive systematic changes imposed on the operations of the Legislature by the implementation of FMPPLA is the introduction of the integrated ERP application suite. The ERP system drive the institutional efficiency and create an institution that is client centric. The Legislature is in a process of implementing three of the Sage X3 modules, namely; Finance, Supply Chain Management (SCM) and Human Capital Management which runs parallel with transversal systems.

The “Go Live” period was anticipated to be on the 01 April 2018. However, due to challenges and unforeseen circumstances the period was extended. The process is tedious given the limited capacity that is relevant in the implementation process of this project. However, the challenges that are associated with this new regime are not insurmountable and as a result the institution is forging ahead with the implementation of the ERP system.

The NCPL precinct rehabilitation project experienced numerous delays as a result of substandard workmanship and slow rate of progress which extended contractual practical completion date. In the interim, the contractor submitted a number of claims extensions of time and payment of additional costs based upon various circumstances, which resulted to 28 working days. Due to number of disputes that arose between the parties, these disputes were referred to mediation before specialist construction law consultant. The mediation process was concluded and resulted in the parties reaching mutual agreement. Both parties settled for 132 days against the 228 days that were claimed by the contractor.

The operations of the Legislature were impacted negatively in the first two thirds of the financial year due to the ongoing precinct rehabilitation project, whereby the core business and support function were housed in two separate buildings. Although the project is still on going, the NCPL was able to relocate back to the main precinct during November 2018 and occupy the rehabilitated office space for the remainder of the year. As such, the institution was able to cut down on leases of office accommodation budget.

The Human Capital vigorously implemented recruitment and selection process, which were able to increase capacity by permanently appointing incumbents in the funded vacant post. Newly appointed employees are adapting well to the new roles. Two Executive Leadership positions were continuously augmented through acting appointments. Recruitment and selection process were undertaken to fill these positions, however, the process is not yet finalised.

Through public participation role, the Legislature seeks to enhance the participation of respective communities in the decision-making processes that have a direct bearing on their welfare. The Legislature maintained healthy working relationships between the three arms of state, promote efficient and co-operative governance, and to ensure sound relations with our region and the world, broadly across the legislative sector.

3. Outlook for the coming financial year (2019/20)

As we move towards the 6th legislative term, along with the entire sector, NCPL is aiming for a smooth transition that highlights areas that need immediate attention, along with capacity building for incoming Members of the 6th Legislative. As such, the NCPL prepared plans and various programmes in preparation to deliver a seamless transition to the Sixth Legislature term after May 2019 on the side of Administration. The Northern Cape Provincial Legislature has equally positioned itself as resilient partner and advocate for vibrant democracy, accountable and transparent government as well as people centred Legislature.

The first semester of the 2019/20 financial year will be focused on establishing the 6th Legislature of the Northern Cape Province. In accordance with section 14 (1) of the Financial Management of Parliament and Provincial Legislatures Act, a new strategic plan must be developed within 6 months after the elections, to set the tone for the coming 5 years of the 6th Legislatures term. This will culminate in new goals and targets in the revised Annual Performance Plan, which will be developed from the Strategic Plan.

For the most part of the 2019/20 fiscal period, the administration will continue the trajectory set by the 5th Legislature's Strategic Plan, through continuation of targets set in the current Annual Performance Plan. The goals of the 6th Legislature's Strategic plan will find expression in the 2020/21 Annual Performance Plan and come to fruition over the MTEF period.

While the ultimate strategic focus might shift with the 6th Legislature's plans the NCPL remains obliged by the Constitution to ensure that, on behalf of the people, it passes laws, it hold the executive accountable and it involves the ordinary people in the government processes such as law-making. Thus far, this has remained an integral part of its activities as the Legislature and have committed to deliver on this mandate without a compromise.

The Legislature's administration exists to create an enabling environment to fully implement constitutional mandate of law-making, oversight on the executive and public participation. The Legislature execute this mandate within the confinements of the limited resources yet with the necessary determination of reaching out to the length and breadth of the people of the Northern Cape Province. The NCPL will continue its endeavours to ensure that resources are utilised efficiently and the envisaged outcomes are achieved effectively.

In terms of law making, summaries of provincial legislation will continue to be produced as well as manuals on legislation administered by departments. Through the National Council of Provinces office, regional workshops will be held to enhance the law making process. Laws will be further explained through a series of articles in the newsletter and through radio. The Hansard Unit will also assist the process by translating at least four summaries in the official languages commonly used in the Province.

The Northern Cape Provincial Legislature customized the Sector Oversight Model (SOM) as envisaged by the sector as a response to its mandate. As part of executing our constitutional, mandate regarding policymaking, public participation, and exercising oversight and accountability over the Executive, Legislatures employ a range of mechanisms. In relation to the SOM, legislatures convene house plenaries and various forms of Committee sittings amongst others, to scrutinize the work (outputs) of the departments. In the upcoming strategic period, NCPL will focus much of its attention in ensuring that within the context of representative and constitutional democracy, it examines the extent to which long-term policy priorities are achieved.

For the 2019/20 financial year, the Legislature will focus and will continue to expand on the following priorities:

- Successful implementation of Enterprise Resource Planning system.
- Working towards a clean Audit
- Completion of the Structural Defects of the building project
- Implementation of the Financial Management of Parliament and Provincial Legislatures Act
- Capacitating of the Office of the Chairperson of Committees
- Reprioritising the personnel budget and workforce planning,
- Capacitating MPLs and employees in terms of FMPLA & SOM
- Providing Members Facilities in compliance to the Party Political Fund Act
- Implementation and consistent review of SOM and improved accountability.

4. Reprioritisation

Reprioritisation was done across programmes and economic classification in the previous year with funding being moved from slow spending sub-programmes and non-core items. These movements were towards catering for above inflation cost of living adjustments and other strategic priorities oversight being key among them. The strategic priorities as identified remained applicable and where funded along the same lines.

A major reprioritisation is on the cards for the 2019 adjustment budget, as the 6th Legislature's Strategic plan should be completed, which will inform allocative priorities.

5. Procurement

The Legislature will continue to strengthen SCM through providing continuous training on SAGE X3, the revised Preferential Procurement Regulations and on re-training general SCM compliance requirements. A key focus area is to improve procurement processes through implementation of a service delivery improvement approach that seeks to educate and enhance awareness.

The Northern Cape Provincial Legislature's supply chain management is currently regulated by Financial Management of Parliament and Provincial Legislatures Act of 2009, as well as regulations issued in terms thereof. Procurement will primarily be for day-to-day purchases with a monetary value below R0.500 million.

The Northern Cape Provincial Legislature only has two major procurement activities, which might result in competitive bidding. These are the inauguration of the Premier, following the 2019 general elections and the opening of the Legislature in February 2020.

6. Receipts and financing

6.1 Summary of receipts

Below tables shows the sources of funding and own receipts of Vote 2 over the seven-year period 2015/16 to 2021/22. The table also compares actual and budgeted receipts against actual and budgeted payments.

Table 2.1 provides summary of receipts

Table 2.1 : Summary of receipts

The PFMA and the FMPPLA both provide for provincial legislatures to retain any monies received (i.e. revenue collected). Therefore, in contrast to provincial departments, the Legislature retains its own departmental receipts, and is thus funded from two sources, namely Treasury funding (equitable share) and departmental receipts.

The legislature's main sources of receipts include equitable share. The table show a decrease of R22.651 million or 10 per cent in the 2019/20 financial year, due to provincial equitable share base line reduction. The reduction was also attributable to the fact that no major capital projects were planned in 2019/20 due to once off allocations in previous financial years, which have rolled over.

Despite the budget cuts, and disregarding the once-off allocations in prior years, the Legislature's budget shows reasonable growth over the 2019 MTEF.

6.2 Legislature receipts collection

Table 2.2 provides a summary of departmental receipts.

In terms of Section 22 (1) (a) of the Public Finance Management Act (Act 1 of 1999) (PFMA), revenue collected by the Provincial Legislature is excluded from the Provincial Revenue Fund. Section 22(5) of the PFMA further directs that money received by a Provincial Legislature must be paid into an account opened by the legislature.

The NCPL projects to collect an amount of R3.293 million in the 2019/20 financial year, growing to R3.666 million or 11.3 per cent in the 2021/22 financial year. The major sources of own revenue for the NCPL relates to interest on positive bank balances, the own revenue reflected in the prior years is largely due to the Legislature's under-spending in prior years. In line with the PFMA and the FMPPLA, any unspent amount must be allocated back to the Legislature in the Adjustments Estimate process in the ensuing year.

The Legislature collects revenue in the form of interest earned on positive cash balances in the bank against Interest, dividends and rent on land, commission on insurance, as well as recoveries of debts and other miscellaneous items reflected against Transactions in financial assets and liabilities.

The use of retained funds is regulated by section 16(2)(iii) of FMPPLA, which requires that budget include funds derived from own revenue source be included in the Legislature's budget. Furthermore, section 18(1)(b)(ii) requires that the Legislature approves the use of own revenue approved for previous year but not spent in that year these unspent funds were not paid back to the Provincial Revenue Fund. This resulted in more cash in the Legislature's bank account than anticipated, accounting for the high interest collected in the prior years.

6.3 Donor Funding

The Legislature receives no direct funding in respect of the Legislature Support programme, which is funded by the European Union (EU), with the aim of contributing to the strengthening of democracy and good governance. Instead, the programme funds projects, which support the entire Legislative sector, mainly aimed at achieving constitutional imperatives. The specific purpose is to support legislatures to fulfil their constitutional mandates in a citizen-oriented manner. The allocation of EU funding and the monitoring thereof is undertaken centrally at a national level on behalf of the nine provinces.

7. Payment summary

7.1 Key assumptions

The following broad assumptions were used by the Legislature to determine the foundation for crafting this budget. Due to the functions and operations of the Legislative sector, the following key assumptions were made:

- Remuneration for the Members of the Legislature will be a first charge against the Provincial Revenue Fund which will ensure clearer accountability and promote better planning and budgeting for that expenditure; which accounts for the 14 percent of the budget.
- Increase in salaries of the Members of the Legislature at 6.5 per cent per annum.
- Assumption for salary increases was not based on the Public Service Bargaining Council (PSBC) agreements due to the legislature bargaining separately for their salaries; but the NCPL has included mandatory 6.4 per cent in 2019/20, 6.6 per cent in 2020/21 and 6.4 per cent in 2021/22.
- Provision was made for the inauguration of the Premier and opening of the Legislature following the 2019/20 national elections.
- No provision was made for the opening of the Legislature in 2020, due the budget cut. This position will be reassessed during the adjustment process.
- Assumption for inflation related items was based on revised CPI projections for the 2019 MTEF which are 5.4 per cent in 2019/20; 5.6 per cent for 2020/21 and 5.4 per cent in 2021/22.
- Although the Legislature is not bound by Provincial Executive Council decisions, it will continue to implement cost-cutting measures as far as possible in conjunction with National Treasury Instruction Note 03 of 2017/18: Cost-containment measures. This instruction note was customised to suit the unique requirements of the Legislature.

7.2 Programme summary

The services rendered by the Legislature are categorised under three programmes, which are largely aligned to the uniform budget and programme structure of the Legislature sector. The Members' remuneration forms a direct charge on the Provincial Revenue Fund, and so is not included as a programme, but as Direct charge on the Provincial Revenue Fund. Tables 2.3 and 2.4 provide a summary of the Vote's expenditure and budgeted estimates, by programme and economic classification, respectively.

Table 2.3 provides a summary of payments and estimates by programme

Table 2.3 provides a summary of payments and estimates by programme, showing a decrease of R22.651 million or 10 per cent from the 2018/19 adjusted budget, including statutory budget. The decrease is mainly due to the provincial baseline reduction and once off capital investment projects in previous years as well as the R20 million received in 2018/19 adjustment estimates.

Compensation of employees is the largest component of the budget (64 per cent) which grows with an amount of R4.493 million or 4 per cent in 2019/20 when compared to the 2018/19 adjusted appropriation; this is mainly to cater for the yearly salary increase.

Goods and services reflects a decrease of R7.817 million or 18 per cent in the 2019/20 financial year when compared to the 2018/19 adjusted appropriation, majority of the decrease is as a result of reduction on temporary office accommodation lease payments incurred in previous year. The negative growth can be ascribed to the once off allocations over the years including own funding, the budget cut implemented in the 2019/20 financial year by both National and Provincial Treasury as well as the decrease of the legislature activities scaling down as a result of elections.

Transfers and subsidies reflects a decrease of R9.317 million or 22 per cent in the 2019/20 financial year when compared to the 2018/19 adjusted budget. The decrease is mainly due to once-off allocations in 2018/19 aiming to provide support to political parties to perform and enhance their constituency functions towards the upcoming national and provincial elections.

The Legislature transfers funds annually to the Political Party Fund (PPF) as well as a discretionary allowance for the Speaker and Deputy Speaker for social responsibility. The PPF is aimed at assisting political parties to carry out their constitutional mandate of advancing the ideals of democracy. The allocation of money to the political parties is based on a prescribed formula. Provision has been made for constituency allowance of members of the legislature, which is aimed at supporting members to do constituency work. Caucus fund provide financial and administrative assistance to each political party represented in the Legislature, in proportion to its representation, to enable the party and its leaders to perform their functions.

7.6.3 Transfers to Local government

The Legislature does not have transfers to local government.

In terms of Section 22 (1)(a) of the Public Finance Management Act (Act 1 of 1999) (PFMA), revenue collected by the Provincial Legislature is excluded from the Provincial Revenue Fund. Section 22(5) of the PFMA further directs that money received by a Provincial Legislature must be paid into an account opened by the legislature. To ensure a uniform approach for the retention of receipts and spending against receipts collected, the following are proposed:

- Legislatures should be allowed to retain all categories of receipts as listed above. This is in accordance with sections 13(1) and 22(1) of the PFMA and would simplify the administration process for retention of receipts.
- Budget submissions from Legislatures to the relevant treasuries, as required in terms of annual budget circulars, should include information on both estimated receipts and payments and should form part of the normal evaluation and budget allocation process.
- Estimates of payments to be tabled in the legislature should indicate total payments of the legislatures to be funded from appropriations as well as from receipts collected.
- The Northern Cape Provincial Legislature has in agreement with Provincial Treasury adopted the following approach when spending:
 - Revenue is accrued annually and retained by the NCPL
 - Spending plans are developed on an *ad hoc* basis to spend retained funds
 - These funds are then surrendered to Provincial Treasury
 - Treasury in turn includes these funds as part of the appropriation.

The tables above reflect the summary of payments estimates. The retained funds amounted to R22.031 million at the beginning of 2018/19 of which an amount of R12.013 million was allocated in the main budget as a roll over from the 2017/18 financial year, in order to complete the rehabilitation of the precinct and payments of the temporary office accommodation. R5.3 million was also allocated during the 2018/19 adjustment estimates in order to fund in-year pressures, which included the compensation of employees (CoE) baseline, other adjustments amounting to R1.750 million and committee oversight amounting to R1.500 million.

9. Programme description

Programme 1: Administration

9.1 Description and objectives

To provide effective financial, human resource, support services and systems to the entire legislature as well as strategic management of the administration.

Sub-programme objectives

Office of the Speaker

Office of the Speaker seeks to provide for administrative support for the presiding officers, which include the Speaker, Deputy Speaker and Chair of Chairpersons.

Office of the Secretary

The Office of the Secretary is established for administrative support for the Accounting Officer, as well as to provide for governance and risk management activities.

Financial Management

Financial Management seeks to provide financial and ITC support services to the Northern Cape Provincial Legislature, including compliance with finance and procurement related laws and regulations.

Corporate Services

Corporate Services provides for Human Resource, Human Resource Development and Members Affairs needs of the institution as well as the security, archive and institutional facilities requirements.

9.2 Programme expenditure analysis

Table 2.10.1 provides a summary of payments and estimates by sub-programme.

Office of the Speaker sub programme budget slightly increases by R0.070 million or 0.6 per cent in the 2019/20 financial year when compared to the 2018/19 adjusted budget due to cost of living adjustment and the increased scope of social responsibilities.

Office of the Secretary sub-programme budget declines by R0.222 million or 2.6 per cent in 2019/20 when compared to the 2018/19 adjusted budget, mainly due to a once off allocation for Internal Audit Consultants, research project and audit fees in the 2018/19 adjustment budget.

Corporate Services sub programme budget declines by R12.345 million or 33 per cent in the 2019/20 financial year as when compared to the 2018/19 adjusted budget, mainly due to a once off allocation for rehabilitation of the Legislature precinct in the 2018/19 adjustment budget.

Financial Management sub programme declines with R1.183 million or 4.5 per cent in the 2019/20 financial year when compared to the 2018/19 adjusted budget, mainly due to the once off allocation provided the valuation of assets upon expiry of transitional provision during the 2018/19 adjustment budget.

Compensation of employees, which is the largest component of the budget, reflects an increase of R2.067 million or 4.2 per cent in the 2019/20 main budget when compared to the 2018/19 adjusted budget. This is mainly due to vacant funded posts and to make provision for the improvement of conditions of service over the MTEF.

Goods and services, reflects a decrease of R5.813 million or 24 per cent in the 2019/20 main budget when compared to 2018/19 adjustment estimates mainly due to a once off allocation for temporary office accommodation.

Transfer and subsidies reflects a minimal increase of R0.025 million or 5.5 per cent in the 2019/20 main budget when compared to the 2018/19 adjusted budget, mainly due to increase in social responsibilities through discretionary funds in the office of Speaker and Deputy Speaker.

Programme 2: Facilities for members and political parties

Description and objectives

To empower Political Office Bearers in the management of legislature business, to enable members to do their representative work.

Sub-programme objectives

Member's facilities

The objective of this sub programme is for the empowerment of members with travelling, accommodation and telephone facilities when they carry out their functions as individual members. It also enables members to travel between their homes and the legislature.

Political Support Service

This sub-programme is meant to enable elected members to attend to political party business.

Main services delivered in this programme

- Members are enabled to conduct constituency visits and constituency work;
- Constituency offices are established and reports of constituency work is prepared;
- Members present consistency issues in the committee and the house in statements, motions and during debate;
- A sufficient number of house sittings are held to complete all the work during a financial year and the sittings are well attended;
- Political debate and oversight take place on development, growth, governance and service delivery in the Province.

The programme's budget declines with an amount of R10.857 million or 18 per cent in 2019/20 when compared to the 2018/19 adjusted budget and this is mainly due to once off allocation particularly within the political party support sub programme. This programme was allocated an amount of R9 million for the constituency allowances in line with the upcoming 2019 elections as well as R2.4 million for the member's study tour.

Compensation of employees reflects a decrease of R0.825 million or 8.3 per cent in 2019/20 when compared to the 2018/19 adjusted budget. This can be attributable to the budget cuts implemented in 2019/20 by both Provincial and National Treasuries as well as the once off allocation in the 2018/19 adjustment budget.

Goods and services, reflects a decrease of R0.715 million or 9.4 per cent in 2019/20, when compared to the 2018/19 adjusted budget mainly due to the decrease in legislature activities as a result of elections as well as the once off allocations of in year pressures during the 2018/19 financial year.

Transfers and subsidies, which is the largest part of the budget reflects a decrease of R9.317 million or 22 per cent in the 2019/20 main appropriation when compared to the 2018/19 adjustment allocation. The decrease is mainly due to the once off allocation of R11.2 million for political parties support for the 2019 election and the MPL Study Tour in the 2018/19 adjustment budget.

Programme 3: Parliamentary Business

Description and objectives

To provide the Speaker and Deputy Speaker, the House, Committees and Members with procedural research, information and Hansard support services in the execution of their Constitutional and Legislative duties. To capacitate Committees of the Legislature to conduct oversight and scrutiny work, as well as all other functions delegated by the House.

Sub-programme objectives

Public Participation and Oversight

The purpose of this sub programme is to provide direct support to Members of the Provincial Legislature in as far the oversight and public participation aspect of the Legislatures constitutional responsibilities are concerned.

Committees and Research Services

The purpose of this sub programme is to provide direct support to Members of the Provincial Legislature in as far the law making aspect of the Legislatures constitutional responsibilities are concerned. The sub programme's purpose is further for the provision of value-added information to the House, Committees, give oversight and National Council of Provinces (NCOP) proceedings.

The programme minimally grows with R0.142 million or 0.3 per cent in 2019/20 when compared to the 2018/19 adjusted budget. This minimal growth can be attributed to additional funding allocated in the 2018/19 adjustment estimates. The reduction of the equitable share due to the PES formula and the budget cut instituted by Provincial Treasury in order to make funds available for the ballooning Sol Plaatje Municipalities Rates and Taxes debt, of which is the responsibility of the Department of Roads and Public Works.

The budget increase of R1.557 million or 6 per cent in 2019/20 when compared to the 2018/19 adjusted budget is mainly due to provide for the improvement of the conditions of service and additional vacant funded posts.

Goods and services, shows a decrease of R1.289 million or 10 per cent in the 2019/20 main budget when compared to the 2018/19 adjusted appropriation due to provincial base line reduction and once of allocation of R2 million provided in the 2018/19 adjustment budget.

It is noted that the Legislature's salary structure is very different to that of the Public Service. For the most part, the Legislature's salary levels are higher than Public Service counterparts. This position is exacerbated by the fact that, in some years, the annual wage adjustment for the administrative staff has been higher than the Public Service wage agreements.

1. Overview

Core functions and responsibilities of the department

To promote subsidized transportation for the community, as well as ensuring the safety of our road users through effective traffic law enforcement and oversight of the functions of the South African Police Services (SAPS).

Vision

A leader in the creation and coordination of safe, secure and sustainable transport- and policing systems for a crime free Northern Cape Province.

Mission

To enable safe and secure environment and mobility, for the community of the Northern Cape, through:

- Good corporate governance, management, administration and support.
- Establishing and supporting community safety partnerships.
- Monitoring and oversight of the police.
- Facilitating and coordinating social crime prevention and road safety programmes.
- Educating, enforcing and administering road traffic legislation.
- Liaison with all relevant stakeholders, role-players and clients, pertaining to policing, safety and security.
- Regulated and integrated transport modes, which are economically and environmentally sustainable.

Acts, Rules and Regulations

The authority and function of the department is entrenched in the following policies and legislation:

- The Constitution of the Republic of South Africa Act, 1996 (Act No. 108 of 1996)
- National Land Transport Act No. 5 of 2009
- National Road Traffic Act No. 93 of 1996
- Administrative Adjudication of Road Traffic Offences Act No. 46 of 1998
- Civilian Secretariat for Police Act No. 2 of 2011
- Public Finance Management Act 1 of 1999, as amended
- Treasury Regulations of 2005
- Division of Revenue Act
- Basic Conditions of Employment Act
- Public Service Act, 2001
- Public Service Regulations
- Skills Development Act and Levy Act

- South African Police Act 1995 and regulations
- National Crime Prevention Strategy, 1999.

1.1 Aligning departmental budgets to achieve Government's prescribed outcomes

As delineated in the National Development Plan (NDP) 2030, as well as outcomes as indicated in the Medium Term Strategic Framework (MTSF), priorities are entrenched in the departmental activities. The department contributes primarily towards Outcomes 3, 4 and 6 of the MTSF as well as The National Development Plan (NDP) 2030, Chapter 12: Building Safer Communities.

Departmental Activities:

- Monitor and evaluate SAPS conduct to enhance service delivery;
- Perform audits on SAPS to determine compliance to the Domestic Violence Act;
- Conduct research to influence policy changes and community safety;
- Implement an integrated Provincial Crime Prevention Strategy;
- Promote community police relations, through proper assessment of community safety structures;
- Implement Stop Violence against Children, Youth and Women Programmes.

National Development Plan: Chapter 3: Economy and Employment, National Development Plan: Chapter 6: An Integrated and Inclusive Rural Economy and MTSF: Outcome 4: Decent Employment through Inclusive economic growth.

Departmental Activities:

- Provision of subsidies towards public transport services;
- Approved Public Transport Plans from district and local municipalities; and
- Implementation of Expanded Public Works Programme.

National Development Plan: Chapter 4: Economic Infrastructure, MTSF: Outcome 6: An efficient, competitive and responsive economic infrastructure network.

Departmental Activities:

- Ensure the inclusion of the two (2) Key Transport Infrastructure Projects (Development of Port Nolloth Bay and the De Aar Warehouse) in the National Infrastructure Plan; and
- Ensure a reduction in road accidents and fatalities.

2. Review of the current financial year (2018/19)

The department achieved the following milestones, for the period April to December 2018:

- The department embarked on an internal review process, to prioritize the vacancies to be filled, within the available resources, for appointment.
- The department received the requisite approval from Provincial Treasury and Office of the Premier for the filling of the identified posts. The posts will be phased in within the 2019/20 financial period.
- A variety of training interventions were procured, to up-skill employees, the most noteworthy being the eleven (11) traffic officers, who completed the course to be accredited as examiners of learner- and driver's license.
- The transfer of the motor vehicle license (MVL) renewal function, to the South African Post Office (SAPO) was concluded, by September 2018, Only three (3) towns, viz. Garies, Hanover and Phillipstown were left, to continue performing the function, as there were no post offices in those towns.

- Overall, there are forty-three (43) SAPO branches, whereat this function is rendered.
- The department has obtained, for the last three (3) financial periods, unqualified audit reports and strives for a clean audit report, within the current MTEF period.
- In the 2018/19 financial period, the department completed a census for the entire ninety one (91) police stations, within the province, using the National SAPS Monitoring Tool.
- A second tool to evaluate SAPS compliance to the Domestic Violence Act, was also done, for the entire ninety one (91) police stations.
- Social crime prevention programmes, aimed at alleviating the scourge of violence against women and children, and the reduction of substance abuse, continue to be implemented monthly, albeit on a small scale.
- The department appointed one hundred and fifty three (153) safety volunteers to assist with crime prevention programmes, at identified police stations.
- The feasibility studies are progressing well, for the two (2) Key Infrastructure Projects, i.e. a commercial port within Port Nolloth (BoegoeBay) and a cargo hub within De Aar. In the 2018/19 financial year the commodity mix, for the Port Nolloth project was completed.
- The department continues to assist municipalities, with the compilation of Integrated Transport Plans. In the 2018/19 financial period, up to the end of December 2018, four (4) municipalities were assisted.
- In order to improve the function of the Public Transport Inspectorate (PTI), the function moved, from the programme Transport Operations, to the programme Transport Regulations. This move will increase the capacity of the unit, as the unit will be able to employ the traffic officers, at station level, to augment their activities.
- The Provincial Regulatory Entity (PRE) held five (5) sittings, up to end of December 2018, for the adjudication and awarding of applications for operators licenses.
- An essential part of the department's activities, is the stop and check of vehicles. This activity is done, to improve the safety of our roads, by ensuring that only road worthy vehicles, are permitted on our roads, as well as ensuring that drivers of vehicles, have the required license, to do so. In the period of April 2018 to December 2018, traffic officers stopped and checked, one hundred and twenty nine thousand, eight hundred and eighty five (129 885) vehicles. This represents an increase of fifteen thousand, two hundred and fourteen (15 214) vehicles, if compared to the same period, within the year 2017.
- The province undertook a study, in a quest to assess the feasibility of establishing a training facility for its traffic officials. There is a dire need for competent (accredited) traffic officials. The availability of this very important facility will enhance the competence of the officials and lead to increased performance, in the workplace.

3. Outlook for the coming financial year (2019/20)

The 2019/20 financial period, is the last year of the current strategic five-year cycle and therefore the focus of 2019/20 will be the consolidation and attainment of the identified targets, as outlined in the strategic plan.

The 2019 MTEF will therefore, be aimed at the consolidation of existing programmes, continued prudent financial management, to ensure service delivery is sustained.

Despite the fact that the growth in the MTEF, does not match the increasing demand for services, by the public, the department continues to implement the concept of doing more with less.

The only additional funds received by the department, is an amount of R3 million allocated within the 2018/19 financial period, for the establishment of a new weighbridge.

Broad outputs planned for 2019/20 include:

- The finalization of the revised departmental organizational structure.
- Securing the requisite funds that would enable the department, to fill the structure over the MTEF Period.
- A pre-requisite for sustained service delivery, is prudent financial management, therefore the department continues with efforts to obtain a “clean” audit report.
- The long-term strategy, to expand service delivery, is the capacitation of districts, which would enable the decentralization of functions.
- In the 2019/20 financial period, the department will focus on monitoring the corrective measures implemented, by the South African Police Service, to address the issues identified during the 2018/19 census of police stations.
- The department will continue with the implementation of the Provincial Crime Prevention Strategy.
- The feasibility studies for the Port Nolloth and De Aar, key infrastructure projects, is set for completion within 2019/20.
- The department will further enhance in the operations of the Provincial Regulating Entity (PRE), by means of the appointment of additional personnel.
- The subsidy provided by the Public Transport Operations Grant, will be expanded to include a new route within the Pixley ka Seme District.
- Municipalities will continue to receive support by the department, for the finalization of their Integrated Transport Plans.
- The department will fill the critical vacancies of traffic officers.
- The additional funding of R3 million, will be used to establish a new weighbridge, within the province. The department will be exploring the possibility of entering into a Public Private Partnership (PPP) agreement, for the operations of the weighbridge.
- In an effort to reduce the carnage of road accident fatalities, the department will continue with traffic law enforcement operations, using the resources at our disposal.
- The department will continue to lobby for funds, to be able to render 24/7 service.

4. Reprioritisation

The department consistently explores all possibilities to enhance service delivery, through the process of reprioritisation.

Historically, as from the 2016 MTEF, the department reprioritised funds for a variety of pressures and service delivery imperatives, specifically the containment of the departmental wage bill.

This practise of reprioritisation, has contributed to the fact that the department expanded on our operations, whilst managing to remain within our allotted funds.

The department managed to reprioritise funds, for the following areas:

- In the 2019/20 financial period, an amount of R1.8 million is reprioritised from projected savings within compensation of employees, towards goods and services (R1.3 million) and machinery and equipment (R0.500 million).
- The rationale for the reprioritisation, is that the posts to be filled within 2019/20, will be phased in, resulting in a saving.
- Reprioritisation towards goods and services, aims to lessen the impact of accruals, within the 2019/20 financial period, whilst the reprioritisation towards machinery and equipment, is aimed at augmenting the funds available for the procurement of vehicles for traffic officials.

5. Procurement

Procurement will mainly focus on the day-to-day purchases less than R0.500 million.

Notable procurement, exceeding R0.500 million relates to the following:

- R2.2 million per annum, for the new bus subsidy route, within Pixley Ka Seme
- R6.1 million over the MTEF, R2 million per annum, for the procurement of vehicles
- R1 million per annum, for the provision of telecommunication equipment (fixed lines)
- R0.700 million for the provision of security services, at Mothibistad traffic station.

6. Receipts and financing

6.1 Summary of receipts

Table 2.1 provides a summary of receipts.

The department's sources of receipts include equitable share and conditional grants, of which equitable share is the main source of finance to departmental receipts.

The equitable share allocation of the 2019/20 financial period amounts to R251.156 million, which is a reduction of R8.136 million or 3.1 per cent, if compared to the revised estimate of R259.292 million for the 2018/19 financial period. The reason for the reduction is that included in the revised estimate of 2018/19, is amounts to the value of R51.2 million, which represents once-off amounts allocated during the 2018 adjustment period.

The department has two conditional grants, i.e. the Public Transport Operations Grant (PTOG) and the Social Sector: EPWP Grant

The allocation for the Social Sector: EPWP Grant, decrease drastically from R3.2 million, within 2018/19 to R1.636 million, within 2019 MTEF.

The departmental receipts grow above the inflation rate over the MTEF period. This growth rate is a result of non-increase of tariffs in the 2018/19 financial period, and the intention of the department to be on par with other provinces in terms of tariff fees.

The department is the main contributor of own revenue generated in the province, with the main source being the *motor vehicle license fees* collected in terms of the National Road Traffic Act (NRTA) 93 of 1996. The function for the collection of motor vehicle license renewals is done by the South African Post Offices across the province.

The items under *sales of goods and services other than capital assets* includes amongst others, drivers and learners license, abnormal loads, operating license permits, and personalized and specialized number plates. All these items are demand driven and is depended on consumer behavior. Even though the growth over the MTEF period is inflation related, the revenue projection is based on the current collection capacity of the department. The budget grows by 5.4 per cent in 2019/20, 6 per cent in 2020/21 and 5.4 per cent in 2021/22.

Fines penalties and forfeits is mainly the section 56 summons (traffic fines). The projections for the 2019/20 and over the MTEF, is attributed to the inflation rate, however, due to uncertain nature of this item, the department continued to under collect. The budget grows by 5.4 per cent in 2019/20, 6 per cent in 2020/21 and 5.4 per cent in 2021/22.

Financial transaction in assets and liabilities is made up of accrued revenue which includes the staff debt and collection of long outstanding motor vehicle license fees. The department has a potential to collect optimally under this item. However due to lack of human resource, the revenue budget will grow according to the inflation rate i.e. 5.4 per cent in 2019/20, 5.6 per cent in 2020/21 and 5.4 in 2021/22. Revenue enhancement initiatives and processes will be implemented to ensure that revenue is collected optimally, under this item.

6.3 Donor funding

The department does not receive any foreign donations.

7. Payment Summary

7.1 Key Assumptions

The following key assumptions informed the 2019 MTEF budget:

- Provision has been made for the carry through cost of all personnel-related expenditure and non-negotiable expenditure items. Provision was made for personnel related costs associated with the Public Service Coordinating and Bargaining Council (PSCBC) resolutions.
- Provision for salary increases of 6.4, 6.6 and 6.4 per cent respectively has been made.
- Provision was made for an increase to medical contributions equivalent to CPI plus 3 per cent in each year of the 2019 MTEF period.
- Provision was made for housing allowance equal to CPI from the 2018/19 financial year.
- CPI projections of 5.4 per cent in 2019/20, 5.6 per cent for 2020/21 and 5.4 per cent for 2021/22 financial year were considered when inflation related items were calculated.

The programmes affected by once-off allocations within either 2018/19 or 2019/20, is Programme 1: Administration, Programme 3: Transport Operations and Programme 4: Transport Regulations.

The once-off allocations being:

- Administration: R4.570 million within 2018/19
- Transport Operations: R46.630 million within 2018/19, as well as R25 million within 2019/20
- Transport Regulations: R3 million within 2019/20.

Programmes affected by conditional grant allocations, include:

- Civilian Oversight: EPWP Social Sector Grant: R3.211 million within 2018/19 and R1.636 million within 2019/20.
- Transport Operations: Public Transport Operators Grant (PTOG): R53.715 million within 2018/19 and R56.723 million within 2019/20.
- Transport Operations: EPWP Incentive Grant: R2.961 million within 2018/19.

Compensation of employees, constitute the largest portion of the budget at 55.1 per cent, followed by goods and services at 24.5 per cent, Transfers 19 per cent and capital expenditure 1.4 per cent.

Compensation of employees reflects an increase of R8.877 million or 5.5 per cent from the revised estimate figure of 2018/19 to the 2019/20 financial year. The below inflationary increase is due to the reprioritisation of funds from compensation of employees, within 2018/19, as well as the impact of EPWP grant's. The value of EPWP within the revised estimate of 2018/19, amounts to R3.211 million, whilst the allocation within 2019/20, amounts to R1.636 million.

The goods and services allocation reflects a decrease of R21.760 million, when comparing the 2019/20 allocation of R75.808 million with the 2018/19 revised estimate of R97.568 million. This decrease is due to the impact of once-off funding, in both financial periods.

The value of once-off goods and services, within the two financial periods, amount to R28 million and R53.242 million, for the 2019/20 and 2018/19 periods respectively.

The amended values of goods and services, excluding once-off cost, is therefore R47.808 million for 2019/20 and R44.326 million for 2018/19. This represents a growth of R3.482 million or 7.9 per cent. The above inflationary increase is attributed to the reprioritisation of funds, within 2019/20, from Compensation of employees, towards goods and services. Reprioritisation is done to lessen the impact of accruals, within 2019/20.

Transfers and subsidies reflect an increase of R2.279 million or 4 per cent, from the 2018/19 revised estimate to the 2019/20 financial year. The below escalation growth rate is due to a reduction in households of R684 000, as well as a reduction in funding for non-profit institutions.

The reduction in households stems from the fact that, within 2019/20, no provision was done for the payment of leave gratuity, to ex-officials, as expenditure on this item is extremely unpredictable.

The Public Transport Operations Grant (PTOG) allocation falls within transfers under the item Public corporations and Private Enterprises. PTOG constitutes of 97 per cent of the transfers and subsidies allocation.

Payments for capital assets reflects an increase of R0.940 million or 26.8 per cent, due to the reprioritisation of funds, for the procurement of vehicles, for traffic officers.

7.4 Infrastructure Payments

7.4.1 Departmental Infrastructure payments

Table 2.4.1 provides a summary of provincial infrastructure payments and estimates by category.

In order to improve working conditions, within traffic stations, an amount of R0.400 million has been set aside, for the day-to-day maintenance.

7.5 Departmental Public Private Partnership (PPP) Projects

There are no funded Public Private Partnership projects in the 2019/20 financial period. However, the feasibility studies for the establishment of PPP projects for the Boegoebay Deep Sea Port Project and De Aar Freight Logistic Hub is currently underway, with an allocation of R25 million, within 2019/20.

Additional to the key infrastructure projects, is the establishment of a new weighbridge, within the province. The department is exploring the possibility of entering into a Public Private Partnership agreement, for the management of the weighbridge. The department was allocated, within 2019/20, an amount of R3 million, for this purpose.

7.6 Transfers

7.6.1 Transfers to public entities

The department does not have any transfers to public entities.

7.6.2 Transfers to other entities

An amount of R1.708 million is allocated to departmental NGO partners within the transport sector, including, but not exclusively, the Northern Cape Taxi Council (SANTACO), South African Woman in Transport (SANWIT), etc.

An amount of R56.723 million is allocated for the subsidies paid from the Public Transport Operators Grant (PTOG), towards the provision of public transport (busses).

7.6.3 Transfers to local government

8. Receipts and retentions

The department does not retain revenue collected.

9. Programme description

Programme 1: Administration

9.1 Description and objectives

To provide strategic, finance, organisational and administrative support services to the line functions of the department.

Sub-programme objectives

Office of the MEC

Render advisory, secretary, administrative and office support services for the Office of the MEC.

Management

To render overall management and support of the department.

Financial Management

To ensure departmental financial compliance through financial management services over the five year period.

Corporate services

To ensure the overall corporate support and provisioning of human capital.

9.2 Programme Expenditure Analysis

Table 2.10.1 provides a summary of payments and estimates by sub-programme.

Table 2.10.1 : Summary of payments and estimates by sub-programme: Programme 1: Administration

The programme reflects a marginal increase of R0.103 million between the revised estimate of the 2018/19, financial period, compared to the 2019/20 financial period.

The increase is not a true reflection of the budget growth due to once-off funding of R4.570 million, allocated within the sub-programme: Financial Management, within the revised estimates of 2018/19. If a comparison is done, excluding the once-off funding, then the increase would be R4.673 million or 5.9 per cent.

Programme 1: Administration is generally, not viewed as a direct service delivery programme, that provides services to the public. The focus is generally on matters of governance and support services.

The programme does however; incur the costs for a variety of transversal matters that benefit the broader department and not merely the programme Administration.

Notable issues, with material cost implications, incurred by the programme, includes the payments for building leases (R9 million), provision for SITA services (R1.1 million), provision for the rental of telecommunication systems (R1 million), bursaries (R0.900 million), audit fees (R3.8 million), etc.

This approach towards budgeting, limits the expenditure to be incurred by frontline, service delivery programmes, on non-core items, thereby ensuring funding within service delivery programmes is channelled towards the direct cost of service delivery.

Table 2.12.1 provides summary of payments and estimates by economic classification.

Compensation of employees reflects an increase of R3.865 million or 7.1 per cent from the revised estimates of 2018/19 compared to the 2019/20 financial year. Above inflationary increase is because of the provisioning for the filling of identified critical vacancies (Managers for the sub-directorate's Human Resource Management and Supply Chain Management, an Employee Health and Wellness Practitioner, etc.).

Goods and Services reflects a decline of R3.503 million, between the revised estimates of the 2018/19 financial period, compared to the 2019/20 financial period. The decline is due to the once-off funding of R4.570 million, within 2018/19.

The payment for capital assets reflects a decrease of R0.237 million, between 2018/19 and 2019/20. The decrease is due to changes in the treatment of finance leases.

9.3 Service delivery measures

There are no service delivery measures for this programme.

Programme 2: Civilian Oversight

Description and objective

The purpose of this programme is to hold provincial law enforcement agencies accountable, with regard to policing activities as well as to provide an integrated social crime prevention management framework to facilitate safer communities.

Sub-programme objectives

Policy and Research

To conduct research on policing in order to influence policy changes.

Monitoring and Evaluation

To monitor police conduct, transformation and community complaints against members of the police service in the province.

Safety Promotion

To provide integrated social crime prevention interventions for safer communities.

Community Police Relations

To provide for the participation and involvement of communities in social crime prevention initiatives and to further strengthen relations between communities and police.

Programme expenditure analysis

Table 2.10.2 provides a summary of payments and estimates by sub-programme.

Table 2.10.2 : Summary of payments and estimates by sub-programme: Programme 2: Civilian Oversight

The programme reflects a decrease of R0.385 million between the periods 2019/20 and 2018/19. The decrease is due to the changes in EPWP funding of R3.211 million in 2018/19 to R1.636 million in 2019/20. The change is evident within the sub-programme: Community Police Relations.

If the EPWP allocations are removed, from both financial periods, the growth between 2018/19 and 2019/20, would be R1.190 million or 4.8 per cent.

Compensation of employees indicates a decrease of R1.061 million, between the revised estimate of 2018/19 and the allocation of 2019/20.

The reduction is due to the changes in the allocation of the EPWP grant funding, between 2018/19 and 2019/20, as well as the reprioritisation of funds.

The reprioritisation effected on compensation of employees and goods and services, whereby funds was re-allocated from compensation of employees towards goods and services to mitigate the risk posed by accrued expenditure.

The reprioritisation only affected the 2019/20 financial year, hence the growth of compensation of employees between the periods 2019/20 and 2020/21 is 7.2 per cent when factoring out EPWP.

Goods and services increases by R0.609 million or 15.8 per cent, between the allocation of 2019/20 and the revised estimate of 2018/19.

The growth rate of goods and services is due to reprioritisation from compensation of employees, to Goods and Services in the 2019/20 financial year.

Payment for capital assets increases by R0.067 million, in an effort to absorb the additional cost associated with accrued expenditure (finance leases).

Programme 3: Transport Operations

Description and objective

The purpose of this programme is to plan, regulate and facilitate the provision of public- and freight transport services as well as infrastructure through own provincial resources, cooperation with national- and local authorities as well as the private sector, in order to enhance the mobility of all communities, particularly those currently with limited access to transport.

Sub-programme objectives

Public Transport Services

To provide an affordable and accessible transport service to communities.

Transport Safety and Compliance

To promote and improve safety on the public transport system and to enforce compliance with public transport legislation and regulations as well as the liaison and coordination of provincial safety and compliance initiatives.

Transport Systems

To provide an integrated transport system, coordination and capacitation of municipalities in relation to transport.

Infrastructure Operations

To manage public infrastructure terminals.

Operator Licence and Permits

To manage and control the registering of transport operators and the issuing of all licences and permits required in terms of legislation.

The programme reflects a budget decrease of R21.396 million, between the revised estimates of the 2018/19 financial period, compared with the 2019/20 financial period. The decrease is due to once-off funding allocated during 2018 adjustment budget..

The once off allocation of R49.591 million consist of R11.2 million for accrued payments of scholar transport, R35.3 million for the feasibility studies of the key infrastructure projects, R2.961 million for the EPWP Integrated Grant and R0.130 million received as a roll-over.

The Public Transport Operations Grant, is allocated within Public Transport Services.

If the non-recurring cost were to be removed, from both financial periods, the revised estimate for 2018/19 would be R68.952 million, with the amended budget of 2019/20 being R72.147 million, therefore programme would reflect a growth of R3.195 million or 4.6 per cent.

The decrease within the sub-programme: Transport Safety and Compliance, as from the 2018/19 Adjusted Appropriation, continuing throughout the 2019 MTEF, is due to the transfer of the Public Transport Inspectorate (PTI), from Transport Operations, to Transport Regulations.

The growth of the sub-programme: Operators License and Permits, is because of the capacitation of the Provincial Regulatory Entity (PRE), with personnel.

Compensation of employees reduction of R1.631 million, between the revised estimate of the 2018/19 financial period, compared to the allocation within the 2019/20 financial period. The decrease is due to two factors, the first being that the EPWP Integrated Grant and no additional funds allocated for 2019/20.

It is worth noting that the function of scholar transport moved to the Department of Education, with effect from 1 April 2018, whilst the officials of the function were transferred later in the financial year.

Goods and services expected growth within the programme is mostly affected by once-off costs from the 2018 adjustment budget.

The payments of the Public Transport Operators Grant (PTOG) is allocated within the item public corporations and private enterprises, which constitute 97 per cent of the allocation of transfers and subsidies.

The Public Transport Operators Grant increases by R3.008 million or 5.6 per cent from the 2018/19 to the 2019/20 financial year. In the 2019/20 financial period, services rendered through this grant will expand to include new routes in Pixley Ka Seme district.

Programme 4: Transport Regulation

Description and objective

To ensure the provision of a safe road environment, through the regulation of traffic on public roads, implementation of road safety campaigns and awareness programmes as well as registration and licensing of vehicles and drivers and Law Enforcement.

Sub-programme objectives

Transport Administration and Licensing

To render services regarding the administration of applications in terms of the National Road Traffic Act 93 of 1996.

Road Safety Education

To facilitate a safe transport system, by promoting road safety education and awareness for all modes of transport.

Law Enforcement

To maintain law and order for all modes of transport by providing quality traffic policing services as stipulated by the relevant legislation.

The programme reflects an increase of R12.014 million from the 2018/19 revised estimate to the 2019/20 financial period. Included in the increase is the additional once-off funding of R3 million for the establishment of a new weighbridge.

The actual growth of the programme excluding the R3 million in the 2019/20 financial year is therefore R9.014 million or 10.2 per cent.

The 2019/20 budget for compensation of employees increased by R7.704 million or 10.8 per cent from the 2018/19 revised estimate. The growth is above inflation, which makes provision for the filling of vacancies of traffic officials in both the 2019/20 and 2020/21 years.

The goods and services increase by R3.744 million or 24.7 per cent. Included in the growth, is the once-off funds of R3 million within the 2019/20 financial year for the establishment of a new weighbridge.

Payments for capital assets increases by R1.218 million or 95 per cent from the 2018/19 revised estimate to the 2019/20. Growth is to make provision for the purchase of vehicles for traffic officials.

1. Overview

Core Functions and Responsibilities

- Public Ordinary Schools is aimed at the provision of educators in schools, the development of educators to ensure that they are equipped to provide the best quality teaching and the provision of Learner Teacher Support Materials (LTSM). The function is also aimed at the provisioning of food to Public Ordinary School learners through the National School Nutrition Programme (NSNP).
- Public Special Schools Education includes the provision of schooling to all learners with special educational needs in special schools and full-service schools.
- Early Childhood Development is the provision of Grade R in state, private and community centres. The programme also seeks to provide ECD programmes for pre-Grade R learners.
- Infrastructure Development includes the provision of new schools and other school facilities.

Vision

A transformed quality education system.

Mission

To deliver quality public education to all learners of the Northern Cape which will enable them to play a meaningful role in a dynamic, developmental and economic society.

Strategic Goals

- To maintain and improve the provision of quality Education.
- To contribute to the economic growth and development of the Province including the creation of decent and sustainable jobs and Entrepreneurship, through education.
- To promote Health Education and the teaching and learning of healthy lifestyles in order to improve the quality of life.
- To ensure that education programmes in our schools continue to be transformative and developmental.
- To strengthen and improve medium to long term planning, reporting, monitoring, evaluation and administration systems in order to optimise impact of service delivery.
- To re-position schools as centres of community life where quality, administrative excellence, safety, and security thrive.
- To promote social and school enrichment programmes in order to enhance and realize objectives of social cohesion and community development.

Main Activities

Curriculum and Assessment support
 Administrative and financial support systems
 Institutional development and support systems, structures and programmes

2. Review of the current financial year (2018/19)**Curriculum and Assessment Support**

Four hundred and fifty one (451) teachers in both Home and First Additional Languages were trained in Afrikaans, Setswana, IsiXhosa and English. Teachers were supported on Literature, Teaching Reading, Lesson Plans and Assessment.

Teachers were also provided with scripted lesson plans. School support visits were conducted in one hundred and twelve (112) schools in five districts, support provided and on site school based assessment moderation was conducted.

Provincial and District officials attended the Primary Schools Reading Intervention Programme (PSRIP) training for Phase 2 in Foundation and Phase 1 in Intermediate Phase which was rolled out in the fourth term.

In terms of Curriculum Assessment, Language and Mathematics Specialists were part of the Centralised Moderation in Grade 3, 6 and 9-12 for selected schools across the province.

Moderation findings were shared with teachers during the 2019 Curriculum Roadshow. Towards the end of the 2018 academic year, support commenced with the last push programme in all five districts where lead teachers, subject advisors and provincial subject co-ordinators were deployed to schools and subjects that were at risk of underperforming in FET.

Compulsory study sessions were also arranged at identified schools across the province to assist those learners whose home environment is not conducive to healthy learning. A total of two hundred (200) Grade 8-9 Natural Science and Mathematics teachers attended a training session where the emphasis was on enhancing teaching methodologies, conceptual development and practical skills.

The Northern Cape Department of Education (NCDoE) in partnership with Diamond Fields Advertisement (DFA) and Northern Cape Provincial Legislature concluded the competition by evaluating essays and posters from all districts. The competition was geared to improve on learners' creative skills in writing and poster development. The prize giving ceremony was done in the fourth term.

In pursuit of promoting and developing language proficiency, three (3) learners took part in the English National Spelling Bee and forty two (42) grades 1-10 learners represented the province in the Woerde Open Werelde (WOW) Afrikaans spelling competition in Stellenbosch.

A Thuma Mina Reading promotion activity was conducted for the public and learners in Galeshewe Township.

Only eleven (11) Reading Assistants, which were identified through the EPWP programme to ensure functionality and accessibility of libraries managed to finish the annual programme in October 2018.

Ten (10) schools were identified to introduce Kiswahili as the Second Additional Language for communication only. A total of ninety seven (97) Grade 1 teachers from fifty four (54) schools were trained on Incremental Introduction of African Languages (IIAL) while fifty four (54) schools were provided with Grade 1 IIAL tool kits.

Maths Science and Technology Strategy

Since the discontinuation of the HeyMath! System at the expiry of its license on 31 March 2018, the department has commenced the procurement process for an Edukate system that includes Mathematics and Physical Science.

Sixteen (16) MST subject advisors and coordinators attended the MST working session to develop Grade 7 training material. The training is part of a three (3) year Implementation Plan which was developed to as part of the Professional Development Plan for MST teachers in General Education and Training (GET).

In an attempt to respond to the National Development Plan 2030 goals, the NCDoe embarked on various activities to increase participation in Mathematics and Science. Talent Search activities were conducted in John Taole Gaetsewe (JTG) and Frances Baard (FB) districts with the aim of increasing participation in Mathematics by exposing learners to different Career paths.

The Postmasburg Primary participated in the national astro quiz competition and obtained fourth position whilst Wrenchville High school took part in the national school science debate and obtained seventh position.

The Mathematics assistants programme has been introduced in three districts, namely Frances Baard (40 assistants), Pixley Ka Seme (14 assistants) and ZF Mgcawu (11 assistants).

Eleven (11) Primary schools and one (01) senior phase school were provided with Science equipment.

Forty (40) Primary schools were provided with Mathematics manipulatives. Thirty-four (34) schools, fourteen (14) in JTG and twenty (20) in Frances Baard with grades 8 and 9 were provided with manipulatives through the Nedbank Foundation. A further, thirty (30) schools fifteen (15) in Pixley Ka Seme and fifteen (15) FB, will be delivered through the Globeleq funding.

Advocacy conducted through career exhibitions resulted in increased participation of learners in Mathematics competitions. The teaching and learning of Mathematics was enhanced through the participation of learners in the Maths challenge where 5 478 intermediate phase learners participated in the maths challenge. 860 Grade 10-12 learners took part in the Maths Olympiad.

Comprehensive and collaborative Career Exhibitions were held for 11 029 learners in all districts.

Empowerment session for Technology Grade 7 - 9 female teachers took place in all five districts. Grade 8 and 9 teachers were trained on content and methodology through the Mathematics Intervention Programme.

Two hundred and seventy-seven (277) Mathematics and two hundred and four (204) National Science and Technology (NST) Grade 4 teachers were trained on content and methodology. Training 1 100 Grade 5-6 NST and Mathematics teachers occurred in September 2018. Further content and methodology short course for MST teachers was conducted with the help of ETDPSSETA and UWC during September and October 2018.

Three Streams Model

Advocacy was done for District Curriculum Heads during a Curriculum Management meeting. Presentation was provided to districts to further advocate the model. Two schools have been identified for implementation namely, Kleinsee and N.J. Heyns and these two schools piloted the model in 2018. These two schools are already offering the National Vocational Curriculum.

Forty-six (46) teachers from Kleinsee and NJ Heyns have been provided with training on the different identified subjects. Further roll out in implementation has been postponed until DBE has completed the assessment and qualifications framework followed by the promulgation of the qualification standard.

Early Child Development

The provincial task team was expanded to include IMGD, Finance and Infrastructure as part of the provincial task team. The structure is functioning well.

The NCDoe is currently paying 70 per cent of the costs that it pays towards a Grade 1 learner to the costs of a grade R learner. Because of efficiency measures the equalisation could not be done.

No alternative infrastructure has been completed. However, two ECD classrooms were completed in line with the infrastructure plan.

Drongfontein and De Aar Solar Power as well as SIOC CDT are paying for the bursary of seventy (70) Grade R practitioners currently in training.

Libraries and Promotion of Reading

Library Information Systems has not been included in school readiness programme as planned, but will be included in 2019 school readiness tool. No progress has been made thus far in terms of provision of starter and collection packs for the development of libraries, however, forty two (42) schools have been provided with donated library material.

Conversion of existing classrooms into libraries and the development of different models of libraries are still in progress. Optimal utilisation of the mobile libraries by allocating them to the districts is the chosen model of delivery and is being implemented.

Regular meetings are held between Department of Education and the Department of Sport Arts and Culture to strengthen the partnership.

Teacher Development

The South African Council for Educators has conducted capacity-building sessions on Material Development in Namakwa, JTG and FB for schools and district officials. They have developed programmes for training and those will be awarded Professional Development points (PD).

Training in the limited courses provided by Teacher Development is taking place. Quarterly cluster sessions held in all districts to strengthen teachers' content knowledge and teaching methodologies.

The Maths Intervention Programme for grade 8 and 9 teachers gave a strong focus on teaching methodologies and on content that is identified as problematic.

District officials have been trained except those in Namakwa and Pixle Ka Seme districts and are required to train teachers. Professional Learning Communities are being established and are functioning with Inclusive Education in the FB district acting as a pilot district.

Improved District Support to Schools

The number of under and unqualified "teachers" (REQV 10, 11, 12) has declined from 432 in 2017 to 340 to date. There is a notable difference of 92 teachers, primarily due to the Curriculum initiative via the Rhodes University B Ed Degree Project.

The Human Resources Management and Development Chief Directorate has developed two on-line reporting tools that can be used at both head and district offices. The tools include:

- A Monthly Planner: where officials are able to electronically populate and share their individual monthly programs with any other official of their choice appointed at the NCD of E. This will allow for more effective collaboration and co-ordination of activities.
- An Activity Reporting module that allows line managers to track tasks assigned electronically as well as upload relevant documentation. Advocacy and training were rolled out in September 2018.

During the 3rd Quarter of 2018, 100 officials were trained on data management and report writing training. Fifty (50) Curriculum officials were trained on data use and data analysis by University of Kwa Zulu Natal (UKZN).

3. Outlook for the coming financial year 2019/20

Early Childhood Development (ECD)

Universal Coverage

ECD Provincial Task Team is to make inputs in the amendment of the South African School Act to effect compulsory school going age and ensuring that formal schooling starts in grade R.

Infrastructure

ECD rollout plan must inform the priority list. Infrastructure and ECD directorates will make an analysis of the current structures and develop a provincial guideline of the number of classrooms to be built per school.

The department will consider using empty schools, which would include closed or merged schools especially in JTG district in order to provide infrastructure for Gr R.

Teacher Demand and Recruitment

Contracts will be thoroughly checked at the school and district levels before submission to head office with the Circuit Managers being tasked with the responsibility of ensuring that this is done. Schools will make use of the Human Resource Management System (HRMS) for submission of documents for termination or for leave of officials.

Conditions of Service

ECD Provincial Task Team will benchmark with other provinces in terms of Grade R conditions of service best practices.

In order to recognise the qualifications obtained by ECD practitioners, the department will ensure that the salaries received by qualified practitioners is not the same as those who are unqualified. The provincial ECD task team will determine the financial implications that must be approved by Senior Management.

No practitioner with Diploma in Grade R teaching qualification will be appointed in Foundation Phase for retention of bursary beneficiaries.

Teacher Development

Teacher Development is to identify and address the needs of educators by providing SACE endorsed/accredited training courses in key subjects. Curriculum will finalise the Provincial School Based Assessment (SBA) Strategy to improve the implementation and quality of SBA. Human Resource Management will develop a teacher recruitment and retention strategy to attract high achieving school leavers to the teaching profession. The Department will investigate the possible twinning of performing and underperforming schools across all phases as a means of strengthening the effective functionality of Professional Learning Communities and Subject Committees at school level. The Department will establish the Provincial Teacher Development Institute in collaboration with SPU.

The Three Streams Model**Expansion of the model**

Action/implementation plans with clear terms of reference will be developed, which would locate district officials at the centre of the plans.

The situational analysis in the two (2) piloting schools (Kleinsee and N.J. Heyns) will be conducted and advocacy intensified at district level and at selected schools. Report findings and recommendations will be submitted for processing.

NCDoe will continue with the pilot in the two (2) schools and eight (8) more are to be selected targeting two per district.

Teacher Demand and Specialisation

Management and recruitment of qualified teachers for the field of work, liaising with corporate business for sponsors and the identification of schools based on available resources.

Career guidance activities to advocate careers in the different pathways will be conducted.

Technological/ICT advancements

The Department will engage Network Service Providers to assist with resources for pilot schools as well as to ensure the availability of connectivity and provide ICT integration training

Infrastructure Development and Maintenance for 2020/21 Financial Year

The Department is in the process of eradicating inappropriate structures built from materials such as mud, asbestos, metal and wood.

Six (6) of the replacement schools will be completed and 3 new schools are anticipated to be completed within the 2019/20 financial year.

The department will provide adequate electricity and water to twelve (12) schools and seven (7) schools will receive upgrades and additional sanitation within the 2019/20 financial year.

Fifteen (15) additional classrooms and six (6) ECD facilities will be completed in the 2019/20 financial year.

The department has committed a 30 per cent of the allocated Education Infrastructure Grant to the maintenance of school facilities as per the Division of Revenue Act and therefore it is anticipated that a total of fifty five (55) schools will either receive corrective or preventative maintenance in order to repair buildings to their former glory.

Twenty five (25) pit latrines projects have been identified for eradication in the 2019/20 financial year.

4. Reprioritisation

Minimal reprioritisation done by analysing every cost centre budget, and reprioritising funds from slow spending programmes to core functions including realignment within programmes and sub-programmes. The budget was aligned to new plans and will ensure that all targets are achieved.

5. Procurement

The biggest procurement within the department relates to infrastructure projects. The department will continue to improve procurement processes by participating in RT (transversal) contracts of National Treasury to get the benefit of economies of scales and reduced prices.

The department will ensure that local suppliers are supported, through a roster database, which will ensure rotation of suppliers as part of the provinces initiative to support small medium and micro enterprises (SMME's).

Table above shows sources of funding over a 7-year period from 2015/16 to 2021/22 for the Department of Education. Equitable share financing is the main contributor to the departmental receipts. Funding from this source of revenue will increase from a revised estimate of R5.771 billion to R6.027 billion in 2019/20 and is expected to increase over the MTEF to R6.710 billion in 2021/22. Conditional grants increase from a revised estimate of R784.291 million in 2018/19 to R878.219 million in 2019/20.

For the 2019/20 financial year the Education Infrastructure Grant has increased with an amount R189.107 million as part of the infrastructure incentive for good performance. The conditional grant, Learners with Profound Disabilities Grant, also increased with 459 per cent for the 2019/20 financial year in order to continue and increase the support to learners with disabilities.

Departmental receipts are expected to increase with a minimal 0.6 per cent from the 2018/19 financial year when compared to the revised estimate of 2018/19, mainly due to Transactions in financial assets and liabilities. Revenue collected under this item relates to interest received from Infrastructure Agency bank account. The table also indicates a baseline correction on items during 2018/19 between interest, dividends and rent on land and Fines penalties and forfeits. During the 2018/19 financial year the department also anticipate the selling of the MEC vehicle under the item sales of capital assets.

The main source of departmental receipts falls under Sale of good and services other than capital assets and financial transactions in assets and liabilities.

Proceeds on the item sales of goods and services other than capital assets is derived from the re-issuing of matric certificates, commission earned on insurance, garnishees, examination and remarking fees, rental paid on government housing as well as the sale of tender documents. The collection on this item is demand driven.

Revenue collected under Interest, dividends and rent on land consists mainly of outstanding staff debt while collection under Transactions in assets and liabilities consists mainly of debts owed to the department.

7. Payment Summary

7.1 Key assumptions

The following key assumptions were taken into account when formulating the 2019/20 MTEF budget:

The National Treasury Instruction note 01 of 2013/14: cost-containment measures as well as the departmental efficiency circular will continue to be adhered to over the 2019 MTEF.

For 2019 MTEF inflationary projections are estimated at 5.4, 5.6 and 5.4 per cent respectively, while provision for salary increases should be made at CPI+1 over the MTEF. The department's 2019/20 personnel budget shows growth of 4.9 per cent when compared to the revised estimate. No provision has been made for the filling of vacant posts.

Transfers and subsidies to schools were also considered, the funding for schools is not in line with the National Norms and Standards for School funding due to budget constraints.

7.2. Programme Summary

The services rendered by the department are categorised under seven programmes, which are aligned to the uniform budget and programme structure of the Education sector. Table 2.3 and 2.4 provide a summary of the vote's payments and budgeted estimates by programme and economic classifications, respectively for the period 2015/16 -2021/22.

The 2019/20 budget of the department grows by 7.6 per cent or R488.588 million from the main budget and 5.3 per cent or R350.459 million from a revised estimate of R6.555 billion in 2018/19. An amount of R1.400 million has been reduced on the department's equitable share to assist the Department of Roads and Public Works with the payment of provincial rates and taxes.

The majority of the programmes shows minimal growth in the 2019/20 financial year when compared to the revised estimates with the exception of Public Special Schools, Early Childhood Development (ECD) and Infrastructure Development which shows growth of 9.5 per cent, 9.6 per cent and 11.5 per cent respectively.

Programme 1: Administration grows from a revised estimate of R0.669 million in 2018/19 to R0.773 million in 2021/22. The programme shows an average growth of 4.9 per cent over the MTEF period.

The expenditure of the Programme includes the remuneration of the Member of the Executive Council (MEC) as well as the Sub-Programme: Education Management which is responsible for curriculum development in the province and districts.

Programme 2: Public Ordinary School Education represent 74 per cent of the total departmental budget for the 2019/20 financial year. The expenditure of the programme is driven mainly by compensation of employees which accounts for 86 per cent of the total budget for the programme.

The significant growth of 7.6 per cent in the 2018/19 financial year can be attributed to the function shift of learner transport from the Department of Transport, Safety and Liaison. For the 2019/20 financial year the budget grows with 4.9 per cent due to the projected over expenditure as a result of compensation of employees.

Included in the funding of this programme is various conditional grant funding i.e. the National School Nutrition Programme (NSNP) and the Maths, Science and Technology Grant. Furthermore various funding is also included in the baseline of this programme, such as Teacher Development funding, LTSM and Norms Funding to Public Ordinary Schools, Hostel Subsidies, school bailouts on municipal accounts and other inventory for distribution to schools. The department has been allocated an amount of R10.518 million in 2019/20 financial year as part of the Sanitary Dignity project in order to improve access to sanitary products for school girls from grade 4 upwards.

Programme 3: Independent School Subsidy The programme shows growth of 5 per cent in 2019/20 when compared to the revised estimate of 2018/19 and shows a minimal growth of 3.8 per cent over the MTEF. The programme provides subsidies for independent schools and funding is based on availability of resources.

Programme 4: Public Special Schools Education programme grows by 9.5 per cent in 2019/20 from the 2018/19 revised estimate and grows with an average growth rate of 7 per cent over the 2019 MTEF period this is mainly due to the substantial increase in the allocation of the learners with Profound Intellectual Disabilities grant. For the 2019/20 financial year this grant increases from R6.508 million to R11.298 million, this represents an increase of 456 per cent.

Programme 5: Early Childhood Development and Training shows growth of 9.6 per cent from a revised estimate of R100.460 million in 2018/19 to R110.098 million in 2019/20, this is mainly due to the projected under expenditure in 2018/19 which can be ascribed to the delay in the awarding of a tender for the training of ECD practitioners in a diploma course. The programme reflects healthy growth over the MTEF of 6.9 per cent mainly due to the initial funding allocated towards the Universalisation of Grade R.

Programme 6: Infrastructure Development mainly consist of the Education Infrastructure Grant. The programme has seen steady growth in the budget over the years, however for the 2018/19 financial year the grant was reduced by 7 per cent or R43.501 million in rand value. The baseline of the grant has increased with an amount of R189.107 million in the 2019/20 financial year as part of the infrastructure incentive for good performance.

Programme 7: Examination and Education Related Services shows negative growth of 3.1 per cent, in 2019/20 financial year, from the revised estimate of 2018/19. This is mainly due to the projected over expenditure on special projects and a reduction of 42 per cent in the allocation for the Social Sector Expanded Public Works Programme Incentive Grant For Provinces.

The sub programme External Examination shows growth of 8.8 per cent in 2019/20. Expenditure on this programme is influenced by the number of learners writing matric as well as interventions to strengthen the integrity of the marking processes.

Included also in this programme is the equitable share amount of R20.925 million for the 2019/20 financial year, for the feeding of quintile 4 and 5 learners which are not catered for within the National School Nutrition Programme Grant.

Compensation of employees reflects a steady growth since 2015/16. The increase is also as a result of the growth in educator post to make provision for growth in learner numbers as well as substitute and relief teachers and capacitating of district offices are also included in the compensation of employees budget.

For the 2019/20 financial year the total compensation budget of the department constitutes 76 per cent including conditional grant allocations. Compensation of employees grows with 5.1 per cent from the revised estimate of 2018/19, mainly due to the projected over expenditure on the item as a result the growth is below the required rate of 6.4 per cent 2019/20 financial year. There is therefore no room for any additional posts to be filled.

The excessive growth of 36.4 per cent on goods and services during the 2018/19 financial year was mainly due to the function shift of learner transport from the Department of Transport, Safety and Liaison to Education. This item constitute 28 per cent of the total goods and services budget.

For the 2019/20 financial year goods and services shows negative growth of 9.6 per cent as the department will no longer do central procurement of Learner Teacher Support Material (LTSM). The funds will be transferred to schools, and will be allocated to schools and will form part of the item non-profit institutions.

Transfers and subsidies is expected to grow from a revised estimate of R551.190 million in the 2018/19 to R565.975 million in 2019/20, this represents a 2.7 per cent increase in the budget.

- *Transfers and subsidies to departmental agencies and accounts* reflect transfers made to the Education Training and Development Practices Sector Education and Training Authority (ETDP SETA) in respect of the skills development levy.
- *Transfers and subsidies to: Non-profit institutions* reflect a steady increase 8.7 per cent in the 2019/20 financial year and an average growth of 6.4 per cent over the medium term. This mainly relates to payments for section 21 norms funding to schools (no-fee policy) and is largely influenced by the increase in the per capita funding as well as increased learner enrolment.
- *Transfers and subsidies to: Households* caters for staff exit cost (leave gratuity), and hostel subsidy transfers. For the 2019/20 financial year, the item shows a negative growth of 39.9 per cent mainly due to the projected over expenditure of leave gratuity in the 2018/19 financial year.

The budget allocated towards *Payments of Capital Assets: Buildings and other fixed structures* amounts to R458.488 million for the 2019/20 financial year, this allocation makes provision to deal with classrooms backlogs, refurbishment and maintenance of schools.

The budget on machinery and equipment over the 2019 MTEF largely makes provision for finance leases and tools of trade such as computer equipment, software and other intangible assets.

7.4. Infrastructure payments

The above table shows all departmental transfers and subsidies per programme and main category.

Programme 1 transfers under households relate to payments made in respect of staff exit cost and an allocation made to the MEC discretionary fund.

Programme 2 houses the largest portion of transfers to schools. Transfers and subsidies show a nominal growth over the MTEF due to the following reasons:

- Non-Profit Institutions reflects payments made in respect of departmental norms and standards. These transfers are in respect of section 21 transfers to public schools in accordance with the South African Schools Act, norms and standards for school funding. The amount is also inclusive of the NSNP conditional grant portion.
- Social Benefits and Other Households cater for exit packages for employees who have left the employment of the department through resignation or retirement.
- Other Transfers to households relates to a hostel subsidy made to learners staying in hostels.

Programme 3 reflects payments made to in respect of subsidies given to independent schools. These subsidies are paid to schools that have applied to obtain the status as independent schools, this funding is dependent on the availability of funds and as such not all independent schools qualify for this funding.

Programme 4 reflects payments made to public special schools; these schools provide inclusive education to ensure the implementation of the Education white paper 6 Inclusive Education. The expenditure on transfers is expected to grow with average of 3.5 per cent over the MTEF.

Programme 5 reflects payments made to ECD centres in the province. Transfers to non-profit institutions in this programme show a growth of 8.8 per cent in the 2019/20 financial year and an average growth of 6.5 per cent over the medium term.

Programme 7 caters for payments made to ETDP SETA in respect of the skills development levy, and transfers made in respect of quintile 4 and 5 feeding scheme.

7.6.3. Transfers to Local Government

The department does not make transfers to local government.

8. Receipts and Retentions

9. Programme Description

Programme 1: Administration

9.1 Description and Objectives

To provide overall management of the education system in accordance with the National Education Policy Act, the Public Finance Management Act, and other relevant acts and policies.

Sub programme objectives

Sub-programme 1.2: Corporate Services

To provide management services which are not education specific for the education system

Sub-programme 1.3: Education Management

To provide for education management services for the education system.

Sub-programme 1.4: Human Resource Development

To provide human resource development for office based staff

Sub-programme 1.5: Education Management Information Systems (EMIS)

To provide an Education Management Information System in accordance with the National Education Information Policy.

9.2 Programme expenditure analysis

Table 2.10.1 provides a summary of payments and estimates by sub programme.

Corporate Services budget accounts for 55 per cent of the programmes budget and it includes financial, administrative, districts and personnel support services. The budget of the sub programme grows from a revised estimate of R342.712 million in 2018/19 to R384.256 million in 2019/20 which represents an increase of R41.544 million or 12.1 per cent.

The Education Management sub programme budget includes all cost relating to the education delivery requirements (Curriculum). The sub programme receives 37 per cent of the programme budget and is the second largest budget in the programme with personnel as its main cost driver.

The sub programmes allocation shows negative growth of 9.5 per cent in 2019/20 financial year due to projected over expenditure in the 2018/19 financial year. The Curriculum budget amounts to R190.601 million in the 2019/20 financial year.

Human Resource Development is largely funding that is set aside in line with the Skills Development Act and constitutes 4.4 per cent of the programme's budget. The budget of the sub programme grows significantly with 42.1 per cent in the 2019/20 financial year and at an average of 16.4 per cent over the MTEF

Compensation of employees in the programme has been growing significantly over the years, the growth is mainly due to the filling of critical posts in district offices as well as the funding provided for the annual cost of living adjustments.

In the 2019/20 financial year CoE shows growth of 5.9 per cent, when based on the revised estimate of 2018/19, this can be ascribed to projected over expenditure on the item. No provision has been made for filling of vacant post and personnel numbers is projected to remain the same over the MTEF at an average of 1112.

Goods and services in the programme experiences a negative growth of 10.5 per cent in 2019/20 mainly due to over expenditure on the Curricullim budget within the programme, and due to reprioritisations within the programme to cater for the annual cost of living adjustment and to ensure sufficient growth on compensation of employees .

Payment for capital assets grows with 67.6 per cent in the 2019/20 financial year, The allocation mainly addresses finance leases for the departmental fleet and telephones.

Programme 2: Public Ordinary School Education

Description and objectives

To provide public ordinary education from Grades 1 to 12, in accordance with the South African Schools' Act and white paper 6 on inclusive education.

Sub-programme 2.1: Public Primary Level

To provide specific public primary ordinary schools (including inclusive education) with resources required for Grade 1 to 7 Levels.

Sub-programme 2.2: Public Secondary Level

To provide specific public secondary ordinary schools with resources required for the Grades 8 to 12 levels.

Sub programme 2.3: Human Resource Management

To provide departmental services for the professional and other development of educators and non-educators in public ordinary schools

Sub-programme 2.4: In School Sport, Art and Culture

To provide additional and departmentally managed sporting and cultural activities in public ordinary schools.

Sub-programme 2.5: Conditional Grant

To provide for projects under programme 2 specified by the Department of Education and funded by conditional grants.

The programmes total allocation amounts to R5.120 billion in the 2019/20 financial year and grows to R5.705 billion in the outer year of the MTEF. This represents an average annual growth rate growth of 5.3 per cent over the 2019 MTEF. The budget includes the budget for educators' salaries, the bulk of the payment for markers and professional development needs for educators

The budget also includes the funding for Public Ordinary School Education in line with the Norms and Standards as determined by the Minister of Basic Education. Also included in the funding of the programme is various earmarked funding for certain priorities of the education sector.

The department has been allocated an amount of R10.518 million in 2019/20 financial year as part of the Sanitary Dignity project in order to improve access to sanitary products for schoolgirls from grade 4 upwards. Included in the programme is an amount of R6.559 million that has been set aside for municipal accounts in the 2019/20 financial year.

With the introduction of centralised CAPS textbook procurement model, the department withheld the Norms and Standards Learner Support Material (LSM) funding to all Public Ordinary Schools for this purpose. All procurement for CAPS was centralised by the department over the past years, however, from the 2019/20 financial year these funds will be transferred to the schools in order for them to do their own procurement.

Compensation of employees is the main cost driver in this programme and grows from a revised estimate of R4.213 billion in the 2018/19 to R4.397 billion in the 2019/20 financial year, this represents growth of 4.4 per cent and at an average of 5.3 per cent over the MTEF.

The growth on the item is below the required rate of 6.4 per cent mainly due to the projected over expenditure in the 2018/19 financial year, which can be attributed to an increase in learner numbers which resulted in the appointment of more educators at the beginning of the 2017 academic year.

Goods and services fluctuate over the seven-year period. The increase on goods and services during 2015/16 can be attributed to accruals from the previous financial year and the procurement of Hey Math. The department also took part in central procurement of stationery during the 2016/17 financial year. The sharp increase during 2018/19 can be ascribed to the function shift of Learner Transport. The allocation for learner transport amount to R156.420 million in the 2019/20 financial year.

Transfers and subsidies represent mainly funding allocated to schools in terms of the National Norms and Standards for School Funding Policy, which is influenced by learner numbers, as well as the National School Nutrition Programme Grant.

Transfers to households relates to hostel subsidies to assist learners who are exempted from paying hostel fees. An amount of R34.005 million has been set aside to assist learners in both primary and secondary schools. Currently an amount of R6000 per learner is allocated per year.

Payments for capital assets mainly relates to the conditional grants for the purchase of science equipment and the rental of vehicles.

The Public Special Schools budget for 2019/20 shows increase of 9.5 per cent from the 2018/19 revised estimate. The budget mainly makes provision for compensation of employees, assistive devices used at special schools, and transfers and subsidies. The high growth rate is influenced mainly by the 65.2 per cent increase in the allocation of the Learners with Profound Disabilities Grant.

The department has 11 registered special schools within the province and 26 full service schools. The number of learners in special schools is 2110. A new grant has been introduced during the 2017/18 financial year to cater for learners with profound intellectual disabilities. The grant shows growth of 222 per cent or R4.487 million in rand value for 2018/19 financial year. For the 2019/20 financial year the grant amounts to R11.298 million.

Compensation of employees reflects growth of 9.9 per cent from 2018/19 revised estimate to the 2019/20 financial year. The significant growth in compensation in 2018/19 can be attributed to the additional allocation in the form of a grant to learners with profound intellectual disabilities to make provision for the appointment of specialists within the grant.

Transfer payments to non-profit institutions shows negative growth of 0.4 per cent, due to incorrect classification of expenditure relating to other programmes on the revised estimate, however if this is factored out, the item shows growth of 5 per cent for the 2019/20 financial year.

Early Childhood Development programme grows from a revised estimate of R100.460 million in 2018/19 to R110.098 million in 2019/20; this represents a growth of 9.6 per cent in 2019/20 and an average growth of 6.9 per cent over the MTEF.

The above inflation growth in this programme is attributed to the increasing focus that has been placed on the foundation phase education over the years which has led to various earmarked funding being allocated to this programme and these include Expansion of Grade R and the Universalisation of Grade R.

Compensation of employees grows with 10.9 per cent for the 2019/20 financial year. The personnel costs budget mainly makes provision for stipends of NQF level 4 and 5 and REQV 13/14. Currently the department employs 658 Grade R practitioners in public primary schools.

The Goods and services budget shows growth of 0.7 per cent in 2019/20. The biggest part of the item's budget goes towards training and development of Grade R practitioners. The high growth is due to the projected under expenditure during the 2018/19 revised estimate. This can be ascribed to delays in tender processes for the training of 100 ECD practitioners. The training for the current year will be deferred to the 2019/20 financial year.

The budget allocated to Transfers and Subsidies: Non-Profit Institutions is in respect of schools with Grade R classes. The budget increases during 2019/20 financial year by 8.8 per cent, when compared to the 2018/19 revised estimate.

This programme is mainly funded through the Education Infrastructure Grant. The Infrastructure programme increased from a revised estimate of R580.642 million in 2018/19 to R647.537 million in 2019/20; this represents an increase of 11.5 per cent or R66.895 million.

Allocation to the grant within this programme is dependent on the financial incentive which the department receives from a national bidding processes introduced through the reforms for infrastructure planning and delivery.

The sub programme: Public Ordinary Schools accounts for 87 per cent in 2019/20 of the total budget of the programme and this is to allow for the delivery of infrastructure in public ordinary schools as well as the maintenance thereof.

An amount of R45.572 million has been allocated in the 2019/20 financial year for the appointment of specialists as per the Education Infrastructure Grant (EIG) framework, however the department experienced challenges with the recruitment of specialist, hence the reduction during the revised estimate.

Goods and services caters for the the maintenance and repairs allocation within the grant to existing infrastructure as well as professional service fees for projects that are implemented by Profesional Service Providers (PSP's). Goods and services were increased during the 2018/19 adjustment estimates due to the changes in the nature of infrastructure projects. Funds were shifted from capital to current.

Payment for capital assets makes provision for the construction of new school infrastructure, upgrades and additions and refurbishments and rehabilitation.

The Examination and Education Related Services programme has an allocated budget of R148.110 million in 2019/20. Showing negative growth of 3.1 per cent, due to the projected over expenditure in 2018/19 on the Special Projects sub programme.

The professional services sub programme shows increase of 15.6 per cent for 2019/20 this is largely due to the appointment of additional staff members. This sub programme hosts education specialist such as therapist, nursing staff and psychologist.

The negative growth on the Special Projects sub programme is mainly due to the projected over expenditure as a result of appointing service providers for the operation clean audit without a budget. The negative growth suggests that if the service providers remain, the sub programme will continue to overspend as no provision is made for their appointment in the baseline

The programme also include the HIV and Aids Grant which amounts to R5.594 million for the 2019/20 financial year, the Expanded Public Works Programme Incentive Grant For Provinces

(EPWP) and the Social Sector Expanded Public Works Programme Incentive Grant for Provinces, which amounts to R2.663 million and R3.675 million respectively.

Compensation of employees in the programme grows 10.8 per cent in the 2019/20 financial year and at an average of 7.3 per cent over the MTEF.

Goods and services shows negative growth of 17.4 per cent in 2019/20 due to the projected over expenditure in 2018/19 as a result of appointing service providers without a budget.

Transfers and Subsidies includes an amount of R7.085 million to the ETDP SETA. The item non-profit institutions refers to transfers made to quintile 4 and 5 schools as part of the Food Nutrition Programme, for the 2019/20 financial year the allocations amounts to R22.900 million.

Payments for capital assets shows sharp increase in 2018/19 mainly due to the exam machines that was paid under goods and services due to the expired lease, however the department is currently involved in a litigation process due to the delivery of machines that did not comply with specifications, it is not clear when the process will be concluded and it is for this reason that the printing of exam papers has been outsourced and will be paid under goods and services until the matter is resolved.

The tables include both educator and non-educator salaries and post numbers. The increase in personnel cost can be attributed to the cost of living increases. Compensation of employee's amounts to 77 per cent of the total budget including conditional grants. Salary cost is the major cost driver in the department's budget, with programme 2 having the largest share of the allocation.

The department conducts a number of training courses for both public service and educator staff. Training programmes for educators are coordinated through the teacher development centre and are mostly structured to improve teaching in the classroom. The 2018/19 financial year sees a reduction on training due to cost containment measures.

The department also awards bursaries to educators, public service staff and out of school youth.

9.4.3 Reconciliation of structural changes

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

The Annual Performance Plan (APP) of the department was developed in line with the allocated budget, and performance indicators and the outcomes delivery agreement. The outlook of the 2018/19 financial year clearly indicates the department's key priorities and activities to be achieved within the allocated budget, which includes the following:

Outcome 6: Provide an efficient, competitive and responsive infrastructure network.

Output 3: To ensure the maintenance and strategic expansion of our road and rail network, and the operational efficiency, capacity and competitiveness of our seaports.

- Address insufficient and inadequate infrastructure.
- Ensure maintenance and strategic expansion of road network, operational efficiency and capacity.
- Introduce and enhance private sector involvement in infrastructure development.
- Integrated planning and pre-determining infrastructure funding requirement to determine long term funding.
- Implementation of the Road Infrastructure Strategic Framework for South Africa (RIFSA).

Outcome 4: Decent employment through inclusive growth

- Output 3: Multi-pronged strategy to reduce youth unemployment
- Output 7: Implementation of the Expanded Public Works Programme
- Output 6: Improved Support to Small Business and Emerging Contractors.

Outcome 12: An efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship.

- Output 1: Service delivery quality and access
- Output 2: HR management and development
- Output 3: Business processes, systems, decision rights and accountability management
- Output 4: Reducing corruption in the Public Service.

In order to make sure that the department is in line with government main strategic priorities; activities developed are linked and are a part of the quarterly reporting framework.

2. Review of the current financial year (2018/19)

This section provides a review of the 2018/19 financial year, outlining main achievement and progress made by the department during the year, as well as providing a brief discussion on challenges and new developments.

Public Works Infrastructure

Almost half of the department's budget is allocated toward the construction, upgrading and maintenance of road infrastructure in line with the goal of providing a balanced road network that meets the mobility needs of NC citizens, and providing a logistics platform for South Africa's global trade, in accordance with the NDP and PGDPs.

The following list details some projects that were completed and some that were in progress in 2018/19

Roads

John Taolo Gaetsewe Roads in partnership with Sishen Iron Ore Community Trust (SIOC)

The upgrading of MR950 and MR947 roads, which have been prioritised in the district Integrated Transport Plan (ITP) and the district strategic plan continued in the 2018/19 financial year. A total amount of R25 million was allocated to the project in the current financial year, zero expenditure was recorded by the department at the end of the 3rd quarter.

Hotazel to Tsineng phase 5 (Gatsekedi)

The project aims to provide paved access between Hotazel and Tsineng, of which is a joint venture between South 32 Mining Group and the department. The completion of this project will be the final phase, thus forming a paved road link between Hotazel and Tsineng. This project is allocated R43.555 million for the financial year and spend R14.786 million or 34 per cent as at the end of the 3rd quarter.

Hondeklipbay Road Phase 3

Section 3 of the current Main Road (MR) 739, upgraded the gravel road to a block paved road within the town boundary of Hondeklipbay. The project formed part of the contractor development programme and aimed to improve job creation prospects. The project was completed in October 2018.

Hondeklipbay Road Phase 4

The 4th phase of the project is to provide access to the communities of Klipfontein and Hondeklipbay, including amenities such as schools and clinics. The road further supports tourism initiatives in the area between the Groen River Estuary and the mouth of the Spoeg River just south of Hondeklipbay.

Road Safety Projects

The department, in partnership with SANRAL and Sol Plaatje Municipality upgraded three intersections on the section of the R31 and N8 intersection, the Douglas road intersection and the N12 intersection.

A second partnership with SANRAL included the upgrade of two intersection on the N14 and R380 in Kathu.

Road Maintenance

The Department of Roads and Public Works (DR&PW) has developed and implemented a comprehensive set of management procedures that are used to monitor, maintain and improve the condition of the road infrastructure. The systems are updated on an annual basis and visual condition assessments on the paved road network were undertaken during 2018, whereas 50 per cent of the Unpaved road network were undertaken during 2017 and 50 per cent during 2018 by professional service providers.

According to the most recent condition assessment data of 2017 and 2018, the majority of paved DR&PW roads can be classified as “good”. The 15.1 per cent “poor” and “very poor” roads have high investment needs and high associated road user costs. A total 31.2 per cent of the paved roads are now in a fair condition requiring preventive maintenance whereby their useful lives could be extended to postpone expensive future rehabilitation costs. The overall gravel thickness of the DR&PW unpaved road network is 23.03mm with 73.8 per cent with insufficient (<50mm) material.

From the classification of paved roads segments into maintenance or rehabilitation categories, it is clear that 191.52km needs heavy rehabilitation, 232.47 km light rehabilitation and 1 304.93km require a reseal.

The classification for unpaved roads into a reshaping or re-gravelling category is based on the distress ratings. Using this method, it is clear that 3 179.73km (18.5 per cent) needs to be reshaped and 14 005.41km (81.5 per cent) requires re-gravelling.

The financial analysis completed, determined the impact of the current DR&PW funding levels considering the following intervention treatments: reseal, rehabilitation, re-gravelling and upgrading of unpaved roads to paved standards.

In order to determine the amount that is required for preventative maintenance and rehabilitation needs, the unit rates were determined. For paved roads, an amount of R4.708 million is required for preventative maintenance and the rehabilitation of roads. For unpaved roads, an amount of R9.171 million is required for the reshaping and re-gravelling of roads.

Expanded Public Works Programme (EPWP)

The work opportunities created are reported in the EPWP reporting system, and incentive grants which are equivalent to the base line targets, are allocated to the reporting bodies. These funds (incentive grants) are also used to create more work opportunities and to increase sustainability of existing projects. This is in response to the call to empower, educate and create jobs for youth through job placement and internship schemes. In response, 60 per cent of employment in infrastructure to be allocated to youth employment and training incentive schemes.

The target for the 2018/19 financial year was 29 315-work opportunities to be created by 41 Public Bodies in the Northern Cape Province. End of third quarter, the Public Bodies in the Northern Cape Province achieved 16 275-work opportunities that is 55 per cent of this year's target.

The increased work opportunities' target for public bodies requires the department to increase its capacity to provide support to these public bodies. Technical support service providers have since been sourced to increase capacity to provide this support in order to achieve targets.

The Department of Roads and Public Works is expected to create 9600 work opportunities for the 2018/19 financial year.

End of third quarter, the department has achieved 7 400 work opportunities that is 77 per cent of this year's target.

Under the Phakamile Mabija Apprenticeship Program a fourth intake commenced in January 2018 with a total of 25 young female for Women Empowerment over a period of 36 months. The learners to date have completed 99 per cent of their Theoretical and Institutional Training at De Beers Technical Training Campus. Various partnerships formed with Blackrock Mine, Afrisam, De Beers Sight holders South Africa and Kimberley Ekapa Mining assisting with workplace training over a period of 12 months. The trades that the ladies are specialised in are: Electrician, Fitter & Turner, Diesel Mechanic, Boilermaker and Millwright. Upon completion of the program in the financial year 2020/2021 they will obtain a red seal qualification that is recognized National and International.

Other successful interventions include:

- *Artisan Construction (Frances Baard)*: A total of 43 youth commenced in April 2018 with Theoretical Training in partnership with Northern Cape Urban TVET College and funded by the National Skills Fund. The trades that they are specialized in are Carpenters, Plumbers and Bricklayers. The Department has formed partnership with South Africa & Swedish International Housing Company assisting with workplace training for a period of 12 months.
- *Artisan Construction (Namakwa District)*: A total of 22 youth commenced in January 2018 with their Theoretical Training in partnership with Northern Cape Rural TVET College in Okiep as the training provider and funded by Construction Education and Training Authority. The trades that they are specialized in are Electricians and Plumbers. The Department has formed partnership with the Namakwa District Municipality and various Contractors assisting with workplace training.
- *Learnership: FETC: Computer Aided Drawing Office Practice (Frances Baard)*: A total of 20 youth commenced in May 2018 with their theoretical training in partnership with Northern Cape Community Education and Training College and funded by Construction Education and Training Authority. A Joint Project Management Team appointed by the Office of the Premier consists of Social Development, Department of Roads and Public Works and Construction CETA. The Department has formed partnership with South Africa & Swedish International Housing Company assisting with workplace training for a period of 4 months. The learners will be completing the programme in May 2019 of which they will obtain a National Certificate NQF level 4.
- *Learnership: Building and Civil Construction (Prieska)*: Partnership formed the Northern Cape Rural TVET as the training provider and Services Seta funded to the value of R0.656 million. In May 2017, a total of 41 learners commenced with training at Tswelelopele Training Centre in Prieska. To date a total of 30 learners successfully completed the programme. The Launch of Morewag Hostel and Graduation Ceremony took place on the 13th September 2018. Learners obtained a NQF Level 3 certificate. Exiting into an Artisan Construction Apprenticeship.
- *Learnership: FETC: Construction Painting and Decorating (Groblershoop)*: Partnership formed with !Kheis Local Municipality and funded by Construction Education and Training Authority. A total of 28 youth commenced with their theoretical training in November 2018. A Joint Project Management Team appointed by the Office of the Premier consists of Social Development, Department of Roads and Public Works and Construction CETA.
- *Short Skills Transfer: Electrical Engineering: Renewable Energy NQF Level 3 (6 months training)*: Partnership formed with UV Power Training as the training provider and EWSETA funding the training. The training commenced in May 2018 for the following areas: Frances Baard = 100 EPWP participants, Calvinia = 40 EPWP participants and Kuruman = 150 EPWP participants. Upon completion of the short skills training the EPWP participants obtained 60 credits for Electrical Engineering in Renewable Energy.

- *Short Skills Transfer: Civil and Building Construction (6 months training) – Namakwa District:* Partnership formed with Northern Cape Rural TVET College and Namakwa District Municipality. A total of 12 youth commenced in January 2018 with their Institutional and Theoretical Training at Okiep Rural TVET. After completion of the short skills programme they will be exiting into a Civil and Building Construction Learnership.
- Under the *Shamba Sonke Contractor Development Program*, Partnership formed with Central University of Technology as the Training Provider and programme funded by Roads Grant. A total of 36 Contractors from Grade 2 CE to 4CE contractors completed the 1st block of training. 16 Projects were awarded to contractors under the program to the value of R24,737 million. Other projects are at various stages in the approval process ranging from evaluation to adjudication. Woman owned = 8, Youth owned = 15 and other = 13
- Under the *De Aar Rapid Construction Incubator* Partnership formed with NCRTVET College in De Aar as the Training provider and Small Enterprise Development (SEDA) funding the programme to the value of R3.900 million. A total of 22, Grade 1 contractors have completed their theoretical training and successfully build a lecture room as part of their practical experience of which the department contributed R1 million.

3. Outlook for the coming financial year 2019/20

Roads projects

In the 2019/20 financial year, the department will continue to create and foster joint ventures with the mines and other stakeholders for roads construction and maintenance, especially in the John Taolo Gaetsewe District (JTG), where an increase of mining activities are taking place. At the moment the challenge is funding whereby all these mining activities are deteriorating our provincial roads and the funding through the conditional grants is not sufficient to attend to all the demands of damaged roads. Historical backlog, especially in the former rural areas like in JTG, which initially did not have the surfaced roads are funded by the provincial equitable share which is not sufficient to address the backlogs.

The following projects are planned for the 2019 financial year

- The upgrade of JTG Roads, MR947 & MR950
- The rehabilitation of a section of MR938 between Kathu and Hotazel.
- Safety Projects that will address Road signs, Guardrails, work to the Winsorton Bridge and R31 widening NATMAP)
- Bridge maintenance projects
- Reseal projects
- Contractor development programme, linked to Routine road Maintenance
- And Road Safety audits

Public Works

The Infrastructure budget of the department will broadly be spent on the following key programmes:

- Greening provincial buildings (Retrofitting Program): The Province already participating in the Shared Water Efficiency Program set up by National Public Works and 30 properties have already been identified for this project. New projects already have a number of green initiatives incorporated in their designs (Geo-thermal Heating and Cooling Technologies at the New De Aar Hospital, Solar water heaters and water chillers with heat exchangers at the Dr Harry Surtie Hospital in Upington, etc.).
- Improving facilities for people with disability in public buildings.
- Providing additional office accommodation to accommodate new departmental staff and to do away with leased accommodation.

- Payments of rates and taxes on provincial immovable assets portfolio.
- Payment of lease contracts for own leased accommodation.
- Completion of surveying all unregistered provincial land parcels (including Subdivisions and Consolidations).
- Valuation and zoning of all provincial immovable asset portfolio.

The department is responsible for the implementation of the Government Immovable Asset Management Act (GIAMA) as a custodian of all immovable assets in the province. This empowers the department to take leadership in the provision of office accommodation solutions, and to act as an implementing agent for construction, refurbishment, maintenance on behalf of user departments.

The following projects have been identified for implementation in the 2019/2020 Financial Year:

Department of Health

- Kimberley Hospital: Refurbishment of Ward S1.
- Various Hospitals: Refurbishment of 7 District Hospitals to establish 72 hour Mental Health Observation.
- Various: Upgrading of Staff Accommodation.
- Kimberley Hospital: Structural defects assessment and repairs.
- West End Hospital: Renovations Block 3.
- Tshwaragano Hospital: Nurses College: Refurbishment.
- Maintenance of New Mental Hospital.

Department of Education

- Ablution blocks x 7
- Administration block x 1
- Classroom block x 1
- ECD Classrooms x 2
- Cluster 1: Kalahari H/S: 10 Classrooms, Large Ablution block
- Cluster 2: Wrenchville H/S: 10 Classrooms, School Hall, Large Ablution, High Security Fence, Multi-purpose court
- Cluster 3: Brandvlei P/S: 2 Classrooms, Large Admin Block, Large Ablution & convert old toilets to media centre
- Cluster 4: Lareng P/S: 10 Classrooms, Double ECD, Medium Admin and R & R
- Cluster 5: Olihile Manchwe I/S: 5 Classrooms (replace burnt classrooms), Large Ablution and R & R
- Cluster 6: Sishen I/S: 5 Classrooms, Double ECD, Large Ablution and R & R.

Department of Sport

- Philipstown: Upgrading of existing building into a Library
- Colesburg: Construction of Modular Library
- Kimberley: Construction of Provincial Library Depot.

Expanded Public Works Programme Phase 3

Community Development

Rooting out the Dust and Poverty Relief projects will be implemented, with the aim of creating 1, 600 work opportunities for the financial year 2019/2020. The department's intervention program initiated by the MEC, aims to create jobs through labour intensive methods. The projects ranged from paving of access roads, installation of storm water channels and refurbishment of provincial buildings.

Innovation and Empowerment

The Sub-Directorate will concentrate on their existing programs for the 2019/20 financial year. This include the following existing programs

- Shambe Sonke Contractor Development Program
- Phakamile Mabija Apprenticeship – Woman Empowerment
- Artisan Construction (Frances Baard)
- Artisan Construction (Namakwa District).

New interventions at planning stage:

- Namaqualand CFE Incubator Program
- Groblershoop CFE Incubator Program
- Learnership: Construction Road Works (Prieska)
- Learnership: Civil and Building Construction NQF Level 3 (Pampierstad)
- Woman Rapid CFE Incubator Program (Frances Baard)
- Artisan Construction: Electrician (De Aar)
- Artisan Program: (Centre of Specialization: Carpentry) – Frances Baard
- Artisan Program: Electricians and Plumbers – JTG District
- Various Short Skills interventions.

4. Reprioritisation

The department undertook minor reprioritising, as well as shifts of funds from both programme and economic classification levels, as follows:

5. Procurement

The only major procurement to be undertaken in the 2019 MTEF relates to the completion of all maintenance work and construction projects.

6. Receipts and financing

6.1 Summary of receipts

Table 2.1 provides a summary of total receipts

Table 2.1 : Summary of receipts

The budget allocation for the 2019/20 financial year amounts to R1.839 billion; this includes Expanded Public Works Incentive Grant to Provinces of R4.439 million and Provincial Roads Maintenance Grant amounting to R1.146 billion. The department further received an additional earmarked funding amounting to R40 million for the payments of the Municipal Rates and Taxes.

The total equitable share shows an average growth of 5.8 per cent year on year growth over the 2019 MTEF. The Provincial Roads Maintenance Grant grows with 3.1 per cent to R1.146 billion in 2019/20 from R1.112 billion in 2018/19 but then decrease with 0.4 per cent for 2020/21 and then grows again with 7.7 per cent in the outer year of the 201/22.

The departments primary source of revenue is mainly derived from rental dwellings and PERSAL related transactions such as commission on insurance.

The following assumptions were used to budget for own revenue:

- As instructed by Treasury, tender documents are no longer sold to the public.
- Excluded rental revenue projections for tenants employed at other departments (Education and Health) as these departments pay the revenue directly to Provincial Treasury and
- The projections are calculated at 5.5 per cent annual escalation for all tenants.

The department is projecting to collect R2.563 million in the 2019/20 financial year, which is an increase of 5.1 per cent as when compared to the R2.430 million 2018/19 revised estimate. For the remainder of the 2019 MTEF, revenue estimates to grow by an average of 5.5 per cent, which is linked to inflation.

6.3 Donor Funding

The department does not receive any foreign aid assistance

7. Payment Summary

7.1 Key assumptions

- Provision was made for personnel related costs associated with the Public Service Coordinating and Bargaining Council (PSCBC) resolutions.
- Provision for salary increases of 6.4, 6.6 and 6.4 per cent respectively has been made.
- Provision was made for an increase to medical contributions equivalent to CPI plus 3 per cent in each year of the 2019 MTEF period.
- Provision was made for housing allowance equal to CPI from the 2018/19 financial year.
- CPI projections of 5.4 per cent in 2019/20, 5.6 per cent for 2020/21 and 5.4 per cent for 2021/22 financial year were considered when inflation related items were calculated.

7.2 Programme summary

Table 2.3 provides a summary of payments and estimates by programme.

The table above reflects the rate at which the department's expenditure grew during the past seven years as well as budget growth over the MTEF. The expenditure has increased from R1.462 billion to R1.839 billion in the 2019/20 financial year. The department has grown by 2.77 per cent from the revised estimates of R1.788 billion in 2018/19 to R1.839 billion in the 2019/20 financial year.

The minimal growth is mainly attributed to the low growth of 3.1 per cent of the Roads Maintenance Grant, the reduction of the equitable share baseline allocation due to impact of new data updates in the PES formula, the reduction of budgets implemented by Provincial Treasury and once off 2018/19 adjustment allocations, towards the Sol Plaatje cleaning project and consolidation and surveying of immovable assets with no carry through effect to the 2019/20 financial year.

Furthermore, an additional amount of R40 million has been allocated in the 2019/20 financial year in order to address the historical debt on the Municipal Rates and Taxes.

7.3 Summary of economic classification

Table 2.4 provides a summary of provincial payments and estimates by economic classification.

The budget of compensation of employees shows a minimal growth of 1.4 per cent which is below the projected inflation on personnel over the MTEF. This is mainly due to the reduction of the equitable share allocation for the 2019/20 financial year and the implementation of the budget cuts in all the departments in order to funds the debt of Municipal Rates and Taxes as well as the declared personnel savings in the 2018/19 adjustment budget.

The budget for goods and services declines by 2.4 per cent to R1.197 billion in the 2019/20 financial year when compared to R1.226 billion-revised estimate of 2018/19. The negative growth is mainly as a result of the small increasing in the allocation of the Provincial Roads Maintenance Grant, 2018/19 once off adjustment allocation of R20 million for the Sol Plaatje cleaning project with no carry through as well as reprioritising of projects between economic classification.

The budget growth on transfers and subsidies by 38 per cent from the revised estimate of R67.324 million in 2018/19 to R108.734 in 2019/20 is mainly attributed to an additional once off of R40 million allocated in the 2019/20 financial year in order to cater for the Municipal Rates and taxes debt with the Sol plaatje Municipality as a once off intervention.

The budget growth of 2019/20 on payments for capital assets by 10.5 per cent from the 2018/19 financial year to the 2019/20 financial year is mainly attributed to the reprioritising of Roads Maintenance Grant projects. It then decreases with 22 per cent in 2020/21, which can be attributed to projects that will be completed during this year.

7.4 Infrastructure Payments

7.4.1 Departmental infrastructure payments

Table 2.4.1 below provides a summary of provincial infrastructure payments and estimates by category.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

The spending on infrastructure declines from a revised budget of R1.302 billion in 2018/19 to R1.289 billion in 2019/20, as a results of the minimal growth of the conditional grants and will grow to R1.347 billion in the last year of the 2019 MTEF.

Most of the projects in the 2019/20 financial year will be maintenance and repairs as the focus has shifted away from construction.

7.5 Departmental Public – Private Partnership (PPP) projects

The department does not have any implemented or proposed PPP projects.

7.6 Transfers

7.6.1 Transfers to public entities

The department does not have any transfers to public entities.

7.6.2 Transfers to other entities

The department does not have any transfers to other entities.

7.6.3 Transfers to local government

Table 2.8 provides a summary of departmental transfers to local government by category.

The Department of Roads and Public Works as the custodian of provincial immovable assets is responsible for the payment of municipal rates and taxes on these assets. The budget for the rates and taxes payments is budgeted under transfers to category B municipalities. The allocation for rates and taxes in the 2019/20 financial year grows by 71.9 per cent. This is mainly attributed to an additional once off amount of R40 million allocated in the 2019/20 financial year in order to address the debt of Municipal Rates and Taxes.

8. Receipts and retentions

Not applicable to the department.

9. Programme description

Programme 1: Administration

9.1 Description and objectives

This programme's core function is to provide support services and management of the department through giving managerial and administrative leadership. The corporate services provides various support services to ensure the smooth running of the department to create a productive, efficient and creative working environment to enable the department to achieve its overall strategic objectives.

Sub-programme objectives

Office of the MEC

Render advisory, parliamentary, secretarial, and administrative and office support services.

Management of the Department

To render overall management and support of the department.

Corporate Support

To manage personnel, procurement, finance, administration and related support services.

Departmental Strategy

To provide operational support in terms of strategic management, strategic planning, monitoring and evaluation, integrated planning and coordination across all spheres of government, departments and the private sector organisations including policy development and coordination.

9.2 Programme expenditure analysis

Table 2.10.1 provides a summary of payment by sub-programme.

The budget of Administration show a growth of R14.229 million or 8.4 per cent from the 2018/19 adjusted budget to the 2019/20 main appropriation. This increase makes provision for communication expenses that will mainly be allocated to this programme, increasing of the security services as well as high finance leases for the white fleet. On average the programme grows by 6.6 per cent over the MTEF.

Table 2.12.1 provides a summary of payments and estimates by economic classification.

Compensation of employee's shows growth of 11 per cent from the 2018/19 revised budget to the 2019/20 main appropriation, which is due to the once off-declared savings of the unspent budget in the 2018/19. The budget will however, continue to increase with an average of 6.7 per cent over the 2019 MTEF period and this is mainly due to provision for improvement of conditions of service and other personnel related benefits.

Goods and services grows by 11.4 per cent to R53.773 million in 2019/20 financial year. This relates to the communication expenses of the department that will now be allocated to this programme and the high increasing of security services.

Transfers and subsidies declines with 3 per cent from the 2018/19 revised estimates to the 2019/20 main appropriation, mainly attributable to the decrease of the SETA allocation, which decreases as a result of the decrease of the compensation of employees (CoE) budget.

Payments for capital assets shows growth of 7.9 per cent from 2018/19 revised estimates to the 2019/20 main appropriation. This increase mainly relates to the high finance leases of white fleet.

Programme 2: Public Works Infrastructure

Description and objectives

To meet the accommodation and other specific needs of provincial departments by initiating and overseeing construction, upgrading, rehabilitation and scheduled maintenance of all infrastructure projects. It also includes the rendering of professional services such as architectural, quantity surveying, engineering, project management, horticultural, telecommunication and cleaning services.

Sub-programme objectives

Programme Support

The overall management and support of the programme, strategic and administrative support services to the professional services components with regard to provincial government building, infrastructure and property management, its management administration, financial matters and supply chain management.

Planning and Design

Management of the demand for infrastructure. Development, monitoring and enforcement of built sector and property management norms and standards. Assist in the development of user asset management plans. Development of custodian assets management plan. Development of infrastructure implementation plans. Design of new and upgrading provincial building infrastructure.

Construction

New construction, upgrading and refurbishment of provincial building infrastructure.

Maintenance

Management of routine maintenance, schedule maintenance, conditions assessment of all provincial buildings and alterations which refers to changes that are required for reasons other than maintaining the asset.

Immovable Asset Management

Management of provincial immovable asset portfolio; to establish and manage the provincial strategic and infrastructure plan (Custodian Asset Management Plan – C-AMP); to provide accommodation for all provincial departments and other institutions; to acquire and dispose of immovable assets in terms of the Land Administration Act 6 of 2002 which entails NC and GIAMA.

Facility Operations

Management of cleaning, greening, beautification, interior decoration.

The programme shows an increase of R23.957 million or 12.8 per cent from the 2018/19 adjusted budget to R186.592 million in the 2019/20 financial year. The increase is ascribed to the once off municipal rates and taxes allocation in the 2019/20 financial year. The programme's budget declines with 11.5 per cent in the 2020/21 and grows with 5.7 per cent in the outer year of the MTEF.

Compared to the original budget for compensation of employees in 2018/19 it declines with 10.5 per cent in 2019/20 but if it is compared with the adjustment budget of R45.124 million in 2018/19 it grows by 4.3 per cent to R47.069 million in 2019/20 financial year. The small growth can be ascribed to the budget cut due to the impact of new data updates in the PES formula as well as the reduction of the equitable share allocation instated by Provincial Treasury in order to cater for the Municipal Rates and Taxes Debt.

Goods and services budget in 2019/20 declines with 51 per cent when compared to the revised estimates of R53.977 million to R35.650 million in 2019/20. The decline is mainly as results of once off R20 million allocation provided in the 2018/19 financial year as well as the reprioritisations that were done to accommodate high security services in programme 1.

Transfers and subsidies grows with R43.377 million or 41.82 per cent from 2018/19 revised estimates to R103.729 million in the 2019/20 financial year. This growth mainly relates to the R40 million once off allocation of Municipal Rates and Taxes allocation in 2019/20. This line item decreases with 35.2 per cent during 2020/21 and grows with 5.4 per cent in the outer year of the MTEF.

Compared with the original budget payments for capital assets grow with 4.3 per cent in 2019/20 financial year to R0.144 million. The increase in this budget relates mainly to finance leases.

Programme 3: Transport Infrastructure

Description and objectives

The objective of the programme is to promote a balanced, equitable provincial road network. The main functions include the planning, design, construction and upgrading of Provincial road infrastructure, as well as routine preventative and periodic maintenance and rehabilitation of roads. This includes bridges, paved and unpaved roads.

Sub-programme objectives

Programme Support Infrastructure

The overall management and support of the programme managing activities of the professional components strategically, rendering administrative support services to the professional components with regard to road proclamations, way leaves and financial matters.

Infrastructure Planning

Provide for the planning and co-ordination towards the formulation of provincial transport policies and statutory plans, to facilitate the provision of road safety audits on all roads and transport infrastructure to ensure safe traffic and people movement.

Infrastructure Design

To provide design of roads and transport infrastructure including all necessary support functions such as environmental impact assessment, traffic impact assessment, survey, expropriation, material investigations and testing.

Construction

To develop new, re-construct, upgrade and rehabilitate road infrastructure and to construct and rehabilitate provincial proclaimed roads through contracts and Public Private Partnerships (PPP's); to render transfer payments to local authorities for road projects that qualify for subsidy.

Maintenance

To effectively maintain road infrastructure, provincial proclaimed roads; transfer payments to local authorities acting as agents for the province; augmentation of roads capital account (Ordinance 3 of 1962) to provide for additional capital; to render technical support including radio network services and training.

Transport Infrastructure programme shows an increase of R34.526 million or 2.5 per cent from the 2018/19 revised estimates to R1.391 billion in 2019/20 main appropriation. This minimal increase can be ascribed to the revision of the Roads Maintenance Grant allocation in the 2019/20 financial year.

Compensation of employees shows a growth of R154.810 million or 3.6 per cent from the 2018/19 revised estimates to the 2019/20 main appropriation. This minimal growth can be attributed to the adjustments of the equitable share allocation initiated by Provincial Treasury.

Goods and services increases with 0.8 per cent or R8.482 million from the 2018/19 revised estimates to the 2019/20 main appropriation. This minimal increase can be attributed to the small growth of 3.1 per cent in the Roads Maintenance Grant allocation as well as the reprioritisation of projects.

Transfers and subsidies declines with 26.25 per cent in the 2018/19 revised estimate to 2019/20 main appropriation. This decline is mainly as a results of the fact that it is not easy to budget accurately for household payments relating to post-retirement benefits.

Payments for capital assets shows a growth of 12.87 per cent or R1.227 million to R167.946 million in 2019/20 main appropriation, the high increase can be attributed to reprioritising of projects.

Programme 4: Community Based Programme

Description and objectives

To manage the implementation of programmes and strategies that lead to the development and empowerment of communities and contractors. This includes the provincial management and coordination of the Expanded Public Works Programme.

Sub-programme objectives

Programme Support Community Based

Overall management and support of the programme, includes the coordination, compliance monitoring and implementation of programs to create work opportunities to alleviate poverty and the implementation of interventions to support contractor and skills development.

Community Development

The development and empowerment of impoverished communities.

Innovation and Empowerment

Support to designated groups on contractor development, skills development and artisan development.

EPWP Co-ordination and Monitoring

To coordinate and support all public bodies to ensure compliance in the creation of work opportunities as per EPWP Phase targets.

Programme expenditure analysis

Community Based Programme shows a decline of 18.6 per cent or R21.269 million adjusted budget to R92.585 million in the 2019/20 main appropriation. The negative growth can be attributed to the once off allocation of R20 million towards the Sol Plaatje cleaning project allocated during the 2018/19 adjustment budget as well as the reduction of the equitable share allocation for 2019/20 that was instated by Provincial Treasury. The programme continues to grows on average by 5.9 per cent over the 2019 MTEF.

Compensation of employee's budget shows a growth of 8 per cent or R1.209 million from the 2018/19 adjusted budget to R15.069 million in 2019/20 main appropriation in order to making provision for filling of critical posts and improvement of conditions of service.

Goods and service declines by R21.585 million or 33.61 per cent in the 2019/20 financial year. The negative growth can be ascribed to the once off allocation of R20 million towards the Sol Plaatje cleaning project allocated during the adjustment of 2018/19 as well as the reduction of the equitable share allocation.

No provision is made for transfers and subsidies as the expenditure that was originally allocated under transfers and subsidies in 2018/19 is re classified as goods and service.

Payments for capital assets shows a decline of 0.2 per cent from the 2018/19 adjustment budget to the 2019/20 main appropriation. This can be attributed to the provincial budget cut implementation on the equitable share allocation of 2019/20 financial year.

1. Overview

Core functions and responsibilities of the department

The department's core functions are summarised as follows:

- To provide leadership, strategic management in accordance with government legislation, regulations and policies.
- To ensure an effective and compliant department that will provide technical support and economic policy advice to the Northern Cape Province.
- To promote, support and facilitate integrated economic development through shared partnerships in the province.
- To accelerate economic growth by facilitating export from and investment into the province while simultaneously promoting economic diversification and industrial expansion.
- To stimulate economic development through industry development and trade and investment promotion.
- To regulate business practices and ensure compliance with relevant legislation whilst optimizing revenue collection and monitoring departmental agencies.
- To support the development of measurable economic policies, strategies and plans informed by relative economic research so that they are in alignment with the NSDP and IDP's with the aim of halving unemployment and achieving an average annual economic growth of 4-6 per cent.
- To ensure an equitable, socially responsible business environment that allows for predictability.
- To manage the development and promotion of the Northern Cape as a competitive tourist destination.

Vision

A radically transformed economy in the Northern Cape.

Mission

Accelerating the economic growth and development of the Northern Cape Province through diversification, empowerment, employment, business creation and sustainable development.

1.1. Aligning departmental budget to achieve government's prescribed outcomes

Economic Development and Tourism is the lead department for the implementation of Outcome 4 and 6 and supports the implementation of Outcome 5, 7 and 10. The implementation of the aforementioned outcomes will contribute towards the achievement of the National Development Plan.

In order to make sure that the department intervenes with targeted measures in the provincial economy while unblocking any obstacles that may deter investment, nine-point plan has been provincialized and has been complemented by the National Infrastructure Plan (NIP) in the form of strategic integrated projects (SIPs).

The department is also directly responsible for the implementation of chapter 3 of the National Development Plan, which focuses on creating an environment for sustainable employment and economic growth, strengthening the capacity of government to implement its economic policies, promoting employment in labour absorbing industries, promoting exports and competitiveness and diversify the economy.

2. Review of the current financial year (2018/2019)

This section outlines the main achievements and progress made by the department during the financial year.

The memorandum of understanding between the department and Companies Intellectual Property Commission (CIPC) regarding access to a self-service terminal for CIPC has enabled to assist eighteen (18) clients; relating to fourteen (14) new registrations, three (3) director amendments and one (1) requiring assistance to submit annual returns. In Q3 an additional 23 enterprises were assisted with regards to CIS and CIPC.

Three incubator business plans were submitted, one to the John Taolo Gaetsewe District Municipality for support at the mining incubator and the second business plan was submitted for Renewable Energy business plan. The latter business plan was also submitted to the SEZ for location.

In terms of LED all thirty-one (31) municipalities were assessed in terms of their LED maturity, a detailed Section 47 Report was completed, and support was provided to six (6) municipalities in terms of their LED portfolio. During this process four (4) projects, were also identified that can serve as a catalyst project to empower the specific local economies and these will be supported in the next financial year.

The department, together with the Department of Trade and Industry met with four key smelters in the province with the aim of addressing the challenges. Through LED planning support was extended to include Pixley Ka Seme, Kgatelopele and Dawid Kruper municipalities and four projects were identified i.e. the proposed Vedanta SEZ, the smelter proposal in the Gamagara municipality, the Sol Plaatje Municipality and University construction incubator, the silicon facility in the Gamagara municipality.

The department has already reported 296 Work Opportunities (EPWP) on the system.

A number of target group specific interventions were implemented in various areas across the province, particularly for the youth and people living with disabilities. Additional opportunities were identified in agro-processing, agriculture and training in project management. The department also facilitated the Tourism Transformation Strategy Workshop.

During the year, the department exposed twenty-one (21) Northern Cape companies to export markets. Through a successful Trade and Investment Outbound Mission to the UAE to attend the AIM in Dubai and to China, potential collaborations were established in the UAE. This include investment opportunities in the Upington SEZ, De Aar Logistics Hub and Boegoebaai Port and Rail development, exportation of agricultural products such as rooibos tea, pecan nuts, dates, olives and olive oil and raisins.

The outbound mission to China achieved the signing of MOU between Hebei Geo University, Sol Plaatje University and KIDJA for collaborations centering on diamond industries, including the first bachelor's degree in the world on diamond and jewellery development.

The strategic partnership agreement between SA Honglin Investment (Pty) Ltd and NCEDA on the Northern Cape Development Corridor and Harbour Project was signed. This cooperation will be around the development and building of a deep-water port and related infrastructure on the Namaqualand coast, Boegoebaai, with the potential Investment of R224 billion.

During the year, signing of the memorandum of understanding was accomplished between JC Group and Kimberley Diamond Jewellery Incubation for future collaboration on SMME development and market access and expansion in China, as well as for KDJI to facilitate the alluvial prospecting project in South Africa.

The province also undertook a Trade and Investment Mission to Hunan Province in China. The objective of the mission was to sign a Memorandum of Understanding with Central South University of Forestry and Technology for a Scholarship Programme for undergraduate students to study in Changsha and to participate in the African Cultural Week and Festivities at this University.

The department also hosted the Global Exporter passport programme (GEPP) in collaboration with the Department of Trade and Industry. The programme covered the introduction to exporting, planning for exports, market entry and global exporting.

The department conducted a feasibility study towards the establishment of a Logistics Hub and the Metals Industrial Cluster in Kuruman.

KIDJA had a new intake of eight (8) students who commenced a three-month rough diamond evaluation course. There was an intake of 20 students with a fully funded bursary who commenced their six-month diamond processing training at KIDJA. This training is an accredited Mining Qualifications Authority (MQA) level 3 programme.

An additional intake of four MQA learnership students who commenced with their six-month level 4 cross-working course was registered. KDJI established six (6) SMME's, created eight (8) permanent jobs and has supported twenty-five (25) clients in assisting them to exhibit at the South African Business Incubation Conference.

Through its engagements with mining sector i.e. De Beers, Anglo-Kolomela and Anglo Zimele, the department managed to identify opportunities in the mining sector for SMMEs. This entail supplying of goods and services in the arears of cleaning services, building maintenance etc. Furthermore, the following procurement opportunities posted by the mines on the Provincial Mining Portal were access by local SMMEs: The collection, Transportation and disposal of hazardous waste for ASSMANG (PTY) LTD BLACK ROCK MINE OPERATIONS and Renovation of mining planning office - ASSMANG (PTY) LTD BLACK ROCK MINE OPERATIONS.

In order to strengthen its oversight on public entities, governance unit has been given a task to oversee all public entities under the auspice of the department.

In order to operate in a cost-effective manner, the Northern Cape Protection Authority has decided to use the Education and Awareness Campaigns as a platform to conduct unplanned compliance inspections. Through this intervention, consumers have managed to realize savings to the tune of R513 326.47.

The department managed to host an Economic Colloquium in Frances Baard and Economic Symposium in Pixley Ka Seme District.

Broadband implementation is underway in Pixley Ka Seme District Municipality; thirty three (33) sites were targeted for the current financial year. The impending launch of the 64 dish MeerKat array, saw a slowdown in SKA procurement, with slow expenditure towards the completion of SKA roads work. The Department of Telecommunications and Postal Services having delayed National Broadband Phase 1 implementation by three (3) years managed to secure a roll-over of R110 million, for implementation to be expedited. Six (6) sites have gone live in the Pixley Ka Seme District Municipality.

The campaign through the media against illegal tourist guiding practices was successfully conducted in various parts of the province. The event also included creating awareness on the prescripts of the Tourism Act that regulates tourist guiding activity and inspections to root out illegal tourist guiding. The Regional Tourism Road Signage Committee in the JTG arear was established.

A tourism business skills development workshop to improve quality assurance in the hospitality industry in Victoria West was conducted. The department trained representatives from 12 guesthouses and 12 youth in how to improve quality assurance in the hospitality industry. Three Tourism enterprises received financial support with one of them being youth owned. In addition to this five tourism experiences were supported financially.

3. Outlook for the coming financial year 2019/20

The Annual Performance Plan marks the last year of the 2015-2020 Strategic Plan that is designed to place the province on a viable economic trajectory that requires the participation and buy-in of the private sector, in order to arrest the triple threat while simultaneously pushing back the province from a fiscal precipice.

The department will continue to strive to unlock and take advantage of economic opportunities that result in sustainable and decent job creation, the expansion of manufacturing, the uptake of localisation and increased rural economic development. Specific areas of focus include exploiting the value chain in Renewable Energy, crowding in trade and investment, developing SMMEs and co-operatives, mineral beneficiation and the expansion of transformation of tourism in the province.

Financial support will continue to be provided through Economic Growth and Development Fund in order to support sustainable growth by financing private sector projects that drive economic success, stimulate job creation, promote broad based black economic empowerment (BBBEE) and close the inequality gap.

Non-financial support will be rendered via direct assistance or via the enterprise support network that exists in the province. This support includes business planning, marketing, the exploration of new markets, and access to funding, finance and incentives, information and capacity building.

Measures will be implemented to enhance access to services, information and support for entrepreneurs throughout the province. Several virtual, and virtual combined with on-site support initiatives are being explored. These include the USSD programme, the library enterprise virtual advice desk, the renewable energy virtual incubator, enterprise incubators and shared infrastructure facilities. Furthermore, enterprises and industry will be informed and supported to access funding and incentives combined with programmes like the Black Industrialist Programme, Township Development, incubators and the informal sector strategy.

A memorandum of understanding between the department and Productivity South Africa will also be pursued to avail services directed at increasing access to training relating to improving the productivity of businesses to enable an improved service offering for them to compete better in the industries they operate.

As in 2018/2019 central to the achievement of the objectives of the department, it is imperative that production relations (within the department) are improved in constant pursuit to eradicate duplication of functions and the review of the organogram.

The process to rationalise the Liquor Board and the Gambling Board into a single entity will still be pursued. This is vital in order to strengthen the economic capacity of the department in order to implement the mandates as outlined in Outcome 4 and Outcome 6.

In terms of the EPWP, the department renders project support and the reporting of work opportunities created. To realise these the following measures will be utilised i.e. business plans, funding applications by municipalities, project implementation support and system reporting.

The department intends to continue to implement elements of the Youth Accord. The broad elements extracted from the Youth Accord include youth entrepreneurship, increase in access by youth to markets, funding and economic opportunities. Other targets include increase in youth owned businesses, ensuring that 30 percent of all services and jobs within the department benefit the youth.

The department will continue to pursue initiatives to attract Foreign-Direct Investment (FDI) with a strategic focus on those initiatives that impact economic growth and job creation. Since 2015, the province has seen foreign investment grow beyond R1 billion.

As part of the 2015 -2020 strategic impetus, the Metals Industrial Cluster, Clothing Manufacturing Cluster and the Agro-processing potential will be exploited. The value-chain on precious and semi-precious minerals will be exploited to benefit the citizens of the province. This includes skills development through KIDJA.

The Kimberley Diamond and Jewellery Incubation Centre (KIDJI) will continue to provide support services to established and emerging SMME's in diamond cutting and jewellery manufacturing. The department will play a greater role in helping these institutions i.e. KIDJA and KIDJI to develop Strategic and Annual Performance plans in line with the developmental objectives as set out in the NDP.

In order to drive the implementation of the Nine Point Plan, development of the Provincial Economic Blue Print and to further strengthen the relationships with the municipality and various stakeholders, the department will conduct engagements across all the 5 district municipalities.

The department will continue to expand the Information Society to assist the shift towards enabling SMME's and Co-operatives to exploit the economic potential in the Knowledge Economy. This will include the expansion of the applications development laboratory (m-Lab).

The department will also continue to foster public-private-partnerships (PPP) in an effort to revitalise municipal resorts in partnership with municipalities. Partnerships and collaborations with internal and external stakeholders will be enhanced to leverage the drive towards digital transformation.

The Coastal and Marine Tourism Strategy will be rolled out to augment policy interventions in terms of Operation Phakisa and the Ocean's Economy in order to diversify the economy on the West Coast. The impetus is to migrate the economy on the West Coast from mining to tourism. The department will continue its support of the Small Harbours and State-Owned Coastal Property Development initiatives in the Namakwa District. The cross-border tourism initiatives will also be exploited to benefit the province.

4. Reprioritisation

The department's budget has been reduced in the 2019/20 financial year because of the reduction in the provincial equitable share at a national level due to the impact of new data updates in the provincial equitable share formula. In response to this, the following re-prioritization within the departmental budget has been effected:

- Funds have been reprioritised from Trade and Sector Development programme within goods and services to Economic Planning programme and Integrated Economic Development Services programme to cover the shortfall on goods and services.
- The budget for Audit Fees has been centralized to Administration programme over the MTEF.
- An amount of R1.250 million has been allocated to Administration programme. These funds have been reprioritised from programmes 2, 3 and 6 for Special Projects in 2019/20 financial year.

5. Procurement

The department is currently processing its supply chain management transactions on LOGIS and it is striving to improve on procurement process to procure only through LOGIS.

6. Receipts and financing

6.1 Summary of receipts

Table 2.1 shows the sources of funding of the department over the seven-year period from 2015/16 to 2021/22.

Table 2.1: Summary of Receipts

R thousand	Outcome			Main appropriation	Adjusted appropriation 2018/19	Revised estimate	Medium-term estimates

The department receives a provincial allocation in the form of an equitable share and a national conditional grant allocation in respect of the EPWP Integrated Grant. The department is allocated R2.089 million in 2019/20 in respect of the grant and no allocation for the 2 outer years of the MTEF. Despite a fluctuating trend, the department's baseline has increased from R281.671 million to R370.590 million over the seven-year period.

6.2 Departmental receipts collection

Table 2.2 below gives a summary of departmental receipts collected by the department.

Table 2.2 : Summary of departmental receipts collection

R thousand	Outcome			Main appropriation	Adjusted appropriation 2018/19	Revised estimate	Medium-term estimates		
	2015/16	2016/17	2017/18				2019/20	2020/21	2021/22

The overall departmental receipts are expected to increase from revised estimate of R32.075 million in 2018/19 to R38.793 million in the 2021/22 financial year. The increase in collection over the MTEF is based on revised costing assumptions of the Consumer Price Index.

Casino licenses are the major revenue sources for the department of which Northern Cape Gambling Board oversee gambling activities in the province thereby ensuring that rules of licenses are adhered to. The high collection over the MTEF is due to the projected increase in the number of Limited Payout Machines (LPM) operators to be rolled out started in 2017/18 financial year. Horse racing taxes show an increase over the MTEF based on revised costing assumptions of the Consumer Price Index.

Liquor licenses shows an increase over the MTEF. The estimated average growth of 5.5 per cent throughout 2020/21 and 2021/22 financial years, which is linked to inflation. The projections for liquor licenses are based on the actual number of licenses issued per type of license multiplied with fee per license type.

Revenue from sale of goods and services other than capital assets relates to state property rentals, parking fees and commission on payroll deductions.

Fines, penalties and forfeits are attributed to the once off payment of fines on late renewals of liquor licenses by companies or individuals. This category is uncertain in nature and therefore it is difficult to project revenue collections; hence, the department is very conservative in terms of budgeting for this category over the MTEF period.

Transactions in financial assets and liabilities relates to recoveries of expenditure from previous financial years, which are not of a recurring nature or cannot be ascertained if they will take place, hence the minimal budget for this item in the 2019 MTEF.

6.3 Donor Funding

The department does not receive any foreign aid assistance.

7. Payment summary

This section contains information by programme and economic classification. It represents payments and budgeted estimates in terms of programmes and economic classification for the vote.

7.1 Key assumptions

The department applied the following broad assumptions when compiling the budget:

- Provision for inflation related items is based on CPIX projections.
- The department provided for 6.4 per cent for the 2019/20 financial year salary adjustments.
- Continuation of the implementation of the Diamond Strategy of the Northern Cape Province for related items was taken into account.
- The regulating of the Gambling and Liquor Acts for related items was taken into account.
- The regulating of the Northern Cape Consumer Act for related items was taken into account.

7.2 Programme summary

Tables 2.3 provide a summary of payments and estimates by programme for the period 2015/16 to 2021/22.

Table 2.3 : Summary of payments and estimates by programme: Economic Development And Tourism

The table above reflects the rate at which the departments' expenditure grew during the past three years and the budget growth over the MTEF. The department's expenditure has increased from R279.671 million in 2015/16 to a revised estimate of R331.077 million in 2018/19 financial year.

The increase during this period is mainly due to provincial priorities such as Kimberley Diamond Cup sport event, Special Economic Zone, national priorities such as improvement on conditions of service additional allocations to stabilise the budget baselines of public entities and Expanded Public Works Programme Grant.

7.3 Summary of economic classification

Tables 2.4 provide a summary of payments and estimates by economic classification for the period 2015/16 to 2021/22.

The increase against compensation of employees' expenditure from 2015/16 to 2016/17 can be ascribed to the filling of posts and allocation of additional funds to cover shortfall on wage agreements. During the adjustment appropriation the compensation of employees' budget was reduced by Treasury and these funds were redirected to fund other provincial priorities, hence the decrease, this explains the decrease under the revised estimates. The increase over the MTEF emanates from the funded vacant posts that the department is anticipating to fill and the inflationary increases.

Goods and service indicate inconsistent expenditure trends between 2015/16 and 2017/18 because of declared savings emanating from municipality bills in respect of Mittah Seperepere Convention Center that could not be paid during the financial year. The decrease in 2018/19 relates to the revisions that were made on the earmarked funds in respect of the Kimberley Diamond Cup. The increase over the MTEF are informed by inflationary rate.

Transfers and Subsidies is the main cost driver of expenditure. The expenditure trends between 2016/17 to 2017/18 emanates from once off allocations to public entities for capital expenditure and transfers to households due to staff exit costs while that of transfers to provinces and municipalities relates to municipal services for skate plaza and Expanded Public Works Programme. The growth over the MTEF can be attributed to normal inflationary increases.

Machinery and equipment relates to the purchase of office equipment and furniture. The minimal increase over the MTEF relates to inflationary increases and planned procurement of office equipment.

7.4 Infrastructure payments

7.4.1 Departmental infrastructure payments

There are no infrastructure projects in this department.

7.5 Departmental Public-Private Partnership (PPP) projects

There are no Public-Private Partnership projects in this department.

7.6 Transfers

7.6.1 Transfers to public entities

Table 2.6 provides a summary of departmental transfers to the public entities that fall under the auspices of the department.

Table 2.6 : Summary of departmental transfers to public entities

R thousand	Outcome			Main appropriation	Adjusted appropriation 2018/19	Revised estimate	Medium-term estimates

Total departmental transfers to public entities indicate an increase from R45.066 million in 2015/16 to R67.309 million in 2018/19 while the increase during the adjustment appropriation relates to once off additional funds to address various budget pressures. Over the MTEF, transfers to entities show an increase in line with the inflationary increases.

Northern Cape Economic Development, Trade and Investment Promotion Agency

NCEDA is an agency whose mandate it is to ensure enterprise development that will significantly contribute to economic growth and development within the province. The transfer to NCEDA reflects inconsistent trends over the period. The increase in 2018 MTEF relates to additional funds that were allocated in respect of Special Economic Zone (SEZ) the entity will continue to implement SEZ project over the MTEF period.

Northern Cape Gambling Board

The entity is responsible for ensuring that gambling activities in the province are conducted with integrity and social responsibility and to maximize long-term economic benefits for the people of the Northern Cape. Departmental transfers to Northern Cape Gambling Board indicate an increasing trend from 2015/16 to 2017/18 due to additional funding in respect of the shortfall on salary increases and the rolling out of the Limited Pay-out Machines (LPM). Over the MTEF the entity will increase the rolling out of LPMs this explained the projected increase on casino taxes.

Northern Cape Liquor Board

The entity is responsible for issuing licenses and ensuring licensees comply with the Northern Cape Liquor Act, by regulating the retail sale and micro manufacture of liquor in the province. The increase in expenditure during the previous three years is in respect additional funds that were allocated to cover shortfall on goods and services baseline and a carry through funding in respect of shortfall on salaries. The increase over the MTEF caters for inflationary projections.

Northern Cape Tourism Authority (NCTA)

NCTA promotes the province as a highly desirable tourism destination, in a responsible and sustainable manner. Departmental transfers to Northern Cape Tourism Authority indicate an increasing expenditure trend from 2015/16, this relates to allocations in respect of salary adjustments during the period. The increase in 2017/18 relates to an allocation to cover the shortfall on salary increases; this allocation has a carry through impact hence the increase over the MTEF.

7.6.2. Transfers to other entities

This section is not applicable to the department.

7.6.2 Transfers to local government

Table 2.8 shows summary of departmental transfers to municipalities by category.

9. Programme description

The department has six (6) programmes through which services are rendered, these are categorized and explained below. The payments and budgeted estimates for each programme are summarized in terms of sub-programmes and economic classification, details of which are given in Annexure.

Programme 1: Administration

9.1. Description and objectives

To ensure an effective, compliant and competent department that will provide technical support and economic policy advice to the province.

Sub-programme objectives

Office of the MEC

Provide economic policy direction to the department.

Office of the HOD

Provide strategic direction and leadership in order to facilitate the sustained growth, transformation and diversification of the provincial economy.

Financial Management

Provide an efficient and economical Financial Management support service to the department.

Corporate Services

Provide sound corporate management.

9.2. Programme expenditure analysis

Tables 2.10.1 below illustrate the payments and estimates for Administration programme per sub-programme over the seven-year period 2015/16 to 2021/22.

Table 2.10.1 : Summary of payments and estimates by sub-programme: Programme 1: Administration

R thousand	Outcome			Main appropriation	Adjusted appropriation 2018/19	Revised estimate	Medium-term estimates		
	2015/16	2016/17	2017/18				2019/20	2020/21	2021/22
1. Office Of The Mec	1 358	950	1 830	1 170	1 370	1 631	1 236	1 306	1 377
2. Office Of The Hod	6 083	6 023	7 406	9 236	6 532	6 311	7 887	9 188	9 683
3. Corporate Services	18 110	23 088	26 049	25 210	25 973	25 973	28 141	28 078	29 593
4. Financial Management	28 051	23 627	25 696	29 957	27 363	27 323	32 789	34 573	36 438
Total payments and estimates	53 602	53 688	60 981	65 573	61 238	61 238	70 053	73 145	77 091

The sub-programme: Office of the HOD shows an erratic trends from 2015/16 to 2017/8, this is due to reprioritised savings realized and shifted to other sub-programmes during this period. Over the MTEF, the increase caters for inflationary and the position that has been shifted from Tourism programme to economic cluster unit.

The spending reflects a minimal increase against the sub-programme: Corporate Services from 2015/16 financial year due to internal shifts within the department. This resulted in all units that are providing support function to the department to be shifted to corporate services. The increase over the MTEF caters for inflationary and filling of posts.

Sub-programme: Financial Management shows a reduction in 2016/17 and 2017/18 due to vacant funded posts that were not filled during the year because of delays in the recruitment process and moratorium. The vacant posts are anticipated to be filled and Audit Fees that was centralized from the different programmes to Financial Management, hence the increase over the MTEF.

Compensation of employees shows an increasing trend between 2015/16 and 2017/18 due to additional allocations to cover shortfalls on salary adjustments and the filling of critical vacant positions. The increase over the MTEF caters for inflationary increases and the vacant funded posts that are anticipated to be filled.

Goods and services expenditure fluctuates over the period due to funds that were reprioritised within the department to offset spending pressures. The decrease in the 2016/17 relates to savings that were realized due to cost containment. The significant decrease in goods and services from 2017/18 to 2018/19 is due to earmarked funding for the development of an information society project that were shifted to Programme 5: Knowledge Management. The allocation over the MTEF grows at an inflationary rate.

Transfers and subsidies show an inconsistent expenditure trend between 2015/16 and 2017/18 due to transfers to households because of staff exit costs, which is difficult to predict. Decrease over the MTEF emanates from households and transfers to public corporations and public enterprises because of transfer payment for Griqualand West Cricket Union that was shifted to Programme 2: Integrated Economic Development Services over the MTEF.

Payments for capital assets show an increase over the MTEF due to departmental re-prioritization.

9.3. Service delivery measures

The programme does not have service delivery measures.

Programme 2: Integrated Economic Development Services

Description and objectives

To promote and support sustainable integrated economic development through the development of enterprises, local economics and the empowerment of historically disadvantaged individuals.

Sub-programme strategic objectives

Enterprise Development

To support and develop business enterprises through financial and non-financial assistance both directly and indirectly.

Regional and Local Economic Development

To provide strategic economic development support to municipalities in terms of planning, alignment and implementation in partnership with key stakeholders.

Economic Empowerment

To promote and support the participation of HDI's in the mainstream of the economy through business intelligence, skills development and enterprise development.

Programme expenditure analysis

Table 2.10.2 shows the summary of payments and estimates by sub-programme for Integrated Economic Development Services.

Sub-programme: Enterprise Development shows inconsistent trends during the first three years. This relates to funds that were reprioritised from compensation of employees to offset spending pressures in this category hence the decrease in 2016/17 financial year. In 2019/20 financial year, an amount of R0.250 million was re-prioritized to Programme 1 for Special Projects.

The 2017/18 expenditure includes Kimberley Diamond Cup related spending such as skateboarding sport event that is hosted by the department. Due to the impact the event has to the province that of positioning the province as the world class extreme sport destination and as the internationally preferred address for extreme sport and establish tourism as the major contributor to the provincial economy. The event will continue over the MTEF.

The trends against sub-programme: Regional and Local Economic Development relates to Expanded Public Works Programme grant. The slight expenditure increase in 2016/17 relates to funds that were reprioritised from the sub-programme: Enterprise Development to offset spending pressures. The reduction in the outer two years of the MTEF relates to the EPWP grant.

The sub-programme: Economic Empowerment shows an increasing trend from 2015/16 to 2018/19 financial year. This is related to additional allocations to cover shortfall on salary adjustments and the normal inflationary increases. The allocation over the MTEF grows due to funds re-prioritized from Strategic Initiatives to correct the baseline.

Sub-programme: Economic Growth and Development Fund is mainly made up of transfers and subsidies to support small businesses. The fund shows a decrease between 2015/16 and 2016/17 financial years due to budget cuts that were implemented by National Treasury because of the need to lower the expenditure ceiling across the country and to reprioritize to fund various national priorities.

In 2019/20 the decrease is due to the reduction in baseline that the department received as a result of the technical adjustment on the provincial equitable share. An amount of R0.168 million was re-prioritized to Programme 1 for Special Projects in 2019/20 financial year. The two outer years over the MTEF the fund is expected to increase in line with inflation

The sub-programme: Office of the Chief Director shows a significant increase in 2016/17 that emanates from funds that were reprioritised from other programmes to offset spending pressure. The increase over the MTEF relates to the centralization of the budget in respect of all operating costs within programme 2.

Compensation of employees shows an expenditure increase from 2015/16 to 2018/19 because of additional funds in respect of shortfall in wage agreement and the filling of vacant funded critical positions. The increase over the MTEF includes filling of vacant funded posts that could not be filled in the 2018/19 financial year.

Goods and services show a decrease between 2015/16 and 2017/18 financial years due to reprioritisation of funds that were shifted to other categories to offset spending pressures. Included in this item is the allocation for Kimberley Diamond Cup sport event.

Transfers and subsidies are linked to Economic Growth and Development Fund, which aims to support and develop Small and Medium Micro Enterprises and cooperatives. The expenditure inconsistencies between 2015/16 and 2016/17 relate to once off funding emanating from reprioritisation to other categories to offset spending pressures.

The decrease in 2016/17 relates to budget cuts while the slight increase in 2017/18 emanates from transfers to provinces and municipalities in respect of EPWP grant that was shifted from goods and services to provinces and municipalities. Included in 2019/20 is R2.089 million EPWP Conditional grant allocation. Over the MTEF, the budget shows a decrease due to the EPWP Conditional grant.

The fluctuating trend against payments for capital assets relates to the office furniture requirements including replacement of redundant equipment. Over the MTEF, the budget is expected to increase in line with inflation.

Programme 3: Trade and Sector Development

Description and objectives

To stimulate economic growth through industry development, trade and investment promotion.

Sub-programme strategic objectives

Trade and Investment Promotion

Facilitate trade, export promotion and attract investment.

Sector Development

Strategically position prioritised sectors as key contributors to economic growth and development.

Strategic Initiatives

Strategically position industries in support of economic growth and development.

Programme expenditure analysis

The sub-programme: Trade and Investment Promotion show an increase during the three-year period due to additional off allocations. Included in the sub program's budget are transfers to Northern Cape Economic Development Trade and Investment Promotion Agency. An amount of R0.120 million was re-prioritized to Programme 1 for Special Projects in 2019/20 financial year.

The increase in 2016/17 relates to the function shift from Northern Cape Economic Development Trade and Investment Promotion Agency (NCEDA) to the department, which resulted in the reduction of the transfer to NCEDA. During the adjustments, additional funds were allocated to NCEDA towards the maintenance of Mittah Seperere Convention Center.

The sub-programme: Sector Development shows an increasing trend from 2015/16 to 2018/19 financial years. The significant increase in 2017/18 financial year relates to three (3) officials that were moved from NCEDA to the department because of the function shift. The significant increase in 2018/19 financial year adjusted appropriation relates to rollover request in respect of the Renewable Energy conference held. R0.050 million was re-prioritized to Programme 1 for Special Projects in 2019/20 financial year.

The sub-programme: Strategic Initiatives shows a decrease in the in 2019/20 due to funds that have been reprioritised to Programme 1 for Special Projects, Monitoring and Evaluation and to Economic Empowerment to cover the shortfall on goods and services.

The sub-programme: Office of the Chief Director shows inconsistent spending trends during the three-year period. The increase in 2016/17 relates to a general manager position that was created as a result of funds that were reprioritised from programme 4: Business Regulation and Governance. The increase over the MTEF is due to the centralization of the budget for all operating costs within the programme.

Compensation of employees shows an increasing trend from 2015/16 to 2017/18. The decrease in 2018/19 relates to the shifting of funds from a vacant funded post to Programme 2: Integrated Economic Development Services to augment a shortfall. This baseline was also corrected in 2018/19 this explains the increase during the adjustment. The increase in the outer two years is because of anticipated re-prioritisation to fund the unfunded posts.

The inconsistent trend against goods and services relates to once off additional funding in respect of various projects. The decrease in 2016/17 relates to funds that were reprioritised to offset spending pressures in other categories. Over the MTEF, funds have been reprioritised from goods and services to transfers and subsidies towards the establishment of the metals industrial cluster from 2018/19 and over the MTEF.

Transfers and subsidies to departmental agencies and accounts consist of transfers to Northern Cape Economic Development Trade and Investment Promotion Agency. The substantial increase in 2016/17 relates to shift as mentioned above. The significant increase is due to additional funds allocated to NCEDA towards the implementation of Special Economic Zone project in Upington. In 2019/20 the decrease Public corporation and private enterprises is due to the reduction in baselines of departments to fund rates and taxes. The two outer years over the MTEF the fund is expected to increase in line with inflation.

Machinery and equipment relates to the purchase of office equipment. The inconsistent trends between 2015/16 and 2017/18 relates to replacement of redundant equipment. The increase over the MTEF provides for the anticipated purchase of furniture and office equipment.

Sub-programme: Corporate Governance shows an increase in 2015/16 that relates to reprioritised funds from the sub-programme: Consumer Protection to offset spending pressure. The decrease in 2016/17 financial year relates to a position that was moved to programme 3: Trade and Investment Promotion. Further increases in 2017/18 were largely due to fund shifts from administration programme to defray excess expenditure. The decrease in 2018/19 relates to shifting of a position to sub-programme; Consumer Protection, thereafter the budget is expected to increase in line with inflation.

Sub-programme: Consumer Protection shows a decrease in 2016/17 financial years. This is due to savings that were moved to offset spending pressures in other categories because of non-filling of posts. The increase over the MTEF includes operating costs for this programme that have been centralised to this sub-programme and the positions that have been shifted from Corporate Governance and Corporate services sub-programmes.

The sub-programme: Liquor Regulation caters for transfers to Northern Cape Liquor Board. The baseline shows a steady increase from 2015/16 and 2018/19 financial years due to additional funding allocated during the period. These included allocations for higher than budgeted salary increases for employees, the allocation for baseline adjustment. The increase over the MTEF is in line with inflationary increases.

The sub-programme: Gambling and Betting caters for transfers to Northern Cape Gambling Board. The baseline shows a steady increase during the previous three years, this relates to additional funding in respect of higher than budgeted salary increases as well as an allocation for the rolling out of Limited Pay-out Machines. The increase over the MTEF is attributed to inflationary increases.

Table 2.12.4 give a summary of payments and estimates by economic classification relating to Programme 4 for the period 2015/16 to 2021/22.

Compensation of employees shows an inconsistent trend for the first three years; this is due to vacant funded positions that were not filled timeously which resulted in the shifting of identified savings to other programmes to defray excess expenditure. The increase from 2018/19 and over MTEF is due to the shifting of a legal position from corporate services to consumer protector as well as for inflationary increases.

The inconsistent spending trend on goods and services between 2015/16 and 2017/18 relates to once off funding in respect of reprioritization from other categories to defray excess expenditure in this programme. The increase over the MTEF caters for inflationary increases and the operational costs related to the position moved from corporate services.

Transfers and subsidies to departmental agencies and accounts consist of transfers to Northern Cape Liquor Board and Northern Cape Gambling Board under the Liquor Regulation, Gambling, and Betting sub-programmes.

Machinery and equipment relates to capital equipment requirements, such as furniture and equipment for newly appointed staff and the replacement of redundant equipment, hence the fluctuating trend.

Sub-programme: Policy and Planning shows an increasing trend over the past three years due to additional funding in respect of salary adjustments and inflationary increases. During this period, the sub-programme was responsible for the review of the IPAP to ensure alignment of departmental plans and drafted a report on the Implementation of the Nine Point Plan. The budget is increasing over the MTEF in line with inflation.

Sub-programme: Research and Development shows an increase in 2015/16 and 2016/17 relates to once off funding reprioritised from other programmes to offset spending pressures, this explains the reduction in 2017/18. The allocation over the MTEF grows at an inflationary rate.

Sub-programme: Knowledge Management shows inconsistent trends between 2015/16 and 2017/18 financial years due to funds that were reprioritised from this sub-programme to offset spending pressures in other categories hence the increase in 2017/18 financial year. The increase in 2018/19 and over the MTEF is due to the re-allocation of funding in respect of information development society project.

The increasing trend against the sub-programme: Monitoring and Evaluation from 2015/16 financial year is due to inflationary increases. The allocation over the MTEF grows due to funds re-prioritized from Strategic Initiatives to offset shortfall.

The increasing trend against the sub-programme: Office of the Chief Director from 2015/16 and over the MTEF is due to inflationary increases. Audit Fees was centralized to Administration over the MTEF.

Table 2.12.5 provide a summary of payments and budgeted estimates by economic classification for the period 2015/16 to 2021/22.

The spending trend against compensation of employees increases consistently from 2015/16 to 2017/18. In 2016/17, the increase is attributed to reprioritisation of funds from other programme to make provision for a critical post that was unfunded within Knowledge Management sub-programme and this has carry through effects. The increase over the MTEF also includes baseline correction within Research and Development sub-programme, carry through costs for salary adjustments and inflationary increases.

Goods and services shows a steady increase from 2015/16 due to inflationary increases. The increase in the 2017/18 is as a result of once off allocation emanating from reprioritisation of funds from other categories to offset spending pressures. During this period, funds were also reprioritised to alleviate spending pressures to transfers and subsidies to households to provide for staff exit costs.

The significant increase in 2017/18 transfers and subsidies relates to funds that were shifted from the administration programme in respect of development of information society. This trend will continue over the MTEF.

Payments for capital assets show an erratic trend during the period. This is due to the replacement of redundant equipment.

Programme 6: Tourism

Description and objectives

To manage the development and promotion of the Northern Cape as a competitive tourist destination.

Sub-programmes objectives

Tourism Planning

Create an enabling environment for sustainable tourism growth through research, for effective planning, regulation and implementation of special tourism projects.

Tourism Growth and Development

Facilitate and manage projects for tourism business development and support.

Tourism Sector Transformation

Facilitate and manage projects for tourism experience development and promotion.

Programme expenditure analysis

Sub-programme: Tourism Planning shows an inconsistent trend from 2015/16 to 2017/18 financial years. The decrease in the 2015/16 relates to identified savings that were reprioritised to offset spending pressure in other programmes, hence the increase in 2016/17, thereafter the increase is in respect of inflationary rate. In 2019/20 financial year, R0.050 million was re-prioritized to Programme 1 for Special Projects.

The sub-programme: Tourism Growth and Development caters for transfers to Northern Cape Tourism Authority. The programme shows inconsistent trends between 2015/16 and 2017/18 financial years. The significant decreases in 2015/16 financial years relates to once off funding as well as a donation from Kumba Iron Ore in respect of Kimberley Diamond Cup World Skateboarding Championship sport event. The allocation increase over the MTEF due to Kimberley Diamond Cup sport event that has been shifted from Programme 2: Enterprise Development. An amount of R0.440 million was re-prioritized to Programme 1 for Special Projects in 2019/20 financial year. Over the MTEF fixed cost of Upington building and Flagship Centre were re-prioritized to Office of the Chief Director.

Sub-programme: Tourism Sector Transformation shows an inconsistent trend from 2015/16 to 2016/17 due to reprioritisation where funds were moved to offset spending pressure in other programmes, explaining the decrease in the 2018/19 financial year. An amount of R0.050 million was re-prioritized to Programme 1 for Special Projects in 2019/20 financial year.

Sub-programme: Office of the Chief Director Shows inconsistent spending trends because of once off additional funds allocated to ease the spending pressure. Audit Fees was centralized to Administration over the MTEF.

The spending trend against compensation of employees increases consistently from 2015/16 to 2017/18 due to additional allocation for salary adjustment and inflationary increases. The increase over the MTEF caters for baseline rectification and salary adjustments.

Goods and services show inconsistent trends between 2015/16 and 2017/18 because of once off allocations emanating from donor funding and additional funding in respect of Kimberley Diamond Cup and Bloodhound project. The reduction in 2016/17 relates to reprioritised funds to defray spending pressure in Programme 2: Integrated Economic Development Services under goods and services. Thereafter the budget decreases over the MTEF relates to the revised costs for Kimberley Diamond Cup and the funds shifted to Tourism programme from programme 2.

Transfers and subsidies: departmental agencies and accounts includes departmental transfers to public entity i.e. Northern Cape Tourism Authority. The increase over the MTEF is due to additional allocation to the entity as mentioned above.

The fluctuations in machinery and equipment are linked to the filling of vacant posts and the related purchase of office and computer equipment. The 2015/16 increase in payments for capital assets was due to reprioritised funds from compensation of employees because of delays in filling of posts, savings were reprioritised to offset spending pressures related to the improvements in respect of the skate plaza.

- The Museums Ordinance 8 of 1975
- The White Paper on Arts, Culture and Heritage
- National Council for Library and Information Services Act (Act 6 of 2001)
- Local Government Municipal Structure Act (Act 117 of 1998)
- Provincial Library Service Ordinance 16 of 1981
- Municipal Structures Act, 1999 (Act No. 117 of 1998) (as amended by Act No. 33 of 2000)
- South African Library for the Blind Act, 1998 (Act No. 91 of 1998).

The following provincial Acts have also been promulgate:

- Northern Cape Sport and Recreation Authority Act (Act 4 of 2015).
- Northern Cape Arts and Culture Council Act – 2013 which established the Northern Cape Arts and Culture Council.
- Northern Cape Heritage Resources Authority Act – 2013 which established the Northern Cape Heritage Resources Authority.
- The Northern Cape Archives Act -2013.
- Northern Cape Use of Languages Act -2013.

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

The department's focus will continue on strengthening key services in rural areas / communities across the Northern Cape. We have further enhanced our services by value added such as the girls' projects and focusing on developmental needs of small children. In this regard, the poorest of the poor and the marginalized in youth centers and prisons have particularly benefitted. Over 50 000 beneficiaries, mainly children and youth, have benefitted from our recreation programmes across the province. We look forward to doing more in the 2019/20 financial year.

The programmes were reviewed in line with our political mandate to ensure efficiencies and successful service delivery to the communities in the province. All plans have been aligned with key priorities in the sector to transform services and effect redress.

Funding received during the 2018/19 Adjustment Estimates will attempt to address the maintenance of existing infrastructure and to respond to structural defects which is a continuing concern to upkeep and maintain facilities like Mayibuye centre.

The Warrenton Cultural Resort is still not on the radar for immediate intervention, this will result in huge deficits and defects in buildings and decay of much valuable facilities. Additional funding was received from SRSA (Sport Recreation South Africa) to refurbish Warrenton Resort as a hub for youth activities especially the Annual Youth Camp that is essentially a national Youth Service initiative.

The province will continue to the host social cohesion summit, community conversations/dialogues and community Imbizo's on arts, crafts and heritage to promote social cohesion and nation building. The annual Artist Summit will continue to be used as a platform to assess whether the recommendations of sector role-players find expression in Provincial Performance Plans and Integrated Development Plans of municipalities and the extend of success to address the challenges of the sector.

The department has successfully collaborated with the Sol Plaatje University (SPU) to start courses for African Studies and Languages. This initiative guarantees the development of languages and sustains the continued preservation of threatened and extinct languages. In 2019/20 the implementation of the Nama language in the school curriculum of Riemvasmaak and Kuboes will commence in the Primary school phase.

The project will be introduced in the two primary schools which the department supported by establishing book clubs. We also supported the schools by providing a Nama dictionary for supporting language implementation. In 2022 the introduction of Kiswahili in four districts of our province will contribute towards promotion of African Solidarity, language promotion and strengthen our ties with the continent. KiSwahili will be rolled out in Frances Baard, Namaqua, John Taolo Gaetsewe and ZF Mgcawu district.

Heritage Services will take oversight of defunct municipal museums in towns like Britstown, Noupoot and Carnarvon. The department is also initiating modern museums in post 1994 era and will launch the Credo Mutwa Indigenous Knowledge Centre which houses a museum, library and a traditional pharmacy. The sub-directorate Heritage and Museum will also be inclusive of a unit dealing with Geographic Name change to accelerate the transformation of the Heritage Landscape of the province.

We are pioneering the Young Patrons Learnership which consists of thirty three young people. They will conduct amongst others, a schools flags audit in partnership with the National Youth Development Agency (NYDA) to facilitate community conversations and provide the department with a cohort of community volunteers to interact on programme delivery. This is an initiative by the department to promote the national symbols and orders.

The main external priorities that the Department of Sport, Arts and Culture responds to and to which the budget is aligned to are:

National:

- National Development Plan (NDP).
- Alignment with national strategy plans of sector departments
 - The Mzansi Golden Economy and
 - The New Sport Growth Path.
- Alignment of plans with Outcomes Approach (i.e. outcome 14)

Provincial:

- Expanded Public Works Programme (EPWP) through job creation for both social and environment sectors.
- War on Poverty Programme (WOP).
- Provincial Spatial Development Framework.
- Medium-Term Strategic Framework.

2. Review of the current financial year (2018/19)

Library Services in the last few years has experienced a number of difficulties in terms of delivering a comprehensive service to communities in the province. Among others, the function was severely affected by the reduction in the Community Library Development Grant over the 2018 MTEF. The effect of this has primarily been on the Schedule 5 function and transfers to Municipalities.

The department has already received a number of formal complaints from some municipalities who have indicated that they are under pressure and are unable to continue employing library staff as the salary bill is more than what they are receiving from the grant. This state of affairs has resulted in more municipalities raising their concerns regarding the additional pressure that this function is putting on their own resources.

The department has recorded the following successes in 2018/19:

- Appointment of 71 library clerical assistants to strengthen capacity and improve service delivery to district and community libraries.
- Appointment of dedicated Finance and Human Resources staff in the district offices
- Commemoration of all national and historical days.
- Through the Northern Cape Arts and Culture Council (NCACC), capacity development opportunities provided in music, drama, dance, visual arts and crafts. These opportunities are made available to youth, especially women, from previously disadvantaged backgrounds. Six programmes were offered in music theory and practice and dance theory & practice. Four productions were staged to showcase the talent of the learners. From the dance academy, the productions incorporated contemporary African dance, Latin and Ballroom dance.
- The department continues to provide opportunities for various enterprises and artists to showcase their talents at different exhibitions and during the period under review, various artists from 17 organisations were funded.
- The department hosted the Provincial Artist Summit which attracted 150 artists (mostly youth) from all the districts in the province. The programme included conducting social dialogues and conversations to promote social cohesion and nation building.
- Translation of documents into Setswana and IsiXhosa have given effect to our mandate of promoting and protecting language diversity in the province. We are also supporting Department of Education in Nama language offering in schools. An increased focus will be placed on indigenous languages.
- The department offers basic language proficiency and basic sign language training to the front line staff of the service delivery departments to promote multilingualism.
- Department held consultative meetings with municipalities to address service delivery issues relating to Library services.
- Hosting a successful Northern Cape Writers Festival in collaboration with the Sol Plaatje University to promote writing and a culture of reading in the province.
- Opening of the community libraries in Tsineng, Caroulesburg and Ritchie.
- The department was also able to conclude the maintenance of 12 container libraries as part of addressing the huge maintenance backlogs which the department experience. The multi-year approach in the delivery of new infrastructure yielded positive results and has significantly improved and increases the infrastructure spending. The department was also able to complete all outstanding new infrastructure backlogs.
- Twenty (20) records were transferred from the following Governmental Bodies to the Khotso Flatela Archives Repository:
 - Master's Office - Estate Records (1957-1990)
 - The High Court transferred criminal Case records and other cases
 - The Department Cooperative Governance. Human Settlements and Traditional Affairs (COGHSTA) i.e. ERWE, Traditional Leaders records and Housing projects records

- Department of Social Development
- McGregor Museum and
- Hantam Municipality.
- The appointment of Northern Cape Sport and Recreation Authority Board by the MEC. The Board derives its mandate from the Northern Cape Sport and Recreation Authority Act No 4 of 2015. The appointment of the Northern Cape Sport and Recreation Authority Board members will ensure that sport will advance social cohesion, transformation and sport development. It will amongst other things include the promotion of marginalized sectors focusing on women, people with disabilities as well as rural areas.
- The department provided support to more than 3 000 learners participating in school sport tournaments at district, provincial and national level.
- In order to foster club development we have supported 111 leagues and tournaments across the province, one hundred and forty two (142) recreation programmes attracted almost 40 000 participants.
- Development of high performing athletes and support provided to the federations, and the clubs for various sporting codes.

3. Outlook for the coming financial year (2019/20)

In aligning our plans and budgets to the priorities outlined above, the department will focus on:

- The department managed to conduct six conditional assessments for the Inasi Moshewu, Sternham, Betty Pieterse, Frans Jooste, Ntsikelelo Tida and OM Mothibi libraries. The Inase Moshewu and Frans Jooste libraries are currently being maintained and renovated; the remaining four libraries will be maintained in the 2019/20 financial year.
- The maintenance of existing infrastructure (Mayibuye Centre and the Warrenton Cultural resort).
- Ensuring that district offices have sufficient capacity to do monitoring and evaluation at municipal level, thus ensuring compliance with the provisions of the Business Plans submitted by municipalities.
- Ensuring that all provincial libraries, container libraries and dual-purpose libraries in the various districts are fully functional and have adequate programmes to service their host communities.
- Ensuring that all libraries in the Province have internet access, thus guaranteeing free access by all communities of the Province.
- Continue to engage the North West and Western Cape Provinces in order to finalise the transfer of records from these Provinces.
- Enabling the Northern Cape Sport and Recreation Authority to become the custodian of grassroots sport development towards transformation across race, gender, economic and ability levels.
- The equal promotion and development of indigenous languages like Nǀxu, !Xhu, Khwe and Nama is now elevated to a cultural bilateral agreement with Namibia through the Kharas region (Namibia) cooperation with ZF Mgcawu and Namakwa districts. This is a cultural exchange programme across genres of music, arts, craft and language interaction and dialogue.
- Provide for artistic expression and capacity building in the fields of music, dance, craft and drama through four academy programmes at Mayibuye Centre.
- Preserve, protect and promote our cultural heritage in hosting commemorative days.
- Promote healthy lifestyles and a crime free society through various sport and recreation initiatives which includes:
 - The providing of sustainable recreational programmes and support to talented athletes,
 - Support to Sport Authority, academy, federations and clubs, schools and hubs, and
 - Provide training to administrators and coaches.

4. Reprioritisation

In addressing reprioritisation, the department was hit hard by a significant reduction in grant funding over the 2019 MTEF. Where possible reprioritisation was applied to ensure core service delivery in all programmes including the filling of a limited number of key vacancies which will result in the department's wage bill stabilising over the MTEF period. The department remains committed and will continue to have a robust exercise in the areas of reprioritisation over the MTEF cycle.

5. Procurement

The department plans to procure goods and services to the value of R334.368 million over the MTEF period. This amount is committed for library books, contractual obligations and hosting of commemorative days. In addition to this, expenditure on capital assets is estimated to an amount of R115.835 million over the same period for the construction of modern libraries in the province within Community Library Services Grant as well as other capital expenditure. The department is also renovating the Mervyn Erlank building which will generate further savings on rental costs upon expiration of the lease agreement in the year 2021.

The implementation of demand driven public procurement processes, full implementation of LOGIS system, implementation of the revised procurement secure standards (time frames) as well as proposed costing and limited decentralisation of procurement functions at the district level has been presented to address challenges of supply chain management and ensure the effective and efficient procurement in the department.

6. Receipts and financing

6.1 Summary of receipts

Table 2.1 provides a summary of receipts.

The department has two main sources of funding namely, equitable share and conditional grants. The total receipts for the department show a decrease of R17.809 million or 4.2 per cent from the revised estimate of R422.933 million in 2018/19 financial year. This is mainly due to a significant roll-over amount which was appropriated during the Adjustment Estimates process.

The department generates its revenue mainly from commission earned on administrating deductions from employee's salaries such as garnishing orders and fees charged to the public by municipalities as the repayment for the cost price of losing books from public libraries.

The overall revenue budget of the department increases by 9 per cent in 2019/20 when compared to the 2018/19 revised estimate. The department is investigating additional sources of revenue over the 2019 MTEF.

6.3 Donor Funding

The department does not have foreign donation.

7. Payment summary

7.1 Key assumptions

- Provision has been made for the Improvement of Conditions of Service (ICS) on the assumption that the salary adjustments in 2019/20 financial year will track projected Consumer Price Index (CPIX) at the inflation estimated at 7.4 per cent.
- In light of the slow growth in the provincial equitable share, the department limited its provision towards performance rewards to 1 per cent of the total wage bill with provision for pay progression remaining at 1.5 per cent.
- Inflation assumption of 5.4 per cent in 2019/20, 5.6 per cent in 2020/21 and 5.4 per cent in 2021/22 has been taken into consideration.

7.2 Programme summary

Table 2.3 provides a summary of payments and estimates by programme.

The departmental budget shows a decrease of R17.829 million or 4.2 per cent from the revised estimates of R422.711 million in 2018/19 financial year. This reduction in the budget is owing to rollovers from the previous financial (2017/18) appropriated through adjustment estimates of the current financial year (2018/19). However, when the growth rate is measured against the main allocation of the current financial year, the department's budget increases by 5.8 per cent in the base year and an average of 5.4 per cent over the 2019 MTEF period.

Compensation of employees grows by 13.4 per cent from the 2018/19 revised estimates. The significant increase is owing to the underspending on this standard item due to the provincial moratorium on appointment of personnel. The department's expenditure on compensation of employees will stabilise and it is not expected that further new positions will be funded over the 2019 MTEF.

Goods and services decreases by 14.2 per cent in 2019/20 and an average of 4.2 per cent over the 2019 MTEF when compared with the 2018/19 revised estimates. Goods and services provides for some of the core services delivery programmes as well as servicing the department's contractual obligations. One of the main reasons for this decrease apart from rollovers is the shift in the Mass Participation and Sport Development Grant towards the established Northern Cape Sport and Recreation Authority. Many of the department's development programmes will henceforth find expressing through the programmes of the Authority.

As goods and services decreases, Transfers and subsidies increases by R1.961 million or 3.2 per cent when compared to the 2018/19 revised estimates. When this growth is compared to the main allocation for 2018/19, the increase is 15.4 per cent in the base year and an average of 7.9 per cent over the 2019 MTEF. Transfers to local government which provides funding for Library Services increases by 4.9 per cent with the largest increase being in transfers to Departmental Agencies.

The allocation for buildings and other fixed structures decreased from R53.651 million in 2018/19 to R30.500 million in 2019/20 and machinery and equipment from R7.227 million to R6.052 million. The department has been forced to reduce the number of new libraries being constructed and will focus on maintaining the current facilities over the 2019 MTEF.

7.4 Infrastructure payments

7.4.1 Departmental infrastructure payments

Table 2.4.1 provides a summary of infrastructure payments and estimates by category, the details is outlined in the annexure.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

The decrease in 2019/20 relates directly to the decrease in grant funding over the MTEF. The department will focus on maintaining the current library and other infrastructure in the province over the MTEF. An amount of R15.835 million has been allocated over the MTEF towards renovations at the Mervyn J Erlank Sport Precinct in Kimberley. The department is planning to relocate its head office to the sport precinct when the current lease agreement expires in 2021.

7.5 Departmental Public-Private Partnership (PPP) projects

The department does not have PPP projects

7.6 Transfers

7.6.1 Transfers to Public Entities

Table 2.6 provides a summary of departmental transfers to public entities.

The table above indicates transfers to municipalities for the purpose of rendering library services to the communities. The transfer is dependent upon the provision of satisfactory services in line with Memorandum of Understanding (MoU) signed with municipalities.

8. Receipts and retentions

Not applicable to this department.

9. Programme description

Programme 1: Administration

9.1 Description and objectives

Purpose: To conduct the overall management and administrative support to the department. This programme provides political and strategic direction for the department as well as effective and efficient human resource management, financial management and general support services for the department.

Sub-programme objectives

Office of the MEC: To provide administrative, client liaison and support service to the MEC.

Corporate Services: To render an internal and external communication and marketing service, manage the overall administration of the department which includes financial management, human resources management and development, registry, messenger services, legal administration and transport services.

9.2 Programme expenditure analysis

Table 2.10.1 provides a summary of payments and estimates by sub-programme.

The compensation of employee's budget shows an increase of R5.858 million or 9.8 per cent of the 2018/19 revised estimated for this programme. This amount includes provision for the establishment of legal services in the department and to strengthen accountability through the increase in human capacity in the monitoring and evaluation section.

Goods and services remains constant at R22.169 and shows a minimal decrease of 2.3 per cent of the revised estimate of R22.686 million in the base year and an average decrease of 1.9 per cent over the 2019 MTEF. This is in line conscious reduction of government spending which necessitate stringent cost containment measures.

Transfers and Subsidies as well as Payment for Capital Assets remains stable over the 2019 MTEF.

9.3 Service delivery measures

There are no service delivery measures for this programme.

Programme 2: Cultural Affairs

Description and objectives

Purpose: To promote culture, conserve and manage cultural and historical assets of the province by rendering various services such as:

- The promotion of respect for cultural diversity and the advancement of artistic disciplines into viable industries.
- The acceleration of the transformation of the country's heritage landscape by establishing and managing museum and heritage services.
- The promotion of multilingualism, redress past linguistic imbalances and develop the previously marginalized languages.

Sub-programme objectives

Arts and Culture: To provide assistance to organizations for the conservation, promotion and development of culture in terms of the Cultural Commission and Cultural Councils Act as well as the South African Geographical Names Acts and cultural management support services.

Museum Services: To provide a service in terms of Ordinance 8 of 1975 Province-Aided and Local Museums in terms of Ordinance 8 of 1975.

Heritage Resource Services: To provide assistance to the Heritage Council for heritage resource management in terms of the National Resources Act.

Language Services: To provide assistance to the Provincial Language Committee in terms of the Languages Act. It also promotes multilingualism, redress past imbalances and develops the previously marginalised languages in the Province through language standardisation.

Programme expenditure analysis

Table 2.10.2 provides a summary of payments and estimates by sub-programme.

The budget for the programme decreases by R6.879 million or 9.3 per cent from R73.997 million revised estimates in 2018/19 to R67.118 million in 2019/20 financial year. The average increase over the 2019 MTEF is only 0.6 per cent.

The significant decrease in the base year of the 2019 MTEF is owing to once funding received during the 2018 adjustment estimated on which the revised estimates are based. When the main allocation for 2018/19 is considered, the budget for this programme grows by 3 per cent in the base and an average of 4.7 per cent over the 2019 MTEF.

The compensation of employee's budget reflects the growth of 8.6 per cent in the base year of the 2019 MTEF from the 2018/19 revised estimates. The significant increase is also owing to the underspending on this standard item in the current financial year due to the provincial moratorium on appointment of personnel.

Good and Services decreases from R24.161 million in the 2018 revised estimates to R18.088 million in the 2019/20 financial year. The main reason for the decrease is additional funding that was appropriated during the 2018 Adjustment Estimates process for much needed maintenance and repairs at the Mayibuye Multi-purpose Centre in Kimberley as well as approved roll-overs from the 2017/18 financial year.

Transfers and subsidies also decreases when compared to the 2018/19 revised estimates from R15.628 million to R12.751 million in 2019/20. This is also as a result of once off funding being appropriated during the adjustment budget process.

Payment for Capital Assets decreases from R0.835 million in the 2018/19 revised estimates to R0.316 million in 2019/20 which represents a decrease of 62.16 per cent. The 2018/19 revised estimate included a once off amount which was allocated towards maintenance and repairs of the Mayibuye Multi-purpose Centre.

Programme 3: Library and Archives Services

Description and objectives

Purpose: To assist local library authorities in rendering public library services and providing an archive service in the province.

Sub-programme objectives

Library Services: To provide Library and Information Services in line with the relevant applicable legislation and Constitutional Mandates.

Archives: To provide support services in terms of the National Archives Act and other relevant information.

The budget of this programme decreases by R16.655 million from the revised estimate of R203.433 million in 2018/19 to R186.778 million in the 2019/20 financial year. This is an decrease of 8.2 per cent in the base year and an average growth of only 0.8 per cent over the 2019 MTEF.

It must be considered that the 2018/19 revised estimates contains a once-off roll-over amount of R29.310 million. When this is factored out and the 2018/19 main allocation is considered, the programme grows by 6 per cent in the base year and an average of 5.6 per cent over the 2019 MTEF.

Compensation of employees increase with R12.547 million or 20.7 per cent if compared to the 2018/19 revised estimate. While this represents a significant increase, it is in line with the department's focus in 2019/20 to continue ensuring that the current library facilities becomes fully operational and effective in an efforts to build a reading nation. A number of operational level positions were filled towards the end of the 2018/19 financial year; the cost of which is carried through to the 2019 MTEF.

Goods and services decreases by R6.554 million or 11.9 per cent from a revised estimate of R55.017 million in 2018/19 to R48.463 million in 2019/20. When drawing this comparison it must be considered that the 2018/19 adjusted estimates provides for a roll-over amount of R7.467 million in order to finalise library book procurement, which provides for sustaining the current level of services throughout the province. When the main allocations for 2018/19 is considered, although minimal, there is an increase of 1.7 per cent in the base year and an average of 1.2 per cent over the 2019 MTEF.

Transfers and Subsidies increases by R1.240 million from a revised estimate of R35.578 million in 2018/19 to R36.818 million in 2019/20. Bulk of these transfers (93.74 per cent) are made to Local Governments to ensure that library services are provided to communities.

The department continues to consolidate its position regarding library infrastructure in the province. The allocation for buildings and other fixed structure decreases significantly from a 2018/19 revised estimate of R48.643 million to R25.500 million in 2019/20. Only two new facilities namely Greenpoint and Niekerkshoop Community Libraries are planned for the 2019/20 financial year while the department focussed on maintenance and repairs to the current infrastructure.

Programme 4: Sport and Recreation

Description and Objectives

Purpose: To provide assistance to provincial sport associations and other relevant bodies to stimulate the development of sport.

To establish and support transformed institutional and physical structures to increase participation and excellence in sport, provision of sustainable mass participation opportunities across the age spectrum to promote physically active life styles, and to ensure active participation, development and training of all learners and educators and the identification of talent in quality and sustainable sport and recreation programmes.

Sub-programme objectives

Management: To provide sport management functions, transport and administrative functions to the directorate.

Sport: To provide assistance to provincial sport associations to stimulate the development of sport.

Recreation: To provide financial assistance to sport federations for development programmes and special incentives to those sport people within the province and management of specific development programmes as well as providing assistance to recreation bodies for specific development purposes.

School Sport: To provide for development of policies and conducting research regarding school sport, monitoring and evaluating all programmes pertaining to school sport. It also ensures that all learners have access to sport activities as well as benefits associated with sport that accrue to them.

Sport and Recreation remains the centre of the core activities of the department. The total budget of the programme increases from R60.334 million in the 2018/19 revised estimates to R60.599 million in 2019/20 financial year. The increase translates to below inflationary growth in resources and is mainly attributed to the slow growth that are experienced in the conditional grant.

Compensation of Employees increases from the 2018/19 revised estimates of R18.855 million to R20.661 million in 2019/20, this presents an increase of 9.6 per cent. The significant increase is also owing to the underspending on this standard item in the current financial year due to the provincial moratorium on appointment of personnel. When the 2018/19 main allocation is considered, the increase is 2.7 per cent in 2019/20 and provide for no further increase in human capacity.

Goods and services decreases by R5.316 million or 19.2 per cent in favour of increases in the annual transfer to the NC Sport and Recreation Authority. As part of the national grant, the province has provided R10 million for the National Schools Championships and R3 million for the annual Youth Camps that are held in the Province.

In accordance with the shift in the Mass Participation and Sport Development Grant towards the established Northern Cape Sport and Recreation Authority, many of the department's develop programmes will hence forth find expressing through the programmes of the Authority. As such, Transfers and Subsidies increases by R3.950 million or 48.1 per cent of the 2018/19 revised estimate.

Since the 2017/18 financial year, payments for capital assets have shown a significant increase for this programme. This has been a provision for the renovations and upgrading of the Mervyn Erlank Sport Precinct in Kimberley. This project will, once completed, house the department's Head Office in the province with associated cost savings expected from the termination of office rental.

Accounting Officer	Head of Department : Provincial Treasury

1. Overview

Core Function and Responsibilities

The core functions and responsibilities of a Provincial Treasury are outlined in the Public Finance Management Act (PFMA) and the Municipalities Finance Management Act (MFMA), and amongst others, entail the following:

- The preparation and exercising control over the implementation of the provincial annual and adjustment budgets.
- Monitoring local government budgets processes.
- Supporting and building capacity in local governments, which includes the coordination of the implementation of the MFMA.
- Ensuring compliance with the annual Division of Revenue Act.
- Promoting and enforcing transparency and effective management of revenue, expenditure, assets and liabilities of the provincial departments and public entities.
- Assisting provincial departments in their respective capacity building efforts for effective, efficient and transparent financial management by providing assistance with implementation and maintenance of financial systems, namely PERSAL, LOGIS and BAS.
- Ensure compliance to Supply Chain Management (SCM) best practices.
- Coordinating and monitoring activities of risk management in the province.
- Investigating any systems of financial management and internal controls to be applied by the provincial departments and public entities to enhance effective and efficient financial management.
- Issuing Provincial Treasury instructions.
- Preparing consolidated financial statements for the province.

Vision

To be the heartbeat of sound financial management that supports economic growth and development.

Mission

We strive to promote sound fiscal policy that enables financial sustainability and support economic development.

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

Provincial Treasury as the lead financial advisor and custodian of fiscal resources will endeavour to facilitate the achievement of the strategies / outcomes as set out in the National Development Plan (NDP) and Medium Term Strategic Framework (MTSF), 2014-2019. Provincial Treasury responsibility is to support departments and municipalities in fulfilment of their key outcomes; however, the department is directly linked to two of the 14 outcomes, namely:

Outcome 9, which requires Provincial Treasury to support municipalities in becoming a responsive, accountable, effective and efficient local government system. The department has continued to support and guide municipalities on financial management aspects. The support will be focused on assisting municipalities with regards to revenue management, debt collection and improvement of audit outcomes.

Outcome 12, which requires Provincial Treasury to contribute towards an efficient, effective and development oriented public service. Our contribution as a custodian of the province's financial resources has been to monitor and enforce fiscal discipline, to ensure that government's investment and expenditure is more productive and effective in the delivery of services to the communities.

2. Review of the current financial year (2018/19)

The following were the key achievements at the end of the third quarter on the priorities set by the department:

- The department has developed a Provincial Procurement Framework, which aims at stimulating the provincial economy and supporting designated groups. The Framework is currently being discussed at various oversight platforms and will be rolled out in the new financial year. The framework will guide the implementation of the 2017 Preferential Procurement Regulations.
- Mid-year engagements were held with all municipalities to support municipalities in addressing budgetary and governance issues. Financial viability of municipalities raises much concern, support is provided with the development of financial recovery plans and revenue enhancement strategies such as the data integrity project.
- Implementation of the second phase of the data integrity project in Dikgatlong, Magareng, Phokwane, Kamiesberg and Kai Garib has commenced and will be completed in 18 months' time.
- An unqualified audit opinion has been issued by the Auditor General on the Consolidated Annual Financial Statements.
- Approval was granted by EXCO to commence with the process of clearing R500 million of unauthorised expenditure.

3. Outlook for the 2019/20 financial year

The focus of the department in the 2019/20 financial year will be to continue to implement the set priorities, namely:

- Assisting municipalities in improving revenue management and debt collection. Significant focus will be placed on intergovernmental debt and cleaning of municipal billing system. Support will also be provided on the indigent registers, i.e. ensuring credibility and completeness.
- Continue to support municipalities with regards to improving financial reporting and institutionalising good governance.
- Continue to monitor and support departments on non-compliance matters, especially with regards to Unauthorised, Irregular and Fruitless and Wasteful Expenditure.
- Finalisation and implementation of the departmental organisational structure.

4. Reprioritisation

Minor shifts and reprioritisation were done within economic classifications of different programmes to cater for the core functions of the department, as there are no slow spending programmes. Programme 2, 3 and 5 reprioritised funds from compensation of employees to goods and services to accommodate the implementation of key projects.

5. Procurement

All contracts were renewed in the 2018/19 financial year, thus in the new financial year, the only tenders would emanate from support interventions to be implemented at municipalities.

6. Receipts and financing

Provincial Treasury is an oversight department therefore revenue collection is primarily generated from interest on the provincial consolidated bank account, parking fees, service commission and sale of capital assets.

The overall budget annual growth over the 2019 MTEF is based on the following projections, i.e. 6.5 per cent for 2019/20, 6.4 per cent in 2020/21 and 5.5 per cent 2021/22.

6.3 Donor Funding

The department does not receive donations.

7. Payment summary

7.1 Key assumptions

- Provision for Improvement in Conditions of Service (ICS) included in the baseline allocation is calculated at 6.4 per cent in 2019/20, 6.6 per cent in 2020/21 and 6.4 per cent in 2020/21 financial years. Included in the compensation budget is 1.5 per cent for pay progression on the departmental wage bill for the same period.
- The MTEF allocation provide for an average increase rate according to the revised inflation projections (CPIX) as published in the 2018 Medium Term Budget Policy Statement of 5.4 per cent in 2019/20, 5.6 per cent in 2020/21 and 5.4 per cent in 2021/22.

The above table reflects an increase of 3.8 per cent in 2019/20 from the 2018/19 main budget. This increase includes a baseline cut amounting to R7, 350 million. There is an increase of 8 per cent in the 2020/21 and 5.3 per cent in 2021/22 financial years. The increase in 2020/21 is due to the additional allocation for building capacity in the districts for provision of services to municipalities. Additional allocation was also provided for building capacity in the Infrastructure Performance Management sub-programme.

The department is a human resources driven department, thus compensation of employees constitutes 72 per cent of the department's total budget allocation. There is a decrease of 2 per cent from the main budget of 2018/19 to the 2019/20 financial year as a reprioritisation to goods and services to fund municipal related projects. Furthermore, there is an increase of 15 per cent for the 2020/21 financial year as a result of the full provision of filled vacancies and 5.2 per cent increase in the 2021/22 financial year.

The goods and service budget increases by 19 per cent from the 2018/19 financial year to the 2019/20 as a result of once off funding allocated to municipal related projects. Furthermore, there is a decrease of 8 per cent in the 2020/21 and an increase of 5.5 per cent in 2021/22 financial years.

The budget of 2019/20 for machinery and equipment indicates an increase of 100 per cent from the 2018/19 financial year as a result of renewal of laptops and desktops.

4. Reprioritisation

The department did not perform any reprioritisation over the 2019 MTEF. However, a realignment of the budget within goods and services was done in order to make adequate provision for the contractual obligations.

5. Procurement

The department as planning to upgrade departmental network infrastructure during 2019/20 financial year.

6. Receipts and financing

The funding of the department is from two sources namely equitable share and conditional grant funding.

6.1 Summary of receipts

Table 2.1 provides summary of receipts

Table 2.1 : Summary of receipts

R thousand	Outcome			Main appropriation	Adjusted appropriation 2018/19	Revised estimate	Medium-term estimates

The department has two main sources of funding namely, equitable share and conditional grants. The equitable share funding constitutes 44 per cent of the total departmental budget while conditional grants account for 56 per cent.

The overall budget of the department still fluctuates significantly owing to special conditional grant allocations, which vary from year to year. So much so that the average growth rate was only 3 per cent for the periods between 2015/16 and 2016/17 financial years.

Over the 2019 MTEF, the department will receive equitable share to the amount of R1.152 billion while receipts from conditional grants are expected to be R1.430 billion. In 2019/20, the department's receipts will increase by 8 per cent, the average increase of 4 per cent over the 2019 MTEF period.

6.2 Departmental receipts collection

Table 2.2 provides a summary of receipts anticipated by the department over the 2019 MTEF.

The department generate its revenue primarily from commission on insurance and garnishees, rental dwellings, and rental on parking. The revenue forecasts over the 2019 MTEF grow by an average of 5.4 per cent, which is linked to inflation.

6.3 Donor Funding

The department has no donor funding anticipated for the ensuing financial year.

7. Payment summary

7.1 Key assumptions

- Inflation assumptions of 5.4 per cent in 2019/20, 5.6 per cent in 2020/21 and 5.4 per cent 2021/22 respectively;
- Personnel Inflation assumptions are calculated at CPI+1 for each of the years of the MTEF;
- The budget for housing is mainly based on conditional grant allocations from the National Department of Human Settlements.

Current payments increase by 9.2 per cent in 2019/20, and an average of 4.4 per cent over the 2019 MTEF. The growth is mainly in goods and services, which increase by 21.2 per cent in 2019/20 and an average of 4.3 per cent over the 2019 MTEF. This increase in goods and services comes after years of minimal or no growth and in previous years even reduction.

9.3 Service Delivery Measures

There are no service delivery measures in this programme

Programme 2: Human Settlements

In terms of the Constitution of the Republic of South Africa (RSA), Human Settlements is a shared function amongst the national, provincial and local government spheres. Each sphere of government has a specific role to play in ensuring delivery of quality houses with access to basic services and integrated human settlements.

The programme derives its mandate from Schedule 4A of the Constitution of South Africa Act (Act No.108 of 1996). The National Housing Code highlights the functions of the provincial government; which include:

- Policy development
- Facilitation of housing development
- Intervention
- Planning and delivery of housing programmes
- Accreditation
- Ensure monitoring of accredited municipalities.

Sub-programme Objectives

Housing Needs, Research and Planning

To facilitate and undertake housing delivery planning.

Housing Development

To provide individual subsidies and housing opportunities to beneficiaries in accordance with the housing policy.

Housing Asset Management Property Management

To provide for the effective management of housing.

Programme expenditure analysis

Table 2.10.2 provides a summary of payments and estimates by sub-programme.

The programme has the largest share of the department's budget at 62 per cent of the total allocation owing to the Human Settlement Development Grant (HSDG). The budget for the programme decreases by 8.1 per cent in the base year, and an average reduction rate of 2.7 per cent over the 2019 MTEF.

The growth rate is positive in the previous financial years at an average of 4 per cent between 2015/16 and 2017/18. The growth in this period is due to special additions to the HSDG previously received by the province while the subsequent reduction in the new MTEF is also owing to rollovers received during adjustment estimates.

Programme 3: Cooperative Governance

Description and Objectives

The programme monitors and supports all 31 municipalities on governance; municipal performance; intergovernmental relations, participatory democracy; accountability, integrated development planning; as well as legislative compliance in the province.

Sub-programme objectives

Local Governance

To promote and facilitate viable and sustainable local governance.

Development and Planning

To promote Integrated Development Planning (IDP) and facilitate the development of credible and simplified plans.

Programme expenditure analysis

Programme 4: Traditional Affairs

Description and Objectives

The primary focus of the programme is to provide administrative, financial, advisory and strategic management support to all traditional leadership structures in a quest to promote good governance, sound administration, accountability as well as community stability within traditional communities.

Once supported, the traditional leadership institution will preserve and promote traditions, customs and culture; as well as to give advice to government accordingly on matters related thereto. Furthermore, the programme will apply laws in accordance with Chapter 12 of the Constitution of South Africa Act (Act No.108) of 1996; help develop legislations; and broaden the institution of traditional leadership by including other communities such as the Khoi-San.

This programme currently supports the operation of the Provincial and Local Houses of Traditional Leaders, eight (8) recognized traditional communities and deal with matters related to Khoi-San communities on an ad-hoc basis

Sub-programme objectives

Traditional Affairs

Traditional Leadership and Institutional Support

To provide administrative, financial & legislative support to traditional leaders, councils, communities and royal councils.

Secretariat of Houses of Traditional Leaders

To render strategic administration and management of Houses of Traditional Leaders.

Research, Policy and Legislation Development

To perform rigorous and professional research, develop policies and legislation

- Employment Equity Act, (Act No. 73 of 1989)
- Skills Development Act
- Basic Conditions of Employment Act and
- Annual Division of Revenue Act.

Key strategic objectives

In line with the Negotiated Service Delivery Agreement of the Health Sector, the department has outlined the following strategic priorities for 2018/19:

- Universal health care coverage achieved through implementation of National Health Insurance.
- Improved quality of health care.
- Implement the re-engineering of Primary Health Care.
- Reduction on health care costs.
- Improved human resource for health.
- Improved health management and leadership.
- Improved health facility planning and infrastructure delivery.
- Human Immunodeficiency Virus (HIV) and Acquired Immunodeficiency Syndrome (AIDS) and Tuberculosis (TB) prevented and successfully managed.
- Maternal, infant and child mortality reduced.
- Efficient health management information system and implemented for improved decision making.

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

In line with the National Development Plan (NDP) 2030 and the Medium Term Strategic Framework (MTSF) 2014-2019, the department will flag key achievements. Furthermore, to support the realisation of the MTSF health plan each action plan will be estimated on annual basis using evidence-based Annual Performance Planning and priority areas resources allocation methods.

Universal health coverage achieved through implementation of National Health Insurance (NHI)

The department is continuing with the general practitioner contracting in anticipation of national health insurance in Pixley-ka-Seme district.

Improved quality of health care

The Clinical Forensic and Post-exposure-prophylaxis (PEP) programme continued to distribute comfort packs and essential clothing items to survivors of sexual offences and other vulnerable groups. Thuthuzela Care Centres marketed their services in Kuruman, Kimberley, De Aar and Springbok. Marketing activities included integrated, inter-sectoral outreach programmes, radio talk sessions as well as one-on-one sessions with relevant individuals.

The department has extended working hours at Calvinia clinic and Kleinsee clinic in the Namakwa district to ensure accessibility of services to the community in Middlepos areas. Calvinia hospital introduced surgical outreach to reduce/relieve referral pathways at Dr Harry Surtie hospital.

Sishen Iron Ore Company-Community Development Trust (SIOC-CDT) assisted the department to fund the introduction of the “*Re A Fola*” Health Promotion in the Tsantsabane Local Municipality.

Implement the re-engineering of primary health care

The assessments for the Ideal Clinic Realisation and Maintenance (ICRM) were conducted only in 161 of 163 targeted facilities excluding Olifantshoek CHC and Wrenchville clinic which are temporarily closed. There is continuous improvements and updates on the ICRM status. The districts conducted peer reviews for the ICRM throughout the province of which two facilities namely Masakhane clinic in Frances Baard and Bothitong clinic in John Taolo Gaetsewe achieved silver status on the Ideal Clinic Realisation and Maintenance.

The implementation of Ideal Clinic Realisation and Maintenance (ICRM) strategies have resulted in a decrease on the PHC Utilisation Rate with more patients being decanted at facility level; an increase in the enrolment of patients on the CCMDD programme; and facilities adhering to the appointment system.

Reduction on health care costs

An anti-microbial stewardship workshop was conducted in Garies CHC, Poffader CHC, Port Nolloth CHC and Springbok hospital to reduce prescriptions of antibiotics in districts.

The backlog of patients that were due for Mammograms were sent to Radiography department at Robert Mangaliso Sobukwe Hospital (formerly Kimberley Hospital) to accommodate twenty (20) patients per month at a lesser costs since the tests were outsourced to a Private Hospital.

As part of the strategies to contain laboratory expenditure and simultaneously promote the rational use of laboratory services, the National Department of Health mandated the NHLS to implement the Standardised National Electronic Gate-Keeping (eGK) Rules. The department implemented the eGK with the minimum repeat interval criteria.

Improved human resource for health

The skills audit process has been introduced across all the five (5) district facilities in the department in order to identify the prevailing skills gaps. Twenty-seven (27) of 28 officials have passed their course to become Post Basic Pharmacist Assistants, which will improve the management of pharmacies at health facilities.

The Emergency Medical Services College has involved itself with the training of 151 employees on Intermediate Life Support course. The department has facilitated the renewal of the 41 bursaries and 119 scholarships of health science trainees to pursue studies in South African and Cuban Universities respectively for the 2018 academic year. All these efforts are aimed at addressing the prevailing skills deficit, particularly scarce and critical skills in the health sector.

Improved health management and leadership

The department has embarked on the process of change management. This programme has finalized the Equality Terms document, trained personnel on the implementation of the Employment Equity plan, created awareness of sexual harassment, embraced the Mandela month and promoted Corporate Culture posters.

A task team was established to develop a plan and work on the poor data management that has a direct impact on performance. The team visited the following districts: John Taolo Gaetsewe and ZF Mgcawu and the facilities were trained on the Rapid Internal Performance Data Audit (RIPDA) tool, this intervention is expected to yield better audit outcomes.

The department finalised the approval of four policies, namely, Policy on Revenue Management, Policy on Medical Surveillance, Policy on Asset Management and Policy on Patient Fee Management.

The department sent officials to attend the official launch of Northern Cape Cancer Centre of Excellence and Research. The aim of the project was to create awareness, strengthening prevention of cancer in the Northern Cape Province. The officials learned about early detection, diagnosis and initiation of the appropriate treatment of cancer patients, thus prevention of progression of the disease. This will improve treatment outcomes for patients diagnosed with cancer.

Improved health facility planning and infrastructure delivery

The construction of Kagung Clinic and the new Kimberley Mental Health Hospital has been completed. The construction of two clinics that is Boegoeberg and Bankhara Bodulong Clinics is earmarked for completion within a 2019/20 financial year. Completion of Bankhara Bodulong Clinic would create an opportunity for parkhomes that are currently being used to be re-allocated to other deserving areas in John Taole Gaetsewe District. Construction of a new pharmacy at Springbok Hospital is underway. A new mortuary at Springbok Hospital that accommodates forensic pathology services is being constructed to relieve the department of leasing a private mortuary in town.

Eleven facilities in John Taole Gaetsewe District have boreholes drilled and all the boreholes have been supplied with 10 000L water tanks. Additional 14 health care facilities have also been supplied with 10 000 litre water tanks with pressure pumps.

The department has established preventative maintenance contracts for fire-fighting equipment, heating, ventilation and air conditioners and standby generators. There are two donor funded projects which are making progress i.e. Olifantshoek CHC - The casualty, maternity, fencing and security guardhouse are being upgraded through donor funding from Gamagara Development Trust and Postmansburg Hospital -Upgrading of theatre done by Kumba mining.

Human Immunodeficiency Virus (HIV) and Acquired Immunodeficiency Syndrome (AIDS) and Tuberculosis (TB) prevented and successfully managed

The department conducted performance reviews to identify poor performing areas and factors influencing such HIV/AIDS programmes performance. The programme has formulated interventions to improve the delivery of condoms, address access and demand of medical male circumcision services. The interventions also identified areas with high HIV burden and included them in the “*Focus for Impact*” campaign which is being coordinated through the Provincial AIDS Council Secretariat.

A three-day provincial workshop was conducted in Upington resulting to the development of district based Medical Male Circumcision (MMS) micro-plans underpinned by raising awareness toward maximizing access to MMC services.

The department conducted the STI syndromic management training for nurses in two (2) districts (Namakwa and Pixley Ka Seme district) targeting 25 nurses for each district. The Health Systems Trust commenced in conducting the Community HIV Testing campaign in ZF Mgcawu district. This initiative will be roll-out to other districts. The department conducted the 10 - days Basic HIV Counselling and Testing training in Upington and 33 lay counsellors were trained.

The District Health Services Directorate participated in the commemoration of the Provincial World AIDS Day which took place in the Namakwa district on 30th November – 1st December 2018 where coordination was being led by the Provincial AIDS Council through the Office of the Premier.

Maternal, infant and child mortality reduced

Road-to-Health Booklet (RTHB) is being issued at birth and serves as both a health record and a health promotion tool. In order to optimize its use as a tool for promoting the well-being of children during the “First 1000 days”, the booklet has been revised and restructured around five (5) key themes. All districts were trained on the new RTHB.

A sensitization workshop to all government departments on the Obesity Strategy and the Healthy eating in the Workplace guidelines was conducted. The Supplementary feeding programme and the guidelines were revised and distributed. Districts are busy with refresher training sessions on these policies. Breastfeeding talks and other nutrition activities were also conducted in Reproductive Health month to promote awareness on breastfeeding and a healthy pregnancy.

Sexual Health Reproductive Health awareness campaign was conducted in all five (5) districts and an information session was provided to twenty-nine (29) provincial health employees, with emphasis on self-breast examination.

The promotion of contraceptives was conducted to discourage teenage pregnancy. Health Care Workers and Community Health Workers during Youth and Adolescent Friendly Services training were trained on available contraceptive methods. Other training programmes were also conducted such as Cervical and Breast Policy implementation policy and on liquid-based cytology; Basic Ante Natal Care and Prevention of Mother to Child Transmission; and Baby Breathe (HBB) have been extended to Health Care Workers across the province to improve the Neonatal Care immediately after birth.

Efficient health management information system and implementation for improved decision making

The installation of new patient administration and billing system was completed at all Hospitals in the Province.

Upgrading of data lines has been completed at new De Aar Hospital, new Kimberley Mental Health Hospital, West End Hospital, Robert Mangaliso Sobukwe Hospital, Dr Harry Surtie Hospital and Kuruman Hospital.

The network infrastructure was completed at the PHC facilities, namely, Griekwastad CHC, Ma-Doyle Clinic, Barkley-West Clinic, Beaconsfield Clinic, Hartswater Clinic, Jan Kempdorp Clinic, Delportshoop Clinic, Windsorton Clinic, Phutanong Clinic, Warrenton Clinic, Ritchie Clinic and Galeshewe CHC.

The National Department of Health visited the Province and delivered computers at all the district hospitals and a few Community Health Centres (CHCs) to ensure that these facilities uses the RX Solution Stock System to manage the ordering of pharmaceutical items.

2. Review of the current financial year (2018/19)

The department has appointed clinic committees and hospital boards and rigorous training was conducted to ensure that these structures are efficient and fully operational in various districts. Although challenges exist for functioning of them to meet a quorum when convened.

The clinical forensics training programme for health care professionals could not be rolled out due to administrative delays.

Medical equipment was successfully procured at Robert Mangaliso Sobukwe Hospital. However, the implementation of the procurement plan could not be fully rolled out due to supply chain capacity constraints.

The negotiations about the concluding of the Memorandum of Understanding (MOU) with the farming sector is at the advanced stage and planned to be completed in the 2019/20 financial year.

Twenty-one (21) RSA-Cuban trained medical students who are to be placed at Robert Mangaliso Sobukwe Hospital returned to South Africa in July 2018. They have been undertaking an induction and orientation programme in various medical schools in South Africa, before the placement at specific health facilities.

The districts conducted peer reviews for the Ideal Clinic Realisation and Maintenance throughout the province and only two facilities (Masakhane and Bothitong clinic) achieved silver on the Ideal Clinic status.

The new De Aar hospital only operates in the old hospital's capacity and funding has not been sourced to incrementally expand the services package.

The Emergency Medical Services showed a notable improvement on both priorities one calls in urban under 15 minutes as well as priority one calls rural under 40 minutes. This is despite the fact that the programme is currently operating with an average of 82 to 90 ambulances over the period with a steady decline in number of ambulances. Inter-facility transfers continue to be on the rise due to low levels of skills capacity and low level of service packages available in certain facilities.

3. Outlook for the coming financial year (2019/20)

The department has planned to perform the following activities:

- Filling of critical clinical funded posts in the health facilities.
- harmonise and standardise the work of ward-based primary health care outreach teams through the Comprehensive HIV/AIDS and TB Grant.
- perform feasibility study on the insourcing of nuclear medicine, dialysis, cardiac ultrasound and radiotherapy services.
- procure medical equipment to modernize tertiary health services and strengthen intensive care unit at various health facilities.
- upgrade training and laboratory facilities to improve human capacity of the department.
- continue to prioritise the maintenance of health facilities based on the infrastructure condition assessments.
- implement preventative maintenance contracts for fire-fighting equipment, heating, ventilation and air conditioners and standby generators.

4. Reprioritisation

The budget allocation for transfers to non-profit institutions was reprioritised by R116.4 million to make provision for the permanent recruitment of Community Health Workers providing HIV/AIDS related services in line with Health Sector directives and Bargaining Council resolutions. The budget for construction of new health facilities has been reprioritised in order to provide for the repairs and maintenance of existing facilities within the Health Facility Revitalisation Grant.

An amount of R5.5 million was identified from funding of training 200 auxiliary nurses in order to make provision for the start-up costs for operationalization of the new Kimberley Mental Health Hospital. The funding for the full operationalization will be sought in the next financial year.

5. Procurement

The department will develop the procurement plan for the 2019 MTEF with specific focus on procuring emergency vehicles, medical equipment as well as major maintenance services for various health facilities.

The department's revenue target for 2019/20 financial year remains unchanged when compared to the 2018/19 adjusted budget. Therefore, the revenue forecasts for the 2020/21 and 2021/22 outer years of the MTEF are estimated to grow by 5.4 per cent linked to the inflation.

The main revenue collected by the department is from hospital patient fees recoverable from among others, medical aids, Compensation for Occupational Injuries and Disease (COIDA) and other government institutions such as South African Police Service (SAPS), South African National Defence Force (SANDF) and Department of Justice and Constitutional Development after providing health care services to their respective beneficiaries. In addition to the patient fees, commission of 2.5 per cent is earned on payroll deductions such as insurance and garnishee orders.

6.3 Donor funding

The department did not receive any foreign assistance other than agency receipts from Health and Welfare SETA for the training of nursing students and implementation of work skills development.

7. Payment summary

7.1 Key Assumptions

The following broad key assumptions were made while preparing the budget of the Department of Health for the 2019 MTEF:

- The assumption for the general CPIX used for the current budget is based on the inflationary projections estimated at 5.4 per cent for 2019/20, 5.6 per cent for 2020/21 and 5.4 per cent for 2021/22.
- The assumptions for the provision of Improvement on Conditions of Service (ICS) in the baseline for the 2019 MTEF is estimated at 6.4 per cent in 2019/20, 6.6 per cent for 2020/21 and 6.4 per cent for 2021/22.
- Additional funds were allocated during the 2018 MTEF as a baseline adjustment to ease the budget pressure on the historical shortfall of improvement of conditions of service and further provide for the pressures on goods and services.
- As part of the revitalisation and capacitation of the health sector a new grant, namely Human Resource Capacitation Grant, has been introduced in order to directly appoint critical staff in health facilities and is allocated R11.606 million in 2019/20, R12.372 million in 2020/21 and R13.164 million in 2021/22.
- The Community Outreach Services is funded as a component of Comprehensive HIV/AIDS and TB Grant in order to harmonise and standardise the work of ward-based primary health care outreach teams and is allocated R66.967 million in 2019/20, R70.717 million in 2020/21 and R115.296 million in 2021/22.
- The Tuberculosis is funded as a component of Comprehensive HIV/AIDS and TB Grant in order to monitor spending and outcomes of the TB portion within this grant and is allocated R31.619 million in 2019/20, R33.358 million in 2020/21 and R35.193 million in 2021/22.
- An amount of R26.405 million was allocated to cover the budget pressures on training of Medical Officers in Cuba in the financial year, 2021/22.

The department's budget baseline for 2019/20 shows a significant growth of 7 per cent from the adjusted budget of 2018/19 and growth with 7 per cent in 2020/21 and 7.3 per cent in 2021/22. The positive growth in 2020/21 is attributable to the additional funds allocated as baseline adjustment to ease the budget pressure on the historical shortfall of improvement of conditions of service.

The key objectives of the department to be achieved include among others: the acceleration of ideal clinic initiative; re-engineering of primary health care; rolling out of the CCMD in all districts, National Health Insurance (NHI), emergency medical services, medical equipment, the prevention and successful management of HIV/AIDS and TB; maintenance of infrastructure and rendering of tertiary health services.

Compensation of employees grows by 11.7 per cent when compared with the adjusted budget of R2.8 billion in 2018/19. This significant increase makes provision for the carry through costs on the permanent recruitment of Community Health Workers; hence, the significant decline on the allocation towards transfers to non-profit institutions. Personnel costs remains the main cost driver of the department, hence constitutes 60.3 per cent of the budget allocated for 2019/20 financial year. The compensation of employee's budget shows an increase by 6.6 per cent and 6.7 per cent in 2020/21 and 2021/22 respectively.

The goods and services budget show a growth of 4 per cent when compared to the R1.631 billion of adjusted budget of 2018/19. This is attributable to a once-off allocation during the 2018 adjustment budget. However, the budget allocation grew by R120 million in 2019/20 and R150 million in 2020/21, which was allocated in 2018 MTEF period as baseline adjustment to ease the budget pressure on goods and services. Hence, the budget shows a real growth of 4 per cent in 2019/20, 11 per cent in 2020/21 and 8.8 per cent in 2021/22 respectively.

Transfers and subsidies show a growth of 5.6 per cent when compared to the adjusted budget of 2018/19. The budget for transfers is reduced significantly during the adjustment budget of 2018/19. This significant reduction was mainly due to the correction of funds budget for non-profit institutions payments for agency services (home based care) done on behalf of the department as per SCOA classification.

The budget for payments of capital assets shows a negative growth of 14.7 per cent compared to the R376.034 million of the adjusted budget of 2018/19. This significant reduction is mainly due to reprioritisation within the Health Facility Revitalisation Grant to scale down on the construction of new facilities and prioritising the repairs and maintenance of existing health facilities as no incentive grant allocation was received for the 2019/20 MTEF year.

1. Total provincial infrastructure is the sum of "Capital" plus "Recurrent maintenance". This includes non infrastructure items.

The department, as part of its infrastructure development programme, will continue with the current projects in the 2019 MTEF. The projects are mainly related to the construction of primary health facilities (clinics and community health centres) and hospitals, which are exclusively funded by the Health Facility Revitalisation Grant. Preventative maintenance is also funded from the Engineering sub-programme (equitable share) as reflected in Programme 7: Health Care Support Services. The details are outlined on Table B5 published in the Estimates of Provincial Capital Expenditure.

7.5 Departmental Public-Private Partnership (PPP) projects

The department has no PPP project running currently and over the 2019 MTEF.

7.6 Transfers

7.6.1 Transfers to public entities

The department does not have transfers to any public entity.

7.6.2 Transfer to other entities

The table above shows a summary of transfers to other entities. It comprises of transfers to non-profit institutions for home and community-based care services that receive funding from the department. Allocations made to the institutions are to fund the stipends of the home and community-based caregivers and the administrative costs of these institutions as well as payments for severance packages.

The transfers of payment to non-profit institutions for HIV/Aids related services has been phased out, due to the permanent recruitment of Community Health Workers.

The table above indicates transfers to municipalities for the purpose of subsidizing primary health care services provided at local municipal clinics on behalf of the department. The transfer is dependent upon the provision of satisfactory services in line with Memorandum of Understanding (MoU) or Service Level Agreement's signed by the department and the municipalities.

8. Receipts and retentions

This section is not applicable to the department.

9. Programme description

Programme 1: Administration

Provide strategic leadership and overall administration of the Northern Cape Department of Health.

9.1 Description and objectives

Sub-programme objective

Office of the MEC

The rendering of advisory, secretarial and office support services to the political office bearer.

Management

This sub-programme is responsible for the Policy formulation, ensuring effective financial management, administration, render support of the department and the respective districts including institutions within the department, in accordance with the Public Service Act, 1994 (as amended), the Public Finance Management Act, 1 of 1999 (as amended by Act 29 of 1999), and other applicable legislation.

9.2 Programme expenditure analysis

Programme 2: District Health Services**Description and objectives**

To render Primary Health Care Services and District Hospital Services. This will be done through ensuring accessible PHC services, overhauling the health care system and improving management.

Sub-programme objective**District Management:**

Planning and administration of services, managing personnel- and financial administration and the co-ordination and management of the Day Hospital Organisation and Community Health Services rendered by Local Authorities and Non-Governmental Organisations within the district and determining working methods and procedures and exercising district control.

Community Health Clinics:

Rendering a nurse driven primary health care service at clinic level including visiting points, mobile- and local authority clinics.

Community Health Centres:

Rendering a primary health care service with full-time medical officers in respect of mother and child, health promotion, geriatrics, occupational therapy, physiotherapy, speech therapy, communicable diseases, mental health etc.

Other Community Services:

Rendering environmental, tuberculosis and part-time district surgeon services.

HIV and AIDS:

Rendering all health care services in respect of HIV and Aids, including raising awareness and special projects.

Nutrition

Rendering nutrition services aimed at specific target groups and that combines direct and indirect nutrition interventions to address malnutrition.

District Hospitals

Rendering of hospital services at a district level.

The budget for district health services has increased by 10 per cent from the adjusted budget. The estimates of 2020/21 and 2021/22 shows an increase of 6.8 per cent and 8.0 per cent respectively. The programme was allocated baseline adjustment on goods and services to reduce the impact of accruals on the non-negotiable items.

The budget growth allocated made provision for the targeted ideal clinic status rate, improved primary health care, rolling out of the CCMDD, including the 24 hour operations at the community health centres, compliance with the District Hospital Norms and Standards and rendering of HIV/AIDS and TB community outreach services, prevention and treatment thereof.

The compensation of employees has increased by 16.5 per cent from the adjusted budget of R1.303 billion. This is attributed to additional funds that was allocated to cater for the shortfall on the ICS as well as the reprioritisation done within the Comprehensive HIV/AIDS and TB grant in order to make provision for the carry through costs on the permanent recruitment of Community Health Workers, hence the significant decline on the allocation towards transfers to non-profit institutions. The budget of personnel estimates of 2020/21 and 2021/22 shows an increase of 5.7 per cent and 6.4 per cent respectively.

Goods and services shows a growth of 1.1 per cent from the adjusted budget of R835.1 million. This is attributable to once-off allocation from the adjustment period of 2018. However, the budget allocation grew as a result of baseline adjustment to ease the budget pressure on goods and services, which was allocated in 2018 MTEF period. Resultantly, the budget shows a real growth of 20 per cent in 2019/20, 8.8 per cent in 2020/21 and 10.9 per cent in 2021/22 respectively. The transfers and subsidies are showing a growth of 5.6 per cent from the adjusted budget.

Programme 3: Emergency Medical Services (EMS)

The rendering of an effective and efficient pre-hospital EMS including inter-hospital transfers and Planned Patient Transport.

Description and objectives

Emergency Transport

Rendering Emergency Medical Services including Ambulance Services, Special Operations, communications and Air Ambulance Services.

Planned Patient Transport

Rendering Planned Patient Transport including Local Outpatient Transport (within the boundaries of a given town or local area) and Inter City / Town Outpatient Transport (into referral centres).

The baseline for compensation of employee's budget has increased by 4.7 per cent from adjusted budget of R209.7 million. The funding estimates for 2019/20 and 2020/21 shows an increase of 5.9 per cent and 5.5 per cent respectively.

The budget for goods and services shows a growth of 30 per cent in 2019/20 MTEF year. The estimates of 2020/21 and 2021/22 shows an increase of 5.8 per cent and 5.5 per cent respectively. The programme was allocated additional funds during the 2018 MTEF as baseline adjustment on goods and services to reduce the impact of accruals on the non-negotiable items.

The budget for payment for capital assets shows a 10.8 per cent decline from the adjusted budget of R32.6 million due to reprioritisation of funds to provide for the carry through costs of Emergency Care Officers already appointed during the previous financial year. The outer years of the MTEF are recording the growth linked to the estimated inflation.

Programme 4: Provincial Hospital Services

Description and objectives

Delivery of hospital services which are accessible, appropriate, effective and providing a specialist service, including a specialised rehabilitation service, as well as a platform for training health professionals and research.

Sub-programme objective

General (Regional) Hospitals

Rendering of hospital services at a general specialist level, and a platform for training of health workers and research. This will be achieved through sufficient capacity to render quality TB services and improve secondary services.

Tuberculosis (TB) Hospitals

To convert the present TB hospitals into strategically-placed centres for excellence, in which a small per cent of patients may undergo hospitalisation, under conditions which allow for isolation during the intensive phase of treatment, as well as the application of the standardised multi-drug resistant (MDR) protocols.

Psychiatric Mental Hospitals

Rendering of specialist psychiatric hospital services, for people with mental illness and intellectual disability, providing a platform for the training of health workers and research.

The budget of this programme shows growth of 6.3 per cent from the adjusted budget of R384.6 million. The programme was allocated additional funds over the MTEF in order to impact on the non-negotiable items. The estimates of 2020/21 and 2021/22 shows an increase of 10.5 per cent and 5.5 per cent respectively to cover contractual obligations.

The compensation of employee's budget shows growth of 7.8 per cent from the adjusted budget of R274.8 million. This significant increase resulted from funding that was reprioritised to this programme for recruitment of security officers at the new Mental Health hospital and funding from Human Resource Capacitation grant. The outer years of the MTEF are estimated to grow by 11.8 per cent and 5.5 per cent in 2020/21 and 2021/22 respectively.

The goods and services show growth of 2.3 per cent compared to the adjusted budget as a result of once off funding that was allocated for the relocation and transfer of patients from West End Specialised Hospital to the new Kimberley Mental Health Facility. The real growth is 12.7 per cent after discounting the once off allocation. The estimates of 2020/21 and 2021/22 shows an increase of 6.9 per cent and 5.5 per cent respectively.

Programme 5: Central Hospital Services

Description and objectives

To deliver tertiary services which are accessible, appropriate, effective and to provide a platform for training health professionals and research.

Sub-programme objective

Provincial Tertiary Hospital Services

To deliver improved tertiary specialist services which are accessible, appropriate, and effective and provide a platform for the training to health professionals and research.

The budget for this programme shows a growth of 6.2 per cent from the adjusted budget of R1.080 billion. The programme was allocated additional funds over the MTEF as baseline adjustments to ensure that the minimal tertiary services are rendered efficiently and effectively. The outer years of the MTEF are estimated to grow by 7.6 per cent and 5.5 per cent in 2020/21 and 2021/22 respectively.

The compensation of employees shows growth of 6.1 per cent from the adjusted budget of R767 million. The estimates of 2020/21 and 2021/22 shows an increase of 6.7 per cent and 5.5 per cent respectively.

Goods and services budget shows an increase of 21.4 per cent from the adjusted budget of R236.5 million. This increase attributable to an allocation earmarked for inflationary exchange depreciation on medicine prices amounting to R16.899 million as well as the baseline adjustment on goods and services to reduce the impact of accruals on the non-negotiable items. The estimates of 2020/21 and 2021/22 shows an increase of 9.9 per cent and 5.5 per cent respectively.

The transfers and subsidies increased by 5.6 per cent from the adjusted budget of R2.3 million, linked to the inflation to cater for unexpected exit of personnel over the MTEF.

The payment for capital assets show a significant negative growth, due to once-off funding for the procurement of medical equipment rolled over during the adjustment budget. There is satisfactory growth of 9.2 per cent in the 2020/21 financial year to cater for the procurement of medical equipment.

Programme 6: Health Science and Training

To render training and development opportunities, for actual and potential employees of the Department of Health.

Description and objectives

Sub-programme objectives

Nurse Training College

Training of nurses at undergraduate level. Target groups include actual and potential employees.

EMS Training College

Training of rescue and ambulance personnel and target groups includes actual and potential employees.

Bursaries

To offer training and development opportunities, through the provision of bursaries, for internal and potential employees.

Primary Health-Care Training

Training and development of professional nurses, in post-basic nursing programmes.

Training Other

Provision of skills development interventions, for all occupational categories, in the department and the target groups includes actual and potential employees.

The budget for this programme shows growth of 11.7 per cent in 2019/20 when compared to the 2018/19 adjusted budget of R125.3 million, this significant increase resulted from the slow spending in the 2018/19 financial year on training. The estimates of 2020/21 and 2021/22 shows an increase of 5.4 per cent and 23 per cent respectively. The outer years of the MTEF shows a growth to cater for the absorption of Cuban Doctors after completion of their studies.

Programme 7: Health Care Support Services

Description and objectives

To render support services required by the department to realise its aims.

Sub-programme objectives

Laundry Services

Rendering a laundry service to hospitals, care and rehabilitation centres and certain local authorities.

Engineering

Rendering a maintenance service to equipment and engineering, installations as well as minor maintenance to buildings.

Orthotic and Prosthetic Services

Rendering specialised orthotic and prosthetic services.

Forensic Services

Rendering specialised forensic and medico-legal services in order to establish the circumstances and causes surrounding unnatural death.

Medicine Trading Account

Managing the supply of pharmaceuticals and medical supplies to hospitals, community health centres and community health clinics.

Programme 8: Health Facilities Management

Description and objectives

Provision of new health facilities and the refurbishment, upgrading and maintenance of existing facilities.

Sub-programme objectives

District Hospital Services

To construct new facilities (Clinics, Community Health Centres and District Hospitals), as well as to upgrade, rehabilitate and maintain existing facilities within each district.

Provincial Hospital Services

To construct provincial facilities, as well as to upgrade, rehabilitate and maintain existing facilities.

The Health Facilities Management programme is mainly funded by Health Facility Revitalisation Grant. The estimates of this programme show a negative growth of 7.1 per cent when compared to the adjusted budget of R420 million, which is due to an once-off allocation during 2018 adjustment budget. The estimates of 2020/21 and 2021/22 shows an increase of 5.2 per cent and 7.8 per cent respectively.

The compensation of employee's budget is adequate in order to fill vacant DoRA posts as per approved structure funded from Health Facility Revitalisation Grant as recommended by National Treasury. However, the department is struggling to attract and retain infrastructure professionals, thus the underspending on compensation of employees.

The goods and services budget declined significantly compared to the adjusted budget of R175.500 million, this is due to an once-off allocation provided to reduce the impact of existing budget pressures on the maintenance of facilities. The estimates of 2020/21 and 2021/22 increases significantly due to reprioritisation by the department moving towards maintenance of facilities rather than construction of new facilities.

The budget for payments of capital assets shows a decline of 6.1 per cent when compared to the adjusted budget of R233.743 million, this is attributable to the reprioritisation of funds from building infrastructure to maintenance.

1. Overview

Core functions and Responsibilities

The Department of Social Development (DSD) is the lead department in terms of Outcome 13: Social Protection, consequently, the department therefore coordinates interventions of government in terms of building an inclusive and responsive social protection system. This mandate is derived from Section 27 and 28 of the Constitution.

The principle provision in section 27(1) (c) states that “everyone has the right to have access to social protection including, appropriate social assistance for those unable to support themselves and their dependents.”

Section 27(2) goes further enjoining the State to take reasonable legislative and other measures, within its available resources to achieve the progressive realisation of these rights.

Government has therefore identified the need for a social protection system that has the ability to assist families to achieve a basic standard of living, therefore ensuring that no one slips below a minimum standard of living.

In this regard, the department has identified in accordance with the National Development Plan (Vision 2030) a targeted number of 13 334 no-income households to be migrated out of poverty over a five-year period (2014 - 2019).

The implementation and outcome of the service delivery goals are guided by the mandate of the department namely:

- To build an inclusive and responsive social protection system.
- To reform social welfare services as outlined in the Medium Term Strategic Framework, 2014-2019.
- To provide access to quality Early Childhood Development (ECD) services and strengthen community development interventions as the three sub-outcomes to be achieved through expanding service provision to the vulnerable groups, whilst creating support networks through service provision to respond to the needs of each vulnerable group e.g. people with disabilities, older persons, zero income families or children living and working on the street.

The nature of the services rendered by the Department of Social Development in complementing partnership with stakeholders to various vulnerable groups requires a service delivery methodology that advocate for teamwork amongst the range of social service professionals within a community. This in order to create therapeutic support networks at family level, social protection support networks at soup kitchen, Drop-in- Centre’s at community level and developmental support networks at Youth Service Centre’s level for the youth.

Vision

A caring and self-reliant society.

Mission

To transform our society by building conscious and capable citizens through the provision of integrated social development services.

Values

The following values and ethos have been identified for the Department of Social Development:

- **Human dignity** is a fundamental human right that must be protected in terms of the Constitution of South Africa and facilitates freedoms, justice and peace.
- **Respect** is reflecting in regard for one another and the people we serve, it is a fundamental value for the realization of development goals.
- **Integrity** is ensuring that we are consistent with our values, principles, actions and measures and thus generate trustworthiness amongst ourselves and with our stakeholders.
- **Fairness** expresses our commitment to providing services to all South Africans without prejudice based on race, gender, religion or creed.
- **Equality** we seek to ensure equal access to services, participation of citizens in the decisions that affect their lives and the pursuit of equity imperatives where imbalances exist.

Strategic Goal

To build, cohesive, caring and sustainable communities.

Short overview of the main services

- Social work interventions and support programmes to zero income families (2667 families).
- Social Welfare Services sub-programmes contribute towards an inclusive and responsive social protection system, enabling zero income families with special needs to migrate out of poverty.
- Establish an in-patient treatment centre for substance abuse users.
- Access to community based treatment and after care services.
- Expansion of a range of services at shelters for victims of gender based violence.
- Provision and access of social services to victims of violence through the court support model.
- Provision of specialist services for human trafficking at the victim empowerment (VEP) service site Bopanang.
- To provide secure care centres for sentenced youth in conflict with the law and children awaiting trial.
- Provision for therapeutic services and programmes to youth in conflict with the law.
- Community Capacity Enhancement (CCE) methodology will be followed to bring about social change in areas of substance abuse, food security, HIV and AIDS, illiteracy, or unemployment to assist household, communities to achieve the basic standard of living.
- To provide an integrated basket of services in partnership with departments, municipalities, business and non-governmental organisations (NGO's) at household level.
- In partnership with households and communities to solve collective needs i.e. unemployment, illiteracy, food security and address social ills such as substance abuse and gender-based violence.

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

The Department of Social Development has the responsibility of leading in partnership with stakeholders. Outcome 13 by building a comprehensive, inclusive and responsive and sustainable social protection system to broadening the vulnerable groups to receive a service providing a range of social protection services that brings about a positive change to the needs of the vulnerable group inclusive of the following sub-outcomes:

- Sub-Outcome 1: Reform the social welfare system to deliver better results for vulnerable groups.
- Sub-Outcome 2: Provide a comprehensive package of ECD services for children from conception to age 4, focusing in particular on the poorest and also considering home-based provision.

- Sub-Outcome 3: Strengthen community development by emphasizing the roles of community-based planning and community profiling through providing support to establish community based structures.
- Sub-outcome 4: Access to food to vulnerable households and quality of food provision to vulnerable households.

2. Review of the current financial year (2018/19)

The department engaged in an integrated service delivery approach by identifying 2889 households as part of the 'War on Poverty Programme' anti-poverty intervention, thus ensuring that individual development plans are developed for each household and change agents are identified per household to ensure developmental as well as welfare services and programmes to the identified households.

In the 2018/19 financial year, services provided to these families ranged from counselling and support services, food parcels, school uniforms, issuing of birth and death certificates, child maintenance, UIF, free basic water and electricity services, ABET, career guidance, special needs feeding schemes, school fees, learnerships, medical check-up required for any illness, immunization, treatment, nutrition, family planning services, services to older persons, foster care services, substance abuse services, victim empowerment services, therapeutic services, business start-up assistance, scholar transport, child support grant, old age grant, foster care grant, disability grant.

A number of 161 young people have been afforded the opportunity to develop their skills and obtained accredited training ranging from learners or driver's license and Information Technology from April 2018 to September 2018.

A total of 5238 families received family preservation services such as marriage counselling, therapeutic services, family group conferencing to address social ills such as gender based violence, substance abuse based on the service needs of families, with the aim of creating therapeutic support networks amongst family members. Care and services to families include family preservation programmes e.g. fatherhood programme, family preservation services which are individual counselling interventions to family members to address social ills such as substance abuse, gender based violence, family reunification services between children and parents, the provision of parenting skills to foster parents and parents with children presenting behavioural challenges.

To date, a total number of 17 211 young people participated in youth mobilization programmes towards social change and nation building e.g. National Youth Services Category 3, intergenerational programmes, life skills programmes at youth service center's etc.

In order to comply with the Older Person's Act No 13 of 2006 for the re-registration of Old Age Homes, the department in partnership with the National Department of Social Development undertook an assessment of all Old Age Homes in the province to determine their state of compliance to the Act. Seven (7) Old Age Homes were identified as non-compliant due to infrastructural challenges. Of the seven (7) two (2) formed part of the worse-off homes in the country and consequently, the department in partnership with these Old Age Homes engaged the National Lotteries Commission to source funding for these two Old Age Homes. The National Lotteries Commission granted approval and therefore a process is currently underway to refurbish these two (2) Old Age Homes.

The department continues to ensure that there is compliance with the norms and standards of mainstreaming services to people with disabilities with specific reference to protective workshops for people with disabilities.

A total number of 11 (eleven) Child and Youth Care Centres (Children Homes) are funded and is functional hosting an amount of 397 children.

In terms of ensuring service, engaging communities underpin delivery interventions in the service planning and delivery process with the aim of ensuring community participation and ownership, the department currently funded thirteen (13) Community Mobilisation Enhancement Projects throughout the province. Non-Profit Organisations (NGO) manages the thirteen (13) projects because of its aim of ensuring community-driven development. A range of interventions is delivered through these projects as per the community-based plans, which were developed in partnership with the identified communities and other stakeholders. The thirteen (13) projects forms part of the departmental Integrated Service Delivery Framework, which places communities and local government at the centre of our service delivery programme.

In terms of ensuring that service delivery interventions are based on service needs of each vulnerable group with the aim of building therapeutic networks within communities, Government has identified Early Childhood Development as a key intervention in terms of ensuring targeted approach towards social protection. Sub-outcome 2 of the Medium Term Strategic Framework (MTSF) states that access of Early Childhood Development services to 0-5 year-old children and quality of early childhood development services must be improved. Also, in compliance to the Children's Act no 38 of 2005 the Department of Social Development provided ECD programmes, registration for compliance to norms and standards, the provision of educational toys, training of ECD practitioners, renovations and upgrading of community based ECD centres and the rollout of non-mobile ECD centres. Quality early learning programmes must be scaled up to improve the school readiness gap for children living in poverty and with disabilities.

Increased access of children 0-5 years to early childhood development services:

- A number of 21 196 children had access to registered community based ECD programmes since April 2018.
- Although the registration of ECD centres were drastically improved, the registration of ECD centres is being delayed by the outstanding documents from municipalities. Data is constantly updated and provided to districts.
- The mobile trucks (fully equipped with educational toys and learning material) in the John Taolo Gaetsewe and Pixley ka Seme districts are fully operational and 2073 children were reached through these non-centre based ECD services from April 2018 to September 2018.

Quality Early Childhood Development services to enable and prepare children 4 years' old through stimulation programmes for mainstream schooling:

- The district officials monitor the implementation of the registered programme on a monthly basis. Furthermore, the practitioners are alerting parents on learning challenges observed and encourage them to make appointments with the relevant therapists of Department of Health in order to address the learning challenges.
- A number of 116, identified children in the six (6) sites (Donald Duck in Warrenton, Boikhutsong Day Care Centre in Bloemanda, Mataleng Crèche in Barkly West, Sonstraaltjie in Rietfontein, Hompie Kedompie Crèche in Williston and Humpty Dumpty Crèche in Hanover) were assessed by the occupational therapist, dietician, as well as a speech therapist.

The department received a conditional grant to the value of R13.7 million for ECD Development to address infrastructural challenges as well as to increase access to ECD. Sixty-eight (68) centres were assessed, out of the assessed centres; forty-nine (49) have been allocated R0.180 million for improvements during the 2017/18 financial year. In addition, two (2) project managers as well an administrator was appointed as part of the conditions of the grant.

3. Outlook for the coming financial year (2019/20)

The Department of Social Development reaffirms to execute the vision of the National Development Plan, 2030 through the three service delivery goals:

- Migrating families out of poverty to ensure that no one slips below the minimum standard of living.
- Improved social service provision, which deliver better results for vulnerable groups applying the Community Capacity Enhancement (CCE) methodology (social change) so that households that have not achieved the basic standard of living are assisted.
- Protect the constitutional rights of vulnerable groups (wards of the state) through gradually narrowing the ratio of statutory work between the Department and the NGO sector.

These service delivery goals will find expression through the following policy priorities:

Strengthening social welfare delivery through legislative, policy reforms, capacity building:

- Employ fifteen (15) social worker bursary holder graduates and
- Provide forty (40) learners with learnership programme.

Improved provision (improved quality and access) of Early Childhood Development services for children aged 0-4:

- Afford 18 582 children access to Early Childhood Development programmes and
- Fund 375 ECD practitioners in registered ECD programmes.

Strengthen community development interventions:

- A number of 576 older persons to access residential facilities;
- Conduct 130 advocacy and awareness programme targeted at people with disabilities;
- Conduct skills development programmes to 380 youth;
- Provide 1640 clients with access to substance abuse services and
- Provide 27 000 people with access to food through DSD feeding programmes (Centre-based).

Deepening social assistance and expanding access to social security (Provincial priority-food security):

Benefit 40 000 people on DSD Social Relief Programmes.

4. Reprioritization

The department made provision of 6.4 per cent increase on compensation of employees' budget, which is in line with personnel inflation related adjustment of CPI + 1 per cent. This created a pressure on the non-personnel related items whereby goods and services, transfers and subsidies as well capital payments growth rate is only 5 per cent across the board on the equitable share.

5. Procurement

No major procurement planned for the 2019/20 financial year.

6. Receipts and Financing

6.1 Summary of receipts

Table 2.1 provides a summary of receipts.

The departments' primary source of revenue is parking fees, rental on dwellings and fees related to the deduction of garnishees and insurances.

The department is projecting to collect R1.154 million in the 2019/20 financial year, which is in line with 5.4 per cent inflation increase from the 2018/19 adjusted appropriation of R1.095 million. The department is projecting collect R1.154 million in the 2019/20 financial year of which R0.724 million relates to sales of goods and services other than capital assets and R0.430 million relates to transactions in financial assets and liabilities for staff debt recovery written off.

6.3 Donor Funding

The department does not receive any foreign aid assistance.

7. Payment summary

7.1 Key assumptions

- Provision was made for Employees Performance Development Management System (EPMDS) and pay progression of 1.5 per cent;
- Provision was made for 6.4 per cent (CPI +1) growth on compensation of employees in 2019/20;
- CPI of 5.4 per cent, 5.6 per cent and 5.4 per cent in each year of the MTEF; and
- Provision of 5 per cent growth on contractual obligations.

The table above reflects the rate at which the department's expenditure grew during the past seven years as well as the budget growth over the MTEF. The department's expenditure has increased from R713.793 million in 2015/16 to an adjusted budget of R870.183 million in 2018/19 financial year. The expenditure estimates continue to show good growth as it grows from R870.183 million in 2018/19 to R920.594 million in 2019/20. An average growth rate of 6 per cent is expected over the MTEF mainly due to conditional grants allocation and national earmarked funds to address the services rendered by NGOs following the NAWANGO court judgement and the prevention and early intervention programmes to fight the abuse of women and children.

The budget of the department is mainly personnel driven and compensation of employees constitutes 48 per cent of the total allocation. *Compensation of Employees* reflects a growth of 6.5 per cent over the MTEF. This is mainly due to additional allocation in order to cushion the historical impact of ICS and due to the reprioritised budget during the adjustment period from this line item in order to defray excess expenditure in goods and services.

The budget for goods and service grows with 5 per cent over the MTEF; this is attributed to the additional earmarked funds for violence against women and children including expansion of Isibindi. The baseline also includes inflationary increases on contractual obligations in respect of security services and gardening at the secure care centres, audit fees, additional earmarked funds allocated for the operationalization of the secure care centres.

Transfers and subsidies constitute 26 per cent of the total budget of the department whilst payments of capital assets over 2019 MTEF increased marginally by 5 per cent. In the 2019/20 financial year, provision will be made for the building of ECD's Centres as per the ECD Conditional Grant Framework.

The above table illustrates departmental infrastructure payments as well as funding provided towards new infrastructure over the 2019 MTEF. The allocation for new infrastructure assets has reduced significantly over the recent past years mainly because of the Substance Abuse Treatment Centre having reached completion in the 2018/19 financial year.

The programme reflects an increase of R5.693 million or 2 per cent in the 2019/20 main budget as compared to the 2018/19 adjusted budget.

Management and support reflects a minimal growth of 2 per cent in the 2019/20 financial year, this is because of realignment of personnel costs to the sub-programme where the service is being rendered.

Care and Services to Families reflects growth of 6 per cent in 2019/20 main budget when compared to the 2018/19 adjustment budget.

Child Care and Protection, reflects an increase of 6 per cent in 2019/20 main budget as when compared to the 2018/19 adjustment budget.

ECD and Partial Care, reflects a decrease of 15 per cent in 2019/20 main budget as when compared to the 2018/19 adjustment budget, mainly due to the correction of the baseline for Services to Persons with Disabilities (including services to disabled children). The Early Childhood Development Grant was also decreased for the 2019/20 financial year.

Child and Youth Care Centre's reflects an increase of 17 per cent in the 2019/20 main budget as when compared to the 2018/19 adjustment budget. The increase is due to the NAWONGO court case funding received for implementation from the 2019/20 financial year.

Community-Based Care Services for children reflects an increase of 21 per cent in the 2019/20 main budget as compared to the 2018/19 adjustment budget. This is due to Earmarked funding received from National Social Development for the expansion of Isibindi.

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

The guiding principle remains alignment with the National Development Plan 2030 through explicit linkages to the MTSF 2014-2019. While minimal changes can be expected, there has been a substantial change to some of the service delivery areas. In addition, the Agricultural Policy Action Plan (APAP) was a key document that guided the planning of services in the department and thus the policy trajectory remains largely unchanged.

The budget is linked to a number of key policies that apply to the sector. Efforts have been taken to ensure that the programmes of the department respond expressly to these policy priorities noting the constraints of the economic environment.

Further details on these policy matters may be found in the Annual Performance Plan 2019/20.

2. Review of the current financial year (2018/19)

Programme 2: Sustainable Resource Management

The programme continued to give engineering support to developmental projects including the areas affected by the 2011 floods. The biggest support was conditional grants projects throughout the province. The programme finalised the designs as well as the procurement processes for the Bulk water infrastructure in Onseepkans. Implementation started in the 3rd quarter and will go well into the 2019/20 financial year.

The province had been declared a drought disaster area and the allocation of R127 million was finalized in 2017/18 but for implementation in 2018/19 for drought relief (livestock feed). More than 3280 farmers were assisted with fodder over a period of 3 months. A further R35 million related to drought disaster was allocated to the department to implement projects to mitigate against future drought.

Six Land Care projects were implemented which focused on rehabilitating degraded rangelands, natural water sources and capacity building in Natural Resource Management.

Programme 3: Farmer Support and Development

The Fetsa Tlala Food Production Programme was successfully implemented with an increase of production to 703 hectares despite drought in the Province. Grain production was the main commodity produced especially maize, wheat and vegetables from the three districts; Frances Baard, Pixley Ka Seme and Namakwa. Farmers received production inputs in the form of wheat and maize seed, fertilizer and diesel and were also supported with machinery to increase and improve yield.

The Vineyard Development continued in the western region of the province in Namakwa and ZF Mgcawu. Taking advantage of the Orange River and conducive environment for vineyard production, the main commodities produced were wine grapes, table grapes and raisin grapes.

The provincial Female Entrepreneur Awards was celebrated at Warrenton, Magareng Local Municipality. All winners received prize monies which are invested back into their farming enterprises. The “*Best Subsistence Producer*” in the province was awarded the “*Best Producer in the Sector*” at the national Awards. World Food Day commemoration was held at Postmasburg on 16th October 2018.

Drought remained a challenge and livestock farmers in Namakwa District were badly affected. This resulted in many farmers withdrawing from farming due to high mortality rates experienced.

Programme 4: Veterinary Services

There has been general improvement in the health status of both pets and production animals in remote areas through the intervention of the Compulsory Community Service programmes. Surveillance of high-risk diseases as mandated by Department of Agriculture Forestry and Fishery (DAFF) was fully executed and no risk was found for transboundary diseases except reactors for contagious Bovine Pleuropneumonia.

The veterinary laboratory continued to receive more samples from neighbouring provinces giving a major strain available resources. Technical personnel received training in preparation for the 18 months SANAS surveillance audits to maintain the accreditation status.

No major incidents of illegal slaughtering were reported due to proactive inspections and awareness programmes. Independent meat inspection was fully implemented in all red meat abattoirs in the province while implementation at the poultry abattoirs is in progress in line with the Meat Inspection Scheme as approved by the Minister.

Programme 5: Research and Technology Development Services

A systems analysis was conducted on the current Northern Cape Agricultural Information System (NCAIS) to evaluate its functionality against similar systems in South Africa. This entailed a needs analysis, a SWOT analysis as well as a scope to upgrade the system to integrate the information with other systems.

No new incidences of Fall Army Worm (FAW) has been reported in any crops planted in the Province. Monitoring is on a continuous basis and we remain in contact with all the relevant stakeholders. In respect of the Oriental Fruitfly (*Bactrocera invadens*) in the table grape producing areas along the Orange River, a total area of ±22 000 ha of citrus, table-, wine- and dry grapes were placed under quarantine. Delimiting traps were deployed in an area covering ±15 000 ha. Subsequently, the quarantine measurements were lifted and table grape exports could proceed.

The monitoring of climate change is continuing at the Carnarvon Research Station. The Fodder Bank has delivered assistance to drought stricken farmers in the Namakwa district as well as farmers affected by severe veldt fires in Frances Baard District.

The aquaculture & fishery industries were supported through different initiatives with the main achievements being the experimental small scale fishery on Van der Kloof Dam, participation in the coastal audit on the southern portion of the coastline and one scientist completing a post graduate diploma on Aquaculture. Implementation of the Van der Kloof Trout Cage culture was delayed due to withdrawal of the pilot project implementer.

Programme 6: Agricultural Economics

The support provided to smallholder farmers to enable them to participate in the value chains of the commodities they produce was getting them registered for SA GAP and audited by the Perishable Products Export Control Board (PPECB). The raisin drying facilities of producers along the Lower Orange River in Eksteenskuil for example were audited and support provided for those aspects that were found to be lacking to ensure certification.

Economic reports and studies were compiled to give analysis of the performance of the sector and quarterly analyses on movements of inflation, employment and the gross domestic product and their impact on the Province's economy.

Programme 7: Rural Development Coordination

In the 2018/19 financial year, programme managed to support emerging farming on state land and coordinated support for land holding institution. Farmworkers and farm dwellers were assisted to access government services e.g. ID documents, birth certificates for children, voter registration, health packs, school uniforms and in some instances farm evictions were stopped. The department successfully implemented the bush control project funded through the EPWP incentive grant at Schmidtsdrift.

3. Outlook for the coming financial year (2019/20)

Programme 2: Sustainable Resource Management

As mentioned above, the programme will be implementing the bulk water infrastructure worth R68 million at Onseepkans. This will dominate the programme's time in 2019/20. Engineering support will continue in all projects related to conditional grants. The drought in the Namakwa district is persisting and a new application will be made for further assistance.

LandCare will be implementing five projects focusing on Junior LandCare, conservation agriculture, protection and rehabilitation of wetlands and rehabilitation of degraded rangelands.

Programme 3: Farmer Support and Development

Food security, job creation and eradication of poverty remain the key priority in the sector. This will be achieved primarily through the conditional grants for improved infrastructure both on and off farm to produce optimally and increase production. Through the Fetsa Tlala Food production programme farmers will be provided with production inputs in the form of seed, fertilizer and diesel.

The current drought situation, increased food prices and low income on agricultural products make the environment challenging. Farmers will continually receive training to adapt to the changing climatic conditions and new technologies.

Support of mega projects remains priority for department for creation of jobs especially in rural communities. The department will continue to support and recognize contribution of women in the sector through Female Entrepreneur Awards and commemoration of World Food Day to promote food production at household level.

Programme 4: Veterinary Services

The focus this year will be on the prevention and control of zoonotic disease through awareness and vaccination campaigns culminating in events on World Rabies Day. In the wake of the recent Foot and Mouth Disease (FMD) outbreaks in the Free Zone of the country, the province will increase its vigilance at high-risk areas and augment DAFF initiated surveillance programmes.

Proactive illegal slaughtering surveillance through the profiling of meat handling establishment will continue as part of initiative to combat illegal slaughtering. The department will oversee the implementation of the Meat Inspection Scheme at Poultry abattoirs once the regulations are enacted.

The priority for the laboratory in addition to the maintenance of the SANAS accreditation will be to extend the scope of accreditation to include *Brucella Ovis* and *Brucella melitensis*. The major challenge is the diagnostic capacity to achieve these objectives. The laboratory also plans to expand research on Epizootic Ulcerative Syndrome (EUS), also known as Red Spot Disease (RSD) in the Vaal River system as well as the epidemiological study to establish the potential role of vectors in the transmission of African Swine Fever.

The benefit of having community service veterinarians in the province has resulted in improved clinical service. To ensure that communities benefit more from this service, the department plans to increase the number of outreach clinics in the rural areas targeting production animals.

Programme 5: Research and Technology Development Services

The programme will continue with the monitoring of climate change together with stocking density on animal performance and vegetation change in the Upper Karoo of the Northern Cape. The monitoring and sharing of information where positive outbreaks are recorded for pests not naturally occurring in the province (e.g. Fall Army Worm, *Bactrocera invadens*, Phytophagous) will also continue. The project footprint will be refined and updated and merging of the Northern Cape Agricultural Information System with SPICYS will be explored further.

Animal Production will focus on evaluation of beef cattle genotypes and the implementation of the Genome Resource Conservation Framework for the Tankwa Feral goats.

Programme 6: Agricultural Economics

Support to smallholder farmers will continue in terms of economic advice, training on financial management and marketing as well as export readiness through the SA GAP certification. Studies on macro-economic indicators and their influence on the sector will continue to be undertaken.

Programme 7: Rural Development Coordination

For the 2019/20 financial year, the programme intends to finalise the equity scheme challenges. Farmworkers and farm dwellers will be provided with training focusing on basic skills and first aid. We will continue to coordinate provision of government and basic municipal services for farmworkers and farm dwellers and lessen human rights abuses in farming areas. The Department will continue to coordinate activities of all delivery partners in the rural space. 800 youths will be trained in various skills pathways in the Province. Through the EPWP ±4000 ha of *Senegalia Mellifera* (Black thorn) will be controlled in Schmidtsdrift.

4. Reprioritisation

The department has tried to reprioritise funds from non-core items to important service delivery components. There has been very limited movement of funds between goods and service and compensation of employees.

5. Procurement

Most of the department's procurement will be sourced from the Comprehensive Agricultural Support Programme Grant (CASP) and Illima / Letsema Conditional Grants funding, mostly for infrastructure related activities. The total procurement for infrastructure related projects under the CASP conditional grant amounts to R42.523 million, while the Illima / Letsema Grant amounts to R17.150 million in the 2019/20 financial year.

6. Receipts and financing

6.1 Summary of receipts

Table 2.1 provides a summary of total receipts of the department, which indicate two (2) sources of funding, namely, equitable share and conditional grants.

Table 2.1 : Summary of receipts

R thousand	Outcome			Main appropriation	Adjusted appropriation 2018/19	Revised estimate	Medium-term estimates

The 2019/20 financial year's overall budget of R538.960 million indicates a decline of 16.9 per cent when compared to the 2018/19 main appropriation. This is mainly as a result of the reduction in the allocation of CASP due to the conclusion of the Flood disaster funding. The equitable share allocation for the 2019/20 financial year constitutes 64 per cent of the total allocation of the department, and grows at an average of 6 per cent over the MTEF period.

The department continues to manage four (4) conditional grants with a total value of R194.284 million in the 2019/20 financial year:

- Comprehensive Agricultural Support Programme Grant
- Illima/Letsema Projects Grant
- Land Care Programme Grant: Poverty Relief and Infrastructure Development; and
- Expanded Public Works Programme Incentive Grant.

CASP has an allocation of R119.458 million in the 2019/20 financial year and includes funding for the Extension Recovery Plan (ERP) of R26 million. The Land Care amounts to R8.166 million while the Illima/Letsema Projects Grant has an allocation of R64.169 million for the 2019/20 financial year. The CASP allocation to the province has been reduced due to the top slicing of the grant nationally to establish the blended financing model.

The department has identified some high impact value chain projects that will be funded through CASP and Illima/Letsema grants. These mega projects are geared to unlock the economic potential of the province and contribute to the Gross Domestic Product (GDP), and these include:

- Namakwa Irrigation Development;
- Vaalharts Revitalization Scheme;
- Rooibos Development;
- Vineyards Development Scheme; and
- Livestock Production and Development programme

6.2 Departmental receipts collection

Table 2.2 : Summary of departmental receipts collection

Total departmental receipts	2 968	3 311	4 670	2 420	2 420	3 360	2 818	2 971	3 134

The department anticipates to collect revenue amounting to R2.818 million in the 2019/20 financial year, which is an increase of 11.6 per cent when compared to the R2.420 million in 2018/19. The revenue estimate grows from R2.818 million in 2019/20 to R3.134 million in the 2021/22 financial year.

Sales of goods and services other than capital assets is the major source of revenue for the department. This category comprises of fees from export permits, abattoir licensing and veterinary analytical services offered at the department's laboratories as well as incidental revenue from the sale of animals from research farms.

The collection of interest, dividends and rent on land is limited and is projected to remain relatively constant over the 2019 MTEF. Transactions in financial assets and liabilities include collections from recovery of previous year's expenditure and internal debts owed to the department.

The fluctuation over the seven-year period is largely driven by demand in services provided by the department as well as incidental revenue from the sale of animals, which is difficult to predict.

6.3 Donor Funding

The department does not receive any foreign aid assistance.

7. Payment Summary

7.1 Key Assumptions

- Inter-departmental co-funding for rural development projects.
- Inflation is projected to be at 5.4 per cent for 2019/20, 5.6 per cent for 2020/21 and 5.4 per cent for 2021/22.
- General salary adjustments will be approximately 1 per cent above the projected CPI.
- Shortfall on Improvement in Condition of Service is funded from the national fiscus.
- Recruitment and retention of certain expertise to assist the department to deliver critical services.
- Funding for disasters will be sourced through interventions at national level.

7.2 Programme summary

Expenditure trends for the period 2015/16 – 2018/19 showed average nominal growth of around 12.8 per cent. This is due to funding of the flood assistance scheme in 2017/18 and 2018/19 as well drought funding in 2018/19. The department was allocated R127 million for drought relief interventions (livestock feed procurement) and R35 million for drought mitigation projects in 2018/19. The total budget allocation of 2019/20 decline by R109.948 million or 16.3 per cent compared to 2018/19 financial year. The allocations increases to R574.960 million in 2020/21 and R609.888 million in 2021/22 at an average of 6 per cent.

Generally, all the programmes budget allocations grow consistently with an average of 5.3 per cent over the 2019 MTEF except for Farmer Support and Development. This programme shows a decline of 35.8 per cent in the 2019/20 financial year as a result of the conclusion of flood disaster funding and Rural Development programme which fluctuates due to the EPWP Incentive grant.

7.3 Summary of economic classification

Table 2.4 provides summary of provincial payments and estimates by economic classification.

For the period 2015/16 to 2018/19 the average annual nominal growth of compensation of employees grew by 9.6 per cent while goods and services by 31.9 per cent. The increase in the goods and services expenditure, as stated earlier, is attributed to disaster funding of floods and drought.

Compensation of employees grows to R268.022 million in the 2019/20 financial year from R253.878 million in the 2018/19 financial year. This is a 5.6 per cent increase, which makes provision for improvement in conditions of service. This growth is stable and consistent at 6.1 per cent over the 2019 MTEF. The allocation for salaries and related costs of employees in the department accounts for 48 per cent of the total allocation of the department in the 2019/20 financial year.

The allocation for goods and services decreases to R148.173 million in the 2019/20 financial year, which is 50 per cent decrease from R297.090 million in the 2018/19 financial year. This is mainly because of the reduced allocation of CASP due to the conclusion of the flood disaster and the top slicing of the grant nationally to establish the blended financing model. .

The department intends transferring funds to various projects as well as Kalahari Kid Corporation. Details thereof are under section 7.6.

7.4 Infrastructure payments

7.4.1 Departmental Infrastructure payments

Table 2.4.1 below provides a summary of provincial infrastructure payments and estimates by category.

Funding for infrastructure projects is mainly from conditional grants allocations with the exception of some maintenance work carried out at research stations funded from equitable share. The two conditional grants (CASP and Ilima/Letsema) continue to be the basis of the department's infrastructure spending estimates for the 2019 MTEF. The infrastructure budget decreases by 58 per cent to R60.190 million in 2019/20 financial year when compared to R142.873 million in the 2018/19 financial year. This significant reduction in 2019/20 relates to Flood Assistance that concludes in 2018/19. It should be noted that an amount of R124.9 million was available in 2018/19 for infrastructure development from the flood disaster allocation.

7.5 Departmental Public Private Partnership (PPP) projects

The department does not have any implemented or proposed PPP projects.

7.6 Transfers

7.6.1 Transfers to public entities

Table 2.6 below shows the total amount of transfers to public entities under the control of the department.

A 3-year strategy was tabled to the portfolio committee in 2017 to ensure long-term sustainability of the entity. The department has budgeted an amount of R3.350 million for both operational expenses and recapitalisation in 2019/20 financial year as transfer payments to Kalahari Kid Corporation, which has the following main objectives:

- Management of the production farms;
- Marketing of live animals and animal products – processing through the abattoir and selling of products; and
- Marketing of animals from the cooperatives as well as procurement of goods from emerging farmers.

The department will be transferring funds to the various entities as listed in table 2.7 above. A total of R35 million will be transferred in the 2019/20 financial year for these projects to acquire capital assets and production inputs for themselves. These funds are sourced from the conditional grants, of which R7 million for Niewoudtville Rooibos (Pty) Ltd being allocated from CASP and the remaining projects amounting to R28 million from the Ilima/Letsema grant.

7.6.3 Transfers to other local government

The department does not transfer to any municipality in the province.

8. Receipts and Retentions

Not applicable to the department.

9. Programme description

9.1 Description and objectives

Programme 1: Administration

The purpose of this programme is to manage and formulate policy directives and priorities, to ensure there is appropriate support service to all other programmes with regard to finance, personnel, information, communication and procurement.

This programme has an internal focus. Activities under this programme are directed by national and provincial policies, legislations and directives. The programme is structured into five (5) sub-programmes and renders support functions to all other programmes. Planning, Performance Monitoring and Evaluation sub-programme in the tabled Strategic Plan has been placed under senior management in order to align with the national budget and programme structure.

Sub-programme objectives

Senior Management

To provide strategic leadership and support throughout the organization.

Corporate Services

To ensure effective human resource management.

Financial Management

To provide sound financial and risk management support services to the department.

Communication Services

To provide communication services and information technology support.

9.2 Programme expenditure analysis

Table 2.10.1 provides a summary of payment by sub-programme.

Table 2.10.1 : Summary of payments and estimates by sub-programme: Programme 1: Administration

Compensation of employees grows with 4.4 per cent from R79.587 million in 2018/19 to R83.053 million in 2019/20. This growth makes provision for the recommended improvement in conditions of service and the filling of critical vacant posts in management.

The goods and services allocation grows by 3.3 per cent to R38.421 million in the 2019/20 financial year compared to R37.209 million in 2018/19 and further grows by 4.8 per cent on average over the MTEF.

Transfers and subsidies budget grows by 5.5 per cent to R1.807 million in 2019/20 financial year compared to R1.712 million in 2018/19 and continues to grow on average by 5.5 per cent over the MTEF. This primarily funds the bursary programme for external candidates in scarce skill areas that the department requires.

Payments for capital assets grows by 56.4 per cent to R3.524 million in 2019/20 compared to R2.253 million in the 2018/19 financial year. This makes provision for the correct classification of finance leases and the acquisition of an official vehicle.

9.3 Service Delivery Measures

The programme does not have service delivery measures.

Programme 2: Sustainable Resource Management

The purpose of the programme is to provide agricultural engineering support services to farmers in order to ensure sustainable development and management of agricultural resources.

Sub-programme objectives

Engineering Services

To provide engineering support (planning, development, monitoring and evaluation) with regards to irrigation technology, on-farm mechanisation, value adding, farm structures, resource conservation management, operation and maintenance of farm equipment, machinery, tools, and implements solutions

Land Care

Plan and coordinate the implementation of LandCare projects

Land Use Management

To promote sustainable use of natural resources through the implementation of regulated land use (Act 43 of 1983, Act 70 of 1970 and related legislation).

Disaster Risk Management

To provide agricultural disaster risk management support services to clients/farmers by implementing programmes on disaster plans for droughts, veld fires and floods.

Programme expenditure analysis

Table 2.10.2 provides a summary of payment by sub-programme.

The budget of the programme increases by 5.2 per cent to R35.578 million in the 2019/20 financial year from R33.828 million in the 2018/19 financial year. The programme's budget includes the allocated funding for Land Care conditional grant amounting to R8.166 million in the 2019/20 financial year and further grows to R9.089 million in the 2021/22 financial year.

In 2018/19 an amount of R127 million was allocated to this programme for drought relief interventions while a further R35 million was allocated within the LandCare grant for drought mitigation interventions. Only R85.339 million was appropriated during the Adjusted Appropriation of 2018/19 while a further R42.339 was appropriated with a second adjustment bill which is not reflected in the figures above.

The programme's budget on compensation of employees grows by 5.4 per cent to R22.145 million in 2019/20 financial year compared to R21.347 million in the 2018/19 financial year. The increase is mainly to make provision for improvement in conditions of service. The compensation budget will continue to grow on average by 5.4 per cent over the MTEF.

Goods and service budget shows a slight growth of 2.7 per cent in the 2019/20 financial year compared to the 2018/19 financial year.

In 2018/19 the department procured GPS equipment for R2.7 million. An amount of R0.350 million is set aside for computer equipment in the 2019/20 financial year.

Programme 3: Farmer Support and Development

To provide support to farmers and rural communities through agricultural development programmes.

Sub-programme core strategic objectives

Farmer Settlement and Development

To provide support to smallholder and commercial producers for sustainable agricultural development.

Extension and Advisory Services

To provide extension and advisory services to farmers.

Food Security

To provide support to food insecure households.

Programme expenditure analysis

Compensation of employees budget grows by 7 per cent to R55.578 million in the 2019/20 financial year compared to R51.952 million in the 2018/19 financial year. Compensation of employees will grow on average by 6.1 per cent over the MTEF to make provision for annual improvement in conditions of service.

Good and services decline by 68 per cent to R69.876 million in 2019/20 financial year compared to R218.932 million in 2018/19 financial year. This is mainly as a result of the conclusion of the flood disaster funding and the downward revision in the allocation of the CASP grant.

A total of R35 million will be transferred in the 2019/20 financial year for some projects to acquire capital assets and production inputs for themselves. These funds are sourced from the conditional grants with R7 million for Niewoudtville Rooibos (Pty) Ltd being allocated from the CASP grant and the remaining projects amounting to R28 million sourced from the Ilima/Letsema grant. The details are listed in table 2.7.

Programme 4: Veterinary Services

The purpose of the programme is to provide veterinary services to clients in order to ensure healthy animals, safe animal products and welfare of people of South Africa.

Sub-programme core strategic objectives

Animal Health

To prevent, control and eradicate animal diseases through surveillance programmes, vaccination, inspections and training.

Export Control

To provide health certification for import and export of animals and animal products.

Veterinary Public Health

To promote the safety of meat and meat products at harvesting level through the registration and monitoring of abattoirs.

Veterinary Laboratory Services

To provide diagnostic services to veterinary personnel, farmers, food processing plants and private veterinarians.

Programme 5: Research and Technology Development Services

The objective of the programme is to render expert and needs based research, development and technology transfer services impacting on development objectives.

Sub-programme core strategic objectives

Research

To improve the agricultural production through conducting, facilitating and coordinating medium to long term research and technology development projects.

Technology Transfer Services

Disseminate information on research and technology developments.

Infrastructure Support Services

To provide and maintain infrastructure facilities for the line function to perform their research and other functions.

Programme 6: Agricultural Economics Services

The purpose of the programme is to provide timely and relevant agricultural economic services to the sector in support of sustainable agricultural and agri-business development to increase economic growth.

Sub-programme core strategic objectives

Agric-Business Support and Development

To provide agri-business support through entrepreneurial development, marketing services, value adding, production and resource economics.

Macroeconomics Support

To provide macroeconomic and statistical information on the performance of the agricultural sector in order to inform planning and decision making.

Programme 7: Rural Development

To coordinate the intervention programmes of all departments and institutions in rural areas to ensure that the land and agrarian reform and rural development mandate is achieved. To coordinate joint planning, identify specific areas for targeted interventions, and monitor progress with CRDP implementation plans in the province.

Sub-programme core strategic objectives

Rural Development Coordination

- To ensure comprehensive rural development; and
- To support development structures at CRDP Sites.

Social Facilitation

Facilitate provision of services to people living and working on farms.

Programme expenditure analysis

Table 2.10.7 provides a summary of payment by sub-programme.

1.1 Aligning departmental budgets to achieve government's prescribed outcomes

The Annual Performance Plan has been developed in line with the allocated budget and has been aligned to the Environmental Sector Performance indicators and the Outcome 10 Delivery Agreement. The department has adopted a vision that is in line with Constitution and all strategic objectives have been aligned with the programme budget structure. The outlook for the 2019/20 financial year clearly indicates the department's key priorities and activities for achievement within the allocated budget.

2. Review of the current financial year (2018/19)

Outcome 10: Key Provincial Focus Areas and Activities

Sub-Outcome 1: Ecosystems are sustained and natural resources are used efficiently

- In the year under review, the department has efficiently implemented the Environmental Impact Assessment (EIA) legislation with 100 per cent EIA's finalised within legislative timeframes. A total of thirty three (33) Environmental Authorisations were issued in this period. A total of three hundred and fifty five (355) specialist inputs were provided towards these processes.
- To expand the conservation estate, the department is partnering with private land owners through the stewardship programme. The Conservation estate has been expanded with 7 3907 hectares privately owned land and 3 628 hectares provincial land. The provincial conservation areas attracted 7 186 day visitors and 3 082 overnights for the year, showing sustained interest of the public in the provincial nature reserves.
- The regulation of the use of natural resources resulted in the issuing of 1 634 permits of which 1 533 were issued within legislated timeframes in the current financial year.
- Forty one (41) wildlife related assessments and moderations were conducted as a result of additional hunting courses held by private training providers.
- One (1) biodiversity economy initiative has been implemented.

Sub-outcome 02: An effective climate change mitigation and adaptation response

- The Northern Cape Climate Change Adaptation Response Strategy was completed and approved and ready for mainstreaming in all sectors in the province.
- Climate Change Response Strategies have been developed for all 5 Districts, with financial assistance from GIZ (Gesellschaft Internationale Zusammenarbeit), and mainstreamed through their Integrated Development Plans.

Sub-outcome 3: An environmentally sustainable, low-carbon economy resulting from a well-managed just transition

- Ten (10) awareness activities on specified environmental themes were conducted
- Three hundred and ninety six (396) EPWP jobs were created.

Sub-outcome 4: Enhanced governance systems and capacity

- Forty three (43) administrative enforcement notices have been issued for non-compliance with environmental management legislation, while twenty one (21) completed criminal investigations were handed over to NPA for prosecution.
- The department participated in four (4) operation Phakisa Oceans Economy enhanced enforcement Operations.
- Monitoring of the air through 3 ambient air quality monitoring stations in 3 locations, namely Springbok, Kimberley and Postmasburg, measuring levels of pollutants like nitrogen oxide, sulphur dioxide and ozone to inform actions to improve the quality of the air in these specific areas.
- Air quality in the province is managed through the licensing of emitters, the monitoring of air quality, the development of plans and strategies to prevent or address air pollution, support to municipalities and industry regarding compliance with air quality legislation and support to poor communities.
- In the year under review two (2) air emission licences were issued, all within legislated timeframes.
- The department is responsible for the regulation of waste management in the province and one of the main goals is to ensure less waste that is better managed
- Eight (8) municipalities were assisted to comply with waste legislation throughout the province.

Sub-outcome 5: Sustainable human communities

- The department analyses Integrated Development Plans from municipalities against a set of environmental criteria.

3. Outlook for the coming financial year (2019/20)

Outcome 10: Key Provincial Focus Areas and Activities

- Expand the protected area estate with 60 000 hectares through the declaration of state owned protected areas and the biodiversity stewardship programme, bringing the total conservation estate in the province to 1 719 380 hectares.
- Complete 98 per cent of the received EIA applications within legislated timeframes for the promotion of sustainable development in the province.
- The department anticipates the development of one (1) legislative tool to ensure the protection of species and ecosystems.
- Conduct twenty (20) environmental awareness activities on specified environmental themes.
- Celebrate three (3) environmental calendar days.
- Create three hundred and thirteen (313) EPWP and fifteen (15) non-EPWP job opportunities in the green economy sector.
- A number of 3 young people to be involved in Skills Development Initiatives.
- Undertake eighty (80) administrative enforcement actions finalized for non-compliance with environmental legislation.
- Complete twenty (20) criminal investigations and hand over to NPA for prosecution.
- Monitor real-time ambient air quality in two (2) stations.
- Facilitate the Provincial Air Quality Management Forum.
- Process 100 per cent of Air Emission License applications within legislative timeframes.
- Process 100 per cent of Waste License applications within legislative timeframes to ensure less and better managed waste and sustainable land use management in the province.
- Support to six (6) municipalities to comply with environmental management legislation through the implementation of the Cooperative Governance, collaboration and integration strategy.

4. Reprioritisation

The department has looked into all the programmes budgets in order to determine efficient savings and realign funds towards budget pressures and reprioritisation on all economic classifications.

5. Procurement

The following are the major planned services that will be procured in 2019/20 financial year:

- Telephone System from SITA for the whole department.
- Travel Management System for booking of flights, car hire, accommodation, conference facilities and any related services.
- Acquisition of MEC's vehicle.
- Security Systems for securing the Departments provincial headquarters.

6. Receipts and financing

6.1 Summary of receipts

Table 2.1 provides a summary of receipts.

A significant portion of departmental revenue is derived from the sale of goods and services which include fees from hunting and fishing licences, entrance fees, game culling at the provincial nature reserves, commission on insurance as well as fines issued in terms of section 24G of the National Environmental Management Amendment Act (NEMA). The drought prevailing in the province affects the current revenue collection trend.

The following assumptions were determined by the department in establishing the foundation for drafting the budget for revenue:

- The hunting licenses fees will escalate in accordance to the Threatened or Protected Species (TOPS) legislation.
- Fees are in accordance to the departmental approved tariffs which is reviewed on an annual basis.
- The calculation / estimation is in line with treasury guidelines and the escalations used are 5.4 per cent for 2019/20, 5.6 per cent for 2020/21 and 5.4 per cent for 2021/22.

6.3 Donor Funding

The department has no donor funding anticipated for the ensuing financial year.

7. Payment summary

7.1 Key assumptions

The following criteria were developed to determine funding priorities:

- Assumptions for salary increases were taken into account, amongst others, adjustments contained in the wage agreement as well as for performance appraisals.
- Assumptions for inflation related items were based on CPIX projections of 5.4 per cent in 2019/20, 5.6 per cent for the 2020/21 financial year and 5.4 per cent for the 2021/22 financial year.
- The approved tariffs were utilised.
- The budget takes into account the current five key priorities and the Medium Term Strategic Framework priorities including the environmental sector's six focus areas.

Compensation of employees is the main cost driver and constitutes 74 per cent of the department's allocation for the 2019/20 financial year. This is followed by goods and services at 24 per cent, capital assets and transfers combined are at 2 per cent. The personnel budget is R122.933 million which is an increase of R12.032 million or 11 per cent in 2019/20 financial year as compared to the revised estimate of R110.901 million in 2018/19. The provision includes all payments of OSD that will be paid in 2019/20 financial year.

The goods and services budget for the 2019/20 financial year is R39.509 million and has decreased by R3.467 million or 8 per cent compared to the 2018/19 revised estimate. The average decrease over the 2018 MTEF is 1 per cent. During the 2018/19 financial year department received a once off allocation of R8 million that increased goods and services.

The transfers and subsidies budget for 2019/20 is R0.037 million and has decreased by R1.221 million or 97 per cent from the 2018/19 revised estimate. This decrease is due to a once off amount of R1 million received during 2018/19 adjustment budget.

The payments for capital assets budget increased from R2.880 million in the 2018/19 financial year to R4.641 million in the 2019/20 financial year or 61 per cent. The increase is due to funds reprioritised to payments for capital assets from other items.

7.4 Infrastructure payments

The department does not have infrastructure payments.

7.5 Departmental Public-Private Partnership (PPP) projects

No Public-Private Partnership projects.

7.6 Transfers

7.6.1 Transfers to public entities

The department does not have public entities.

7.6.2 Transfers to Local Government

The department did not make any provision for transfer payments due to other priorities in the department's mandate for the 2019/20 financial year.

8. Receipts and retentions

The department does not retain the revenue collected.

9. Programme Description

9.1 Description and objective

Programme 1: Administration

Provide overall management of the department and centralized support services. The programme seeks to provide high quality strategic support encompassing Legal Services, Communications, Human Resources, Information Communication Technology and Facilities Management, that enables the department to effectively render its core function.

Sub-programme objectives

Office of the MEC

Render advisory, secretarial, administrative and office support services to the MEC, including parliamentary liaison services.

Senior Management (HOD)

Oversight of compliance with legislative requirements and governance framework and overall management of the department. Overall management of the department including HOD, senior managers and managers of the regions or districts (if any).

Corporate Services

Manage human resources, administration, corporate and legal services as well as related support and developmental services.

Provide external corporate communications services and press releases (not specific to environmental programmes or campaigns).

Financial Management

Ensure effective preparation and implementation of a strategic and financial plan as well as a budget for the department and the judicious application and control of public funds.

Ensure that accurate financial accounts are kept and that financial procedures are being adhered to. Proper, effective and efficient use of resources within the Public Service Act, 1994 and the Public Finance Management Act, Act 1 of 1999.

9.2 Programme expenditure analysis

Table 2.10.1 provides a summary of payments and estimates by sub-programme.

Compensation of employees increase from R42.718 million of the revised estimate in 2018/19 to R48.641 million in the 2019/20 financial year, this represents an increase of R5.923 million or 14 per cent.

Goods and services increase from R26.256 million of the revised estimate in 2018/19 to R29.217 million in 2019/20 financial year, this represents an increase R2.961 million or 11 per cent. The increase is due to fleet being centralised under Corporate Services.

The payments of transfers and subsidies allocation for 2018/19 is R0.224 million, it has decreased by R0.187 million or 83 per cent in the 2019/20 financial year. The decrease is due to funds shifted to goods and services.

Capital assets increase from R2.261 million of the revised estimate in 2018/19 to R4.122 million in the 2019/20 financial year. This represents an increase of R1.861 million or 82 per cent. The increase is due to funds reprioritised from other items.

Programme 2: Environmental Policy, Planning and Coordination

Develop and implement strategic, environmental and spatial plans and policies, ensure integration and cooperative governance between spheres of government, conduct scientific research and monitoring upon which are being reported for sound decision making related to the mandate of the department.

Sub-programme objectives

Intergovernmental Coordination, Spatial and Development Planning

Facilitate cooperative and corporate governance and promote implementation of intergovernmental sector programmes.

Legislative Development

Ensure that legislation, policies, procedures, systems and guidelines are developed to guide environmental decisions.

Research and Development Support

Ensures that over-arching research and development activities required for policy coordination and environmental planning is undertaken.

Environmental Information Management Services

Facilitating environmental information management for informed decision making. Develop an integrated state of the environment reporting system including the collection of data and development of provincial environmental performance indicators. Develop and manage GIS systems to support reporting, spatial information and impact.

Climate Change Management

Due to climate change management still being an unfunded mandate some of the functions there of will be performed as part of Sub-programme 4.2 Air Quality Management on an ad-hoc basis depending on the availability of funding.

Programme 3: Compliance and Enforcement

Ensure that environmental compliance monitoring systems are established and implemented. Enforcement of legislation and environmental authorisations. Building compliance monitoring and enforcement capacity through the establishment, training of environmental management inspectorates. Acting on complaints and notifications of environmental infringements and acting to monitor these complaints and enforce environmental compliance where required.

Sub-programme objectives

Environmental Quality Management Compliance and Enforcement

Ensure environmental quality management through compliance, monitoring and enforcement in the province.

Biodiversity Management Compliance and Enforcement

Enhance effective biodiversity conservation and management through compliance, monitoring and enforcement of biodiversity and coastal authorizations / permits in the province.

Programme 4: Environmental Quality Management

Ensure that environmental legislation is implemented in the reporting period to promote an environment that is not harmful to the health and wellbeing of all in the province. Due to Climate Change Management still being an unfunded mandate some of the functions thereof will be performed as part of Sub-Programme 4.2 Air Quality Management on an ad hoc basis depending on the availability of funding.

Sub-programme objectives

Impact Management

Facilitating environmental impact mitigation to promote sustainable development and a safe, healthy and sustainable environment. Implementation of an Environment Impact Management System (EIMS) through various tools including Environmental Impact Assessments and Environmental Authorisation Systems. Supporting an effective EIM system through various tools including Environmental Management Frameworks (EMF's) and other planning tools.

Air Quality and Climate Change Management

Improve air and atmospheric quality through the implementation of air quality management legislation, policies and system at provincial level. Support air quality management efforts at local, national and international levels. Implement air quality management tools such as the declaration of air quality priority areas, ambient air quality monitoring systems and emission source inventories.

Develop strategies to respond to the challenges and potential impact of climate change including the development of provincial climate policy and programmes. Includes both greenhouse gas mitigation response and vulnerability and adaptation responses to climate change. Implement relevant tools such as a greenhouse gas inventory and vulnerability maps as required.

Pollution and Waste Management

Develop and implement waste management plans and hazardous waste management plans and support local government to render the appropriate waste management services. Carry out effective authorisation of solid waste disposal sites and other waste management authorisations as required in legislation. Develop waste information systems to improve implementation of programmes to reduce and recycle waste.

Programme 5: Biodiversity Management

Promote equitable and sustainable use of ecosystem goods and services to contribute to economic development, by managing biodiversity, and its components, processes, habitats and functions. Effectively mitigate threats to biodiversity.

Sub-programme objectives

Biodiversity and Protected Area Planning and Management

Sustainable use of indigenous biological resources; access to and sharing of the benefits arising from use of biological resources, as well as bio-prospecting. Implementation of biodiversity related regulations and community based land management.

Conservation Agencies and Services

Implementing mechanisms for management of ecologically viable areas, conserving biodiversity; protecting species and ecosystems of specific land areas and related conservation activities.

Build a sound scientific base for the effective management of natural resources and biodiversity conservation decision making.

Conservation agencies (either external statutory bodies or provincial departments) are primarily engaged in nature conservation as well as the tourism and hospitality industry, the management of provincial parks, enforcement and monitoring within their areas and as well as research, education and visitor services.

Coastal Management

Promote integrated marine and coastal management. Ensure a balance between socio-economic development and the coastal and marine ecology. Ensuring an effective coastal zone management system through the compliance monitoring and enforcement of all coastal zone permits and regulations. Ensure effective management of pollution and the impact on the marine and coastal environment.

Programme: 6 Environmental Empowerment Services

Implement and enhance programmes to interact with stakeholders and empower communities to collaborate with government in implementing environmental and social economic programmes.

Sub-programme objectives

Environmental Capacity Development and Support

Promoting environmental capacity development and support (Internal and External). Implementation of community based environmental infrastructure development and economic empowerment programmes. Utilising own funding as well as through joint initiatives and donor funding.

Environmental Communication and Awareness Raising

To empower the public in terms of environmental management, through raising public awareness. To promote awareness of and compliance with environmental legislation and environmentally sound practices.
